Vaughan's "White Baby Rambler Rose."

In this bush rose we have a true white Baby Rambler. Imported by us last year from Germany. After growing it for a year we are more than pleased with it, as the plants have never been out of bloom. The flowers are borne in clusters of 50 to 75 individual flowers, 1 inch in diameter and pure snow white. A bed of this Rose is like a bank of snow and as sweet as honey.

The foliage is dark and glossy and finely cut. Does not grow over 12 inches in height, forming very bushy plants. For cemetery use of great value, being perfectly hardy.

Each individual flower measures about 2 inches across, and is of a beautiful soft pink, same color as Clothilde Soupert; later on changing into rosy carmine. The plant is of strong, vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. Very agreeable, as it is nearly thornless.

Lilium Longiflorum Giganteum.

Vaughan's Gladiolus Princeps.

See illustration, scale one-half natural size.

This "King of all Gladiolus" has become popular beyond every other variety, both in this country and throughout Europe. It has made a class for itself, and you do not have the best of all until you buy it.

The individual flowers are 5½ inches in diameter and sometimes one inch larger. The petals are very wide and rounded, well reflexed, forming an almost circular flower. The color is brilliant scarlet crimson with three broad white blotches on the lower petals. Spikes produce 12 to 15 flowers and grow 4 feet in height. It is exceptionally healthy and its flowering is continuous.

Mrs. Francis King.

New Giant Flowered Gladiolus.

We introduced this new variety in 1906 and everybody who has seen it growing or exhibited, tells us that we have not sounded its praises loudly enough, and that it will surely take a place in the first class for vigor of growth and brilliancy of bloom. Its color is light scarlet of a very pleasing shade which attracts attention at once. The flowers measuring 4 to 5 inches are borne on long stems and 4 to 6 are open on the spike at one time.

Each, 10c; per doz., 65c; per 100, $4.00; per 1000, $30.00.

Gladiolus America.

See illustration, scale one-fifth natural size.

In color it is a soft lavender pink, very light, almost a tinted white, spikes two and three feet long, very large spreading blooms, and luxuriant dark green foliage. It is evidently a favorite with florists already, bringing more than any other variety in the New York cut flower market. When cut it lasts in water a week or more, the blossoms retaining their vigor and delicate coloring to the last.

VAUGHAN'S JUNE-FLOWERING ASTER.

Earlier and Better Than Queen of The Market.

This new Aster is larger than Queen of the Market white, sown and planted alongside of the latter it beats it by fully one week. The flowers are of good size and form, very double and pure white. They are borne on stems from 18 to 20 inches in length.

Seed sown around the 20th of March commences to flower the 10th of June.

Sown outside the middle of April they are in flower about the 16th of July, and make a grand display all through the season. They are splendid for beds or borders, sown where they are to stand.

They are continuous bloomers; when the flowers are cut they continue to send out new groths and flowers.

NEW YORK MARKET.

This is an extra choice strain of Mignonette for greenhouse culture. Our seed is greenhouse grown, raised by a most careful grower.

The plants grow from 2 to 3 feet high and produce flower spikes up to 20 inches long, according to the quality of the soil, weather and treatment. The seed is all saved from selected plants grown from 3 to 5 shoots to a plant and was all saved from the spikes measuring from 10 to 18 inches long.

Packet (about 1,000 seeds), 50c.; per oz., $7.00; per ¼ oz., $1.00.

WHITE PEARL. Machet type. The long erect stalks carry enormous dense spikes of white flowers which stand well above the undulated foliage and with their white and red stamina form a grand effect. **Trade pkt., 25c.; ¼ oz., 40c.**

PRIMULA STELLATA.

Giant White Star. Pure white massive blooms of giant form produced in great abundance, admirably relieved by very dark foliage, retaining the true character of the Star Primula.

Salmon Pink Star A most charming companion to the above. For conservatory and table decoration it is indispensable.

Blue Star Improved. By careful selection of large blooms for stock we have produced a strain of really Giant Blue Star Primula with much darker blooms; the dark blue flowers harmonize with the pale green foliage.

Crimson Star. The grandest colored Star Primula yet introduced; the rich crimson blooms, which are as dark as Crimson King Sinensis, contrast beautifully with the dark green foliage.

NEW GIANT PANSIES.

TYPE OF MASTERPIECE PANSY.

Andromeda. New Giant Curled. Color a very delicate apple-blossom generally showing a soft lavender hue; rendered more effective by a somewhat darker veining. **Trade pkt., 25c.**

Aureola. A most unique sort. The three lower petals are carmine, each with a large round blotch, the upper petals are white, with a broad carmine stripe near the edge. **Trade pkt., 25c.**

Boulogne Giant. This is a special selection of a French Pansy grower; the flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. They are mostly 3 and 5 blotched, delicately veined, while the colors are rich and varied. Like all high-bred Pansies they are shy seed bearers. **Trade pkt., 50c.; ⅛ oz., $2.00.**

Bridesmaid. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty the finest Apple-blossom, and most strikingly sets off the dark blotches of the center. **Trade pkt., 25c.; ¼ oz., 80c.; oz., $3.00.**

Emperor Francis Joseph. The plants are of compact habit while the flowers are of very large size, pure white with a large blotch of brilliant violet blue on each petals. It is the best White Pansy in existence. **Trade pkt., 25c.; ⅛ oz., $2.00.**

Marechal Niel. The flowers are very large, without any blotches or veins and are of the same pleasing, delicate cream color as the rose whose name it bears. **Trade pkt., 25c.**

Mauve Queen. Of largest size, the flowers are of almost pleasing mauve color. The three lower petals have large blotches of blush carmine; **Trade pkt., 25c.; ⅛ oz., $1.00.**

Orchid-Flowered. A most interesting type of the Pansies of the Giant-Flowered Class, containing a mixture of must surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is light, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins towards the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt., 25c.; ¼ oz., $1.00; oz., $4.00**

Rosy Morn. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wide. **Trade pkt., 25c.; ⅛ oz., $1 00.**

Siegfried. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flower. **Trade pkt., 25c.; ⅛ oz., 75c.**

Giant Volcano. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt., 25c.; ⅛ oz., $1.00.**

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; ⅛ oz., 60c.; ¼ oz., $1.00; oz., $4.00.**

VAUGHAN'S "GIANT PANSY MIXTURE."

Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts. **Trade pkt., 25c.; ⅛ oz., 60c.; oz., 4.00; ¼ lb., $14.00.**

NOTHING BETTER.

VAUGHAN'S INTERNATIONAL PANSIES.

THE WORLD'S BEST.

Vaughan's International Pansy Mixture was first prepared and offered by us in 1889. We import from all the best European sources and personally inspected the fields of French and German specialists of their finest strains. These with best American types made up the collection. Each year has added to the quality of its flowers, the variety of its colors. We buy every year novelties of known merit to improve the mixture. This is the reason it is always complete, always the latest and always the best mixture AS WE BELIEVE. We add to all the Pansy Mixures which we now buy more than fifty per cent of choicest named kinds obtainable, each in rightful proportion. We thus know what it will produce. This is one of the SPECIALTIES which has established and held the reputation of Vaughan's Flower Seeds and this is one which we maintain most carefully, not alone as to quality but in vitality and germination. You are beginning right in Pansy growing when you start with Vaughan's International Mixture. **Trade pkt., 50c.; ⅛ oz., $1.50; ½ oz., $5.00; oz., $10.00**

SHELL PINK. Countess Spencer. A delightfully soft pink, shading a little deeper at the edges of the petals. Its size is larger than any other variety, and at its best the standard is usually two inches across, which is much wider than any other variety. The edges of all the petals, wings, and standard are wavy—just enough to give it a graceful, fluffy appearance. The stems are long, and even in the field, where the vines are never trellised, it is no trouble to find them eighteen inches in length. It bears almost without exception four blossoms to the stem, and they all face one way. The blossoms usually fall off instead of setting seed, which accounts for its long continuation of bloom, **oz., 15c.; ¼ lb., 35c.; lb., $1.35.**

They are continuous bloomers; when the flowers are cut they continue to send out new growths and flowers.

Trade pkt., 25c.; 1-8 oz., 50c.

New White Unicum Aster. This grand new Aster, 2 feet in height and of vigorous branch ing habit differs essentially in form of flowers from all other large flowering classes. The flowers are composed of long narrowly-channelled petals regularly expanded in all directions, presenting beautiful loose flowers of wonderful form, 5 to 6 inches in diameter. Splendid variety for cutting and for exhibition purposes. About 60 to 70 per cent come true from seed.

Violet King. The habit is similar to the branching Aster, vigorous in growth with long stiff stems. In form the flower is entirely new and distinct from any other variety; petals somewhat resemble the quilled varieties, but are much larger and broader, those in the center being fantastically twisted, curled and incurved, completely covering the crown. The bloom is round, full and very large, many of the flowers measuring from four to five inches. Its color is a soft violet-lilac. It comes into bloom about ten days before the Branching Aster. **Trade pkt., 15c.; oz., $1.00.**

Lavender Gem. The color of this new variety is the most beautiful ever seen inthe Aster. When first opened the flower is an exquisite shade of delicate lavender, deepening with age. The flower is always full double, showing no tendency to produce single or semi-double blooms. The feathery effect of the Ostrich-feathered type, to which it belongs, is enhanced by the fact that it bears a large proportion of long, partly tubular florets, that are irregularly cut and slashed, so that the flower looks like a ragged Chrysanthemum. In season it comes between Queen of the Earlies and Daybreak. **Trade pkt., 25c.**

Cardinal. The coloring of this novelty is entirely distinct from any other Aster, in fact it possesses a striking color of its own It is particularly adapted for bedding, owing to its free blooming qualities and brilliant coloring. When massed in a bed by itself, its deep vivid cardinal color **is as striking as the scarlet Salvia.** Cardinal begins blooming the first to the middle of August, retaining its brilliant coloring and full, well-developed flowers until late in the fall. Is excellent for cutting. **Trade pkt., 25c.**

Royal Purple. A new strain of branching Aster, growing about 15 inches high. Its habit of growth is entirely distinct, the stems growing directly from the ground, and not on side shoots from the main stem like other varieties. The flowers are large and full to the center; petals flat and somewhat incurved; color bright purple. **Trade pkt., 15c., oz., $1.00.**

Begonia Dichroa. A new and most attractive shrubby Begonia. The seedlings, branching freely from the base, produce ovate-acuminate, slightly undulated, light green leaves garnished with numerous round, pure white blotches. When the flower buds appear, the new leaves unfold themselves unicolored dark green, while the older foliage retains its white spots, so that two different colored leaves are to be noticed on flowering plants. The axillary flowerstalks develop an extraordinarily large inflorescence of a wonderful brilliant salmony-orange, a rare and unique color. On account of its easy culture, succeeding well in an intermediate house during winter and in greenhouses during summer, this grand new perpetual-flowering Begonia is of the highest decorative value and can be confidently recommended as a novelty of lasting merit. **Trade pkt., 25c.**

Campanula Medium Imperialis, The "Emperor Canterbury Bell"

Compared to the old type of Canterbury Bells this new strain is superior to it in the much wider range of colors, the lighter tones predominating. A splendid plant for beds and pot culture. **Trade pkt., 15c.**

Candytuft Empress. A special selection which we secured from one of the leading London seed growers. **Covent Garden Strain.** It is the best stock of this fine cut-flower we know of. **Trade Pkt., 10c., ½ oz., 25c. oz., 40c.**

New Annual Chrysanthemum, Bridal Robe. Of very compact and upright habit and not exceeding 10 inches in height, the sturdy plants throw out their finely feathered foliage from the base and deck themselves with a mantle of extra double pure white flowers. With their short closely-set petals the latter recall the finest forms of very large-flowering double Daisies and appear in such number that a large bed in full bloom may well be compared to a drift of snow. Coming almost true from seeds, it will certainly prove a bedding plant of the very first rank, while also useful for pot culture. **Trade pkt., 25c.**

Chrysanthemum Leucanthemum hybridum, Spring Marguerite. It is the early-flowering habit of this Marguerite, which the raiser claims as its foremost merit, being the first of the entire tribe coming into bloom and as early as the middle of May. Quite hardy and most useful for cutting. **Trade pkt., 15c., ¼ oz., 40c.**

Coxcomb, Fire King. Much more brilliant and effective than Pres. Thiers. Color a rich fiery orange-scarlet. 8 inches. **Trade pkt. 25c.**

Dahlia, Exhibition Single. A very choice selection from large single flowers, many with broad edged petals in various colors. This is a particularly early flowering strain. Seed sown April 10th last year produced blooming plants July 5th which continued to flower until Fall. **Trade pkt., 35c.**

Primula Obconica Gigantea Rosea. The thick leathery, dark-green leaves of this new giant flowered sort are roundish, their edges wavy and are 6 inches across. The flower stalks are very strong, almost as thick as a pencil and like the leaf stalks are covered with curly hair. The well-formed flowers are the most pleasing pink, are 1½ inches in diameter and clusters are 4 to 6 inches across. With good culture this Primula attains giant dimensions and is equally valuable for pots and cut-flowers. Certificated by Royal Horticultural Society. **Trade pkt., 50c.; 1-32 oz., $3.00.**

Primula Obconica Gigantea Kermesina.
Like the above, but bright crimson. **Pkt., 35c.**

SALVIA, FIREBALL.

Primula Kewensis.
Awarded a First Class Certificate at the Royal Horticultural Society.
This charming addition to greenhouse Primroses originated at the Royal Gardens, Kew, as an accidental cross between Primula floribunda and P. verticillata. The plant is a strong grower, with bright green leaves, numerous erect flower-scapes, 10 to 18 inches in height, producing flowers in whorls at intervals along their whole length. The flowers are fragrant, bright yellow in color, with a slender tube and spreading limb, nearly 1 inch in diameter. As a winter-flowering decorative plant it is an acquisition. The floriferousness in a very small state is quite remarkable; the spikes are useful for cutting, and the flowers continue to open for some time after being placed in water. Small plants in bloom may be effectively used in table decoration. **Pkt.** (150 seeds), **35c.**

Primula Sieboldii, New Hybrids. This lovely hardy Primrose is not cultivated nearly as much as it deserves. It is as hardy as the old fashioned Cowslip, while its colors range from purest white through the various shades of rose and pink to the deepest crimson. The plants are of easy culture, and flower within nine months from the time of sowing the seed. **Pkt.** (100 seeds), **50c.**

Salvia Splendens "Fireball."
(Flowering Sage.)
Of the many sorts of Salvia now cultivated this splendid novelty undoubtedly is the finest of all. It has larger flowers and is also more free flowering than any other kind. The bushy plant 20 inches high is covered with long, broad flower spikes with a great number of flowers of the most fiery scarlet. The plants branch freely and are profuse bloomers, the side shoots often producing 4 to 6 flowering spikes so evenly divided over the foliage and of such erect habit as to hide the foliage. It is the earliest of all, flowering by the beginning of July and continuing without a break until frost. It is easily raised from seed and comes true. Knowledge of the Needs of Market Gardeners

We Make a Specialty of Seeds for Market Gardeners and Florists.

BONVALLET'S GIANT ASPARAGUS (Cut Green).

The wants and needs of Market Gardeners and Florists have been the study of our firm since 1877, when the President of this company personally solicited the market garden trade of Chicago. We know where to buy, and we buy and grow those strains of Vegetable and Flower Seeds which produce the most marketable quality of goods for our customers. This knowledge has taken years of time to acquire, inspections of growing crops all over the seed and trucking sections of the world, and trials of hundreds of new and old varieties.

Every lot of seed we send out is tested and known to grow.

We buy from, and pay the highest prices to the most reputable growers all over the world.

By thousands of field trials in which we compare our seeds with those of other seedsmen, we know what other firms are offering and keep our strains unsurpassed by anyone.

Our descriptions are true and not exaggerated. Finally, our prices are as low as this quality of seed can be sold.

ASPARAGUS, Bonvallet's Giant.

This Asparagus, a reproduction of which is on our front cover this year, is now well known as the best "grass" on the Chicago market, where we first introduced it some years ago. Elsewhere it is doing equally well; a Texas customer, after a few years' trial, putting in sixty acres of this variety this season.

Bonvallet's Giant can be cut a year earlier than any other sort and longer during the season. Grows equally well either white or green, depending on how planted. The shoots are purplish in color, much preferred over lighter or whitish grass. It is the most rust-resistant of any variety now on the market.

CABBAGE

VAUGHAN'S SURE HEADING SEED

VAUGHAN'S SELECT EARLY JERSEY WAKEFIELD.

Vaughan's Selected Early Jersey Wakefield. By far the best early Cabbage in cultivation. It forms fine, solid heads of good size, pointed shape, with few outer leaves. We offer an extra fine strain of this variety. Seed is grown from selected hard heads. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 70c.; lb., $2.50.**

Large Jersey or Charleston Wakefield. This is a larger heading sort than the Early Jersey Wakefield and matures a few days later. It is a great favorite with Southern planters as the larger heads demand better prices on the early market. Re-selected seed. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 70c.; lb., $2.50.**

EARLY ALLHEAD OR FAULTLESS.

Early Allhead or Faultless. This is the most popular Early Flat Head Cabbage. A sure-to-head sort with heads uniform in shape, large in size and of remarkable quality. Add to these points its earliness, and all things considered, it is the best One variety of Cabbage. The outer leaves are few, permitting close planting, thus growing more cabbages to the acre than loose outer-leaved sorts.

Oz., 20c.; 2 oz., 35c.; ¼ lb., 50c.; lb., $2.00.

Danish Ballhead. Our strain of this Cabbage is grown in Denmark by the most reliable grower there. It is the best late Cabbage for late Spring sales and for shipping. Long stem, medium sized head, extremely solid and long keeping. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 65c.; lb., $2.50.**

Dutch Winter or Hollander. This is the Cabbage most universally grown through the Wisconsin, Michigan, Illinois and Indiana cabbage districts. The heads are not large, are very solid, being just the right shape and size which the consuming trade demands. Our seed has had great success in all these districts and cannot be surpassed. Short stem. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 65c.; lb., $2.50.**

Dwarf Amager or Short Stemmed Danish Ballhead. A variety very similar to the Dutch Winter or Hollander. The seed, however, we imported direct from Amager Island, Denmark. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 65c.; lb., $2.50.**

TWO VALUABLE NEW VARIETIES.

Glory of Enkhousen. A round-headed, very solid, fine ribbed, best quality early cabbage. We think this about the hardest heading, long keeping, early sort. Live gardeners should give it a trial. **Oz., 30c.; 2 oz., 55c.; ¼ lb., 75c.; lb., $3.00.**

Danish Summer Ballhead. This is the Danish Ballhead of early cabbages. It closely resembles the Winter Ballhead, except that it is smaller and may be brought in with the very early flat head sorts. There is a trace of curliness on its outer leaves and a delicate flavor that suggests Savoy blood. Our market gardeners who have tried this are very enthusiastic. **½ oz., 15c.; oz., 30c.; 2 oz., 55c.; ¼ lb., 75c.; lb., $3.00.**

EARLY CHANTENAY.

VAUGHAN'S SELECT DANVERS.

CARROTS

FOUR POUNDS TO THE ACRE

Our Carrot Seed is raised by experienced and careful growers who know the importance of selection and isolation and practice it. Our seed is clean, pure and true to name and should satisfy any market gardener, no matter how critical.

Early Chantenay The Best Bunching Carrot.

This is the best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about six inches long, are stump rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seed is most carefully selected. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $2.75.**

GUERANDE, OR OXHEART

A thick Carrot, 5 inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of good flavor and of a deep red color, and is a variety we can recommend to all market gardeners. **Oz., 10c.; ¼ lb., 20c.; lb., 60c.; 5 lbs., $2.75.**

Vaughan's Selected Danvers

The Best Carrot for every purpose For over 20 years have we sold this selected stock, and we never have enough seed to supply the demand. All the gardeners in Chicago know it, and plant no other if they can get ours. It is the most uniform in existence, always of good color, a splendid yielder and of excellent flavor. It is one of the easiest Carrots to harvest, will yield more tons to the acre than any other. We are proud of being the owners and distributors of this Carrot. It is one of the specialties which has made Vaughan's Seeds synonymous with "Best Seeds." **Oz., 10c.; ¼ lb., 25c.; lb., 85c.; 5 lbs., $4.00.**

CAULIFLOWER, VAUGHAN'S EARLIEST DWARF ERFURT.

CAULIFLOWER

No seed is more important than this, as every gardener knows. It is one of the seeds in buying which price should never be questioned.

VAUGHAN'S EARLIEST DWARF ERFURT

Vaughan's Earliest Dwarf Erfurt combines all pedigree points—earliness, purity of color, dwarf habit, fine grain. This seed will produce cauliflowers worth the highest market price. It cannot be sold cheap for above reasons; but the shrewdest gardeners find it the most profitable. **Lb., $30.00; ½ lb., $8.00; oz., $2.00; ¼ oz., 65c; Pkt., 25c.**

Danish Snowball This is a grand second early. It is the result of long, careful selection, and uniformly produces even, regular heads. Through many seasons it has proved itself reliable, and gardeners can trust it every time. **Lb., $20.00; ¼ lb., $5.00; 2 oz., $2.75; oz., $1.50; ¼ oz., 40c; Pkt., 10c.**

VAUGHAN'S NEW SNOWBALL CAULIFLOWER

THE seed of this strain was saved with the greatest care only from perfectly developed heads, which yield but little seed. Good Cauliflower seed is always high in price; cheap Cauliflower is a poor investment because it cannot be good.

Cook County, Ill. — Vaughan's New Snowball Cauliflower gives me excellent satisfaction.

John Beukima,
Truck Gardener.

Vaughan's New Snowball Cauliflower.

The best general purpose variety either for Spring or Fall planting.

Vaughan's New Snowball Cauliflower is a specialty of our house. It is on such particular seed as Cauliflower, in which the least variance from the true strain results in great injury to the grower, that a seed house builds up its reputation. We know our Cauliflower is the equal of anything that can be produced. In our trial ground tests we have tried nearly every strain of cauliflower offered on the market and, while we have found a few equals, we have never found a superior to Vaughan's Snowball. We pay more for our seed than probably does any large seed house in the United States just so that we can have it as near perfection as it is possible for man to grow it. High bred Cabbage and Cauliflower does not germinate as well as less carefully bred strains. Nevertheless we have taken such pains to reclean and re-sift our seeds after receiving them from the grower that our seed is always up to standard of growth. Head usually 9 to 10 inches across, perfectly white and very solid, deep and compact.

Vaughan's New Snowball Cauliflower is put up in packages as follows: Pkts., ¼ oz., ½ oz., 1 oz. and ¼ lb., sealed with our trade mark and with distinctive paper and printing.

Pkt., 25c; ¼ oz., 65c; ½ oz., $1.25; oz., $2.00; ¼ lb., $8.00; lb., $32.00.

TESTIMONIAL.

From 212 plants of your **Early Snowball** Cauliflower seed we have 200 fine heads, many measuring 12 to 14 inches across top at greatest distance. All of this despite foul ground alive with weeds and grass. Good seed and care did it.

WHITE PLUME, Vaughan's Selected Stock.

VAUGHAN'S CELERY MANUAL—Written by a practical grower of 20 years' experience. Revised and published by J. C. Vaughan. **Price, postpaid, 50c.** Will be sent free if requested with a Celery seed order of $3.00 or with any general order for other seeds amounting to $5.00.

White Plume, Self-Blanching—Vaughan's Selected Stock

We have not yet found a Celery that is as early and of as good a flavor, as crisp and tender, as our selection of this sort. We sell large quantities of this seed to market gardeners, who find it **uniformly white and free from green or hollow stalks.** It is not a good keeper, but it is excellent for Fall and early Winter use. **½ oz., 12c; oz., 20c; 2 oz., 30c; ¼ lb., 50c; lb., $2.00.**

WHITE PLUME—Regular Stock. ½ oz., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.50.

Golden Self-Blanching—Vaughan's Selected Stock

This is the best Celery for early use. The stalks are much broader and heavier than those of the **White Plume,** and greatly superior in quality. It is ready for use nearly as early, producing dwarfer and much larger bunches of broad, heavy stalks, blanching to a **deep golden yellow.** The handsome color, crispness, tenderness, freedom from stringiness and nutty flavor of this variety make it only necessary to be tried in order to establish it as the **standard of excellence as an early sort. ½ oz., 20c; oz., 35c; 2 oz., 60c; ¼ lb., $1.00; lb., $3.50.**

GOLDEN SELF-BLANCHING—Regular Stock. ½ oz., 15c; oz., 25c; 2 oz., 35c; ¼ lb., 60c; lb., $2.50.

"Winter Queen"

This is without doubt the most valuable variety of Celery for Winter and Spring use. It is also much stouter, thicker and heavier, with **double the amount of heart of any known Celery.** The plant is of close habit and blanches to a beautiful cream white. Ribs perfectly solid, crisp and of a delicious nutty flavor. Grow Winter Queen once and you will always grow it. **½ oz., 12c; oz., 20c; ¼ lb., 50c; lb., $2.00.**

Vaughan's Giant Golden Heart

The best Celery for Winter storage. Ever since we introduced this Celery it has gained in public favor and rightly so, for it is not only the best keeper, but **it is large, solid, as sweet as a walnut and of a beautiful golden color.** It is a selection from the Dwarf Golden Heart; grows much larger than its parent. **½ oz., 12c; oz., 20c; 2 oz., 30c; ¼ lb., 50c; lb., $2.00.**

SWEET CORN

Vaughan's Extra Selected.

THE FOUR BEST GARDEN VARIETIES.

Mammoth White Cory. One of the largest and best extra early varieties. Each stalk furnishes two or more large, fine shaped ears, ready days before other large sorts. The ears are twelve-rowed, very symmetrical and handsome, with no opening between the rows at the base. The grain is large, broad, very white, and of remarkably good quality for such an early sort. The size and beauty of this variety gives it ready sale even when the market is over-stocked. Our strain is early and large. **Qt., 25c; ½ peck, 60c; peck, $1.15; bu., $4.50.**

Improved Early Champion. The Earliest Large Sweet Corn. Produces ears 12 in. long in 60 days. This new variety is without question the earliest large Sweet Corn yet introduced, being only a few days later than the first early small sorts. Ears nearly as large as the Mammoth; 12 rowed; pure white kernels, with medium sized white cob; very sweet, tender and full of milk; yielding two and three ears to the stalk. The best kind for early and late planting. **Qt., 25c; ½ peck, 65c; peck, $1.25; bu., $5.00.**

Stowell's Evergreen. The most popular main crop Sweet Corn. Ears numerous, kernels large, deep, white and of fine flavor. A late sort. To supply the right seed of this favorite has been our effort for many years. Seed grown near the Eastern Atlantic Coast has always shown by its flavor and shriveled ripened kernels the highest percentage of sugar known. We offer both selected seed from Eastern grown stock and Western grown seeds from original Eastern stock.

Country Gentleman. One of the sweetest of all Sweet Corns, and also one of the most productive sorts, the stalks averaging three ears; sometimes as many as five; kernels and cobs are pure white, cob small, kernels deep, ears average nine inches in length. **Qt., 30c; ½ peck, 90c; peck, $1.75; bu., $7.00.**

MUSK MELON

Netted Gem—Rocky Ford.—Selected Stock. This seed is carefully grown, selected and saved at Rocky Ford under the care and supervision of one of the most careful shippers. It is well known that much seed offered as Rocky Ford stock has been saved by local growers from surplus or cull Melons by men who know nothing of the responsibility of the seed business. Careful planters should avoid this kind of stock.

VAUGHAN'S SELECTED STOCK—From best melons in field. **Oz., 15c; ¼ lb., 35c; lb., $1.25.**

ORDINARY STOCK—Seed from entire field planted only for seed. **Oz., 10c; ¼ lb., 20c; lb., 60c.**

Oval Gem. Our regular stock of this at the following prices is first-class, carefully selected seed, such as no gardener need hesitate to plant. **Oz., 10c; ¼ lb., 20c; lb., 75c.**

Round Gem. This is the true original type of Netted Gem originated in Philadelphia, but our grower has improved it by weeding out so far as possible the oval type. **Oz., 10c; ¼ lb., 25c; lb., 70c.**

The Osage Gem. Early as Netted Gem; same size and shape. Flesh, orange; solid and of best flavor. **Oz., 15c; ¼ lb., 40c; lb., $1.35; 5 lbs., $5.75.**

Rocky Ford Musk Melon.

VAUGHAN'S PAUL ROSE or PETOSKEY.

The best and most uniformly high quality table Melon introduced in ten years. "This is a cross of the Osage with the Netted Gem, and combines the excellencies of the former with the fine qualities of the Gem. It has also the firmness of meat, salmon color, and [illegible] to the Osage. In this respect it is superior to any Melon in existence, because of this thick, solid flesh, free from stringiness, which does not become watery or 'break down' in keeping, retaining its form twice as long as any other shipping Melon. **PRICE: Vaughan's Selected Seed, oz., 20c; 2 oz., 35c; ¼ lb., 60c; lb., $2.00.**

Vaughan's Regular Stock, oz., 10c; 2 oz., 15c; ¼ lb., 25c; lb., 80c; 5 lbs., by express, $3.50.

VAUGHAN'S ORIGINAL OSAGE.

This famous Melon is our own introduction, and we take special pride in maintaining the quality and superiority of our stock. We pay many times the prices given ordinary seed growers to get our seed raised in the best locality and then selected from merchantable early Melons. Seed obtained from culls left in the field after marketing is over can be bought cheaply, but is high at any price. However, seed taken from early choice market melons must bring a high price, though really a hundred times cheaper than the other. Salmon flesh, high table quality; during the last season was the best Melon on the Chicago Market. Our strain is dark skinned, but moderately netted.

Vaughan's Selected Stock—Oz., 25c; 2 oz., 45c; ¼ lb., 75c; lb., $2.50.

Ordinary Seed—Entire field grown for seed, but seed not chosen from special melons. **oz., 10c; ¼ lb., 35c; lb., $1.15; 10 lbs., $10.00.**

Special Shipping Osage Slightly more netted than original type; especially selected for shipping. **Oz., 15c; ¼ lb., 50c; lb., $1.60.**

Raised From Vaughan's Special English Spawn.

FRENCH MUSHROOM SPAWN.

French Spawn is planted for the growing of button mushrooms. Ours is the very best to be had, being sown from selected mushrooms. Put up in boxes of 2 pounds each. **Price, per box, 75c; if by mail, $1.20. The same loose, per lb., 35c; if by mail, 45c; 10 lbs., $3.20.**

The essentials in Mushroom growing are: an even temperature, 55° to 60°, maintained day and night; well prepared beds with good manure; a moist atmosphere, where the air is dry beds lose their moisture quickly and must be watered. Water applied directly to a Mushroom bed always injures the crop.

MUSHROOMS

The last few years have shown a large increase in the amount of Mushrooms grown and still the prices are not only maintained, but increased. Vaughan's Seed Store has been most successful in supplying with satisfaction both the Imported English Spawn (Vaughan's Special) and Pure Culture Spawn to market growers. We make at least five importations yearly, so as to always have a fresh supply.

English Mushroom Spawn. Our Spawn is manufactured by the largest and most successful maker of Spawn in the world. He has made Spawn for some thirty years and has kept up on all the new methods of manufacture. Our Spawn is made by the famous tissue method from selected specimens. It has been found that English Spawn, as a rule, does not bear so quickly as the American pure culture, but it, however, lasts much longer in bearing.

English Mushroom Spawn. (VAUGHAN'S SPECIAL). **Price, per brick, 25c; 5 lbs., $1.00, postpaid. By express or freight, per brick, 15c; 2 for 25c; 8 bricks, $1.00; 25 lbs., $2.00; 100 lbs., $6.50; if shipped from New York, $6.00.** Special prices on ½ ton lots and upward.

Pure Culture "Garden City" Spawn. The best Spawn for beginners. The highest development in the art of Spawn making. This Spawn is made from tissue cultures from select specimens produced by Spore (seed) culture. The bricks are inoculated with tiny threads from a young specimen fruit, so that the special sorts or strains are produced, true to type. By this selection of varieties the inferior yielding kinds are avoided. We carry the Cream Brown or Bohemia variety, which has proven the best yielder. We can, however, supply the Pure White, Brown, Alaska or Columbia pure culture Spawn. **Price, per brick, 35c; 2 bricks for 60c, postpaid; by express or freight, 5 bricks for $1.00; 10 bricks, $1.75; 25 bricks, $3.50; 100 bricks, $12.00.**

WATER MELON

COLE'S EARLY.

Cole's Early. This is the Best Early Water Melon for the home market today. For sweetness and delicate texture of flesh it has no equal. The rind is thin but brittle, and therefore not suitable for shipping; for the home market we know of none better. Extreme earliness is its great merit. **Oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., $2.65.**

Early Fordhook. The first early shipping melon. Large for an early; skin, dark green; flesh, crisp and sweet. Rind thin, but with tough skin. **Oz., 10c; ¼ lb., 20c; lb., 65c.**

Vaughans's Black Diamond. A cross between Kolb's Gem and Hoosier King. Its prominent points of merit are its extreme size and productiveness. Melons weighing 75 to 90 pounds are frequent. It is the most prolific Water Melon. Its color is a rich, dark green, almost black. Of symmetrical shape, roundish to bluntly oval, a similarity of shape running through the whole field. **Oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., $2.50; 10 lbs., $4.50.**

Sweetheart. A standard shipping melon. Vine vigorous and productive. First fruits ripen early. The melons are large, uniform and heavy, mottled light and dark green. Rind is thin, but firm, and the flesh is firm and solid, yet tender and melting. **Oz., 10c; ¼ lb., 15c; lb., 50c.**

Improved Kolb's Gem. The best known shipping melon. The seed of this is saved from large, smooth melons of a darker mottled green than Kolb's Gem. The melons show a yellow blotch on the bottom. **Oz., 10c; ¼ lb., 15c; lb., 50c; 5 lbs., $2.00; 10 lbs., $3.50.**

Triumph. One of the largest and handsomest of the shipping melons. A great seller. **Oz., 10c; ¼ lb., 20c; lb., 50c.**

Alabama Sweets. A popular Southern shipping melon, especially in Texas. Dark green color, good size and fine flavor. Select seed. **Oz., 10c; ¼ lb., 25c; lb., $1.00.**

Kleckley's Sweet. A large oblong melon. A poor shipper, but without doubt the highest quality of all Water Melons. Skin dark green, flesh bright scarlet, ripening close to the skin. The large heart does not crack open when ripe. **Oz., 10c; ¼ lb., 25c; lb., 75c; 5 lbs., $3.25.**

True Ice Cream. The great Home Market Melon. It has too thin a rind for shipping unless packed in straw. Few, if any, surpass a True Ice Cream for quality and productiveness. **Oz., 10c; ¼ lb., 15c; lb., 50c.**

Winter Water Melon (Novelty). This Melon is early, earlier than Sweetheart and a very prolific bearer. The flesh is red, of extreme firmness; in fact, almost as hard as citron; very brittle and deliciously sweet. In color it is very light green, almost white. The firmness of the flesh causes it to be the longest keeper of the Water Melon family. **Price, ½ oz., 15c; oz., 25c; 2 oz., 40c; ¼ lb., 60c; lb., $1.80.**

VAUGHAN'S IDEAL WHITE GLOBE.

ONION SEED

VAUGHAN'S PEDIGREE.

Our strains of Globe Onions are right! We see to it that Seed Onions are selected with the greatest care, and none are planted except they are of the true type. Thin necks, globe shape and clear colors are what we aim for.

VAUGHAN'S IDEAL WHITE GLOBE.

This is the handsomest of all Onions. It is of the true globe form, pure white, hard, small necked, ripens very early and evenly and is a good keeper. We supply the largest market gardeners in Chicago and the west. No market gardener or Onion grower can afford to plant inferior stock, with only cheapness of price to recommend it, when seed like ours is to be had, the results of a few ounces often paying twice the first cost of the best seed.

PRICE: Eastern Grown, oz., 30c; ¼ lb., $1.00; lb., $4.00; 5 lbs., $19.50; 10 lbs., $38.00.

PRICE: Western Seed, oz., 20c; ¼ lb., 70c; lb., $2.50; 5 lbs., $12.25; 10 lbs., $24.00.

SOUTHPORT YELLOW GLOBE.

Southport Yellow Globe. A main crop, late, large round Onion. It is sure to satisfy the one who buys a packet, or the one who sows 50 pounds for carload shipments. A truly grand Onion whose large, golden yellow spheres make a beautiful appearance, sacked or barreled for the market. Finest of all yellow Onions for keeping. Our Eastern strain of seed is from a grower of twenty-five years' experience, who makes a specialty of this variety. There is no better.

PRICE: Eastern Grown, oz., 20c; ¼ lb., 50c; lb., $2.00; 5 lbs., $9.75; 10 lbs., $19.00.

PRICE: Western Seed, oz., 15c; ¼ lb., 50c; lb., $1.75; 5 lbs., $8.50; 10 lbs., $16.50.

Southport Blood-Red Globe. Our Blood-red Globe has a beautiful red skin, and a better lot of seed cannot be found. The Onions are of immense size, very solid and firm—qualities which make them fine sellers and excellent keepers. Our market gardener customers regularly grow crops yielding 800 to 1,000 bushels from this seed. Our grower is an expert, who carefully selects this seed from large, fine colored, solid bulbs, well ripened and cured, and who rejects all thick necked ones.

PRICE: Eastern Grown, oz., 20c; ¼ lb., 50c; lb., $1.90; 5 lbs., $9.25; 10 lbs., $18.00.

PRICE: Western Seed, oz., 15c; ¼ lb., 45c; lb., $1.75; 5 lbs., $8.50; 10 lbs., $16.50.

OHIO YELLOW GLOBE—SHOWING EVENNESS OF TYPE.

Ohio Yellow Globe. (See illustration.) The best of all yellow Onions. Entirely distinct from the old type of Yellow Globe Danvers, being earlier, smaller necked, of perfect globe shape, uniform as to size and color and a greater cropper. Vaughan's Special Ohio Grown Seed of this type is an extra fine selection as to color, shape and yield of this already fine sort. Regarded by seed growers the superfine strain of Yellow Onion Seed. **Oz., 20c; 2 oz., 35c; ¼ lb., 70c; lb., $2.50. By express, 5 lbs., $12.25; 10 lbs., $24.00.**

Ohio Red Globe. A very uniform Red Globe Onion, similar in shape to the Ohio Yellow Globe. Lake County Seed grown by the originator. **Oz., 20c; ¼ lb., 60c; lb., $2.10; 5 lbs., $10.25; 10 lbs., $20.00.**

Australian Brown Globe. A very early maturing variety. The bulbs are of good size, very solid and heavy. The keeping quality is excellent, one of the very best. The Onions are thin necked, and ripen evenly in all soils. **Oz., 15c; ¼ lb., 45c; lb., $1.65.**

White Bermuda. True Teneriffe Grown. Much planted in the South, especially in Texas. In the North the bulbs do not grow very large, but are of very mild, sweet flavor, and are the earliest of all. Called White, but really of a light straw color. **Oz., 20c; ¼ lb., 70c; lb., $2.50.**

Red Bermuda Teneriffe Seed. Similar to the above except in color. **Oz., 20c; ¼ lb., 70c; lb., $2.50.**

Crystal White Wax Teneriffe Seed. A pure white, large, early maturing, flat variety. Popular in the South like the White Bermuda. In the North, it is excellent for the home garden on account of the mild, sweet flavor. **Oz., 30c; ¼ lb., $1.10; lb., $4.25.**

Prizetaker Onion. Vaughan's Selected Stock. The handsomest, largest yellow Globe Onion. A fair keeper, of finest flavor, handsome shape and enormous size, many single Onions weighing five pounds or more having been raised from seed the first year. It is of the same type as those immense imported Onions which can be seen in fruit stores, and always commands a very high price. The Prizetaker always grows to a perfect globe shape, with a bright straw colored skin; the necks are very small, and the Onions always ripen up hard. American grown. **Oz., 20c; ¼ lb., 60c; lb., $2.00; 5 lbs., $9.75; 10 lbs., $19.00.**

Vaughan's Apple-Shaped Red Globe. This is the most perfect market type of Red Globe Onion. Ideal for enclosing the most bulk in the most compact shape. Its color is absolutely the darkest blood-red. Its size is equal to any of the largest types of Red Globe. Fifteen years ago this Onion was first planted in the West, under the name of Extra Early Red Globe. Since that time, grown on rich land, carefully selected for size, shape and color, it has been improved a little each year, until we believe it now the very best of its class. **Oz., 25c; ¼ lb., 80c; lb., $3.00.**

Mammoth Silver King. This mammoth variety is one of the largest in existence, averaging from 15 to 22 inches in circumference, often weighing from 2½ to 4 pounds each. It matures early, and is uniformly of large size and fine shape, being flattened but thick. The skin is a beautiful silver-white, flesh snowy, tender and of mild sweet flavor. Its striking size, handsome appearance and mild flavor recommend it to the fancy market. **Oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25.**

Different market and localities prefer different Onions. Globe Onions are generally the most popular and yield better than the other sorts. In certain portions of the country certain colors are in the highest favor. Vaughan's Ideal White Globe, Southport Blood Red, our special Ohio Globes and Apple Shaped Red Globe are ideals of their kind. Every bag of seed is tested as to vitality.

FLAT ONIONS AND SET SEED.

Large; skin, deep purplish red; form, round, somewhat flattened; flesh, purplish-white; moderately fine grained, and stronger flavored than any of the other kinds. Very productive, the best keeper and one of the most popular for general cultivation. It is more inclined to form large necks, if planted on unsuitable soil, than the Danvers, but it is the best variety on poor or dry soil. **Oz., 15c; ¼ lb., 45c; lb., $1.75; 5 lbs., $8.50; 10 lbs., $16.50.**

THE VALUE OF NITRATE OF SODA.

Nitrate of Soda furnishes to young plants the most essential of all plant foods, nitrogen, in its most available (soluble) form. Applied when the plants are young, the effect is immediate and lasting, the result is an earlier and heavier crop. Its advantage over farm yard manure is that it acts much more quickly, for this reason for high priced early crops the use of Nitrate of Soda is essential for the best results. Try a crop, one portion with Nitrate of Soda and another portion without. Figure the difference in net results. Our customers who have once used it always come back the next season with an increased order. **Price, 5 lbs., 35c; 10 lbs., 60c; 25 lbs., $1.25; 100 lbs., $4.00; 500 lbs., $18.50, at Chicago or New York.** The market varies and prices are subject to change. Write for prices on larger quantities.

Alaska. The first extra early pea. Very even in ripening and prolific. Pods 2½ to 3 inches long, well filled. Dry seed round and blue. Quality only fair. **Quart, 25c; ½ peck, 65c; peck, $1.25; bushel, $5.00.**

Maud S. This is the earliest selection of the extra early type of pea. Our stock is very uniform in ripening so the pods may be harvested at one picking. Dry seed round and yellow. Quality a little better than Alaska. **Quart, 20c; ½ peck, 60c; peck, $1.10; bushel, $4.25.**

First and Best. Another strain of the extra early type, not so early as Maude S., but a slightly better yielder. Sold as Philadelphia Extra Early, Best Extra Early, Rural New Yorker, etc. **Quart, 20c; ½ peck, 55c; peck, $1.00; bu., $4.00.**

GRADUS. The best extra Early Wrinkled Pea. Within three to five days in season of the Extra Early Poor Quality peas. This variety has pods as large as Telephone and peas unsurpassed by any variety in quality. Our seed has been very carefully selected and any vines showing small pods have been rogued from the fields. We know this will give you satisfaction. **Quart, 25c; ½ peck, 75c; peck, $1.50; bushel, $6.00.**

Surprise. The earliest of the winkled peas. Several days ahead of Gradus or any other wrinkled variety. Quality and productiveness good. An excellent variety for early trade which demands quality. Pods the size of Alaska or Maud S. **Quart, 25c; ½ peck, 80c; peck, $1.50; bu., $6.00.**

PROFITABLE DWARF SORTS For Market Gardeners.

Nott's Excelsior. Very dwarf, 15 inches. Early, three days after Alaska. Sweet and a heavy bearer. Pods 3 inches long. The heaviest yielding, early dwarf pea. **Quart, 25c; ½ peck, 80c; peck, $1.50; bu., $6.00.**

McLean's Advancer. A very heavy yielding medium season variety. The pods are of good size and are always well filled. A very desirable variety where brushing of the tall varieties is impracticable. **Quart, 20c; ½ peck, 85c; peck, $1.65; bu., $6.50.**

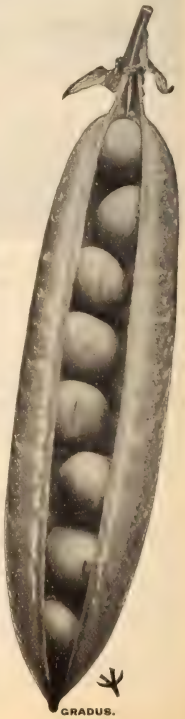
Dwarf Telephone. Vaughan's Re-selected stock. See Novelties, page 4. The best large podded dwarf peas for the Market Garden. **Quart, 20c; ½ peck, 80c; peck, $1.60; bu., $6.40.**

Heroine. A very popular, large podded, late dwarf pea. Height, 2 feet. The vines are very prolific. Pods are well filled with peas of good flavor. **Quart, 25c; ½ peck, 80c; peck, $1.50; bu., $6.00.**

Improved Stratagem. A late extremely large podded high quality pea. The pea has high merit as a market garden variety. Its chief drawback has been the difficulty to get true stock. Our strain is the best we have seen and will give satisfaction to the most critical. **Quart, 30c; ½ peck, 90c; peck, $1.75; bu., $7.00.**

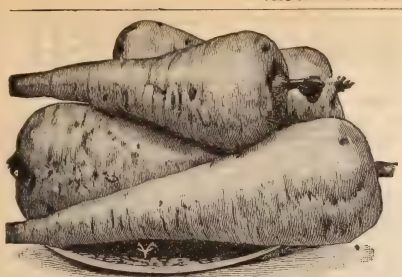
LATE OR MAIN CROP VARIETIES.

Champion of England. One of the oldest and still one of the best varieties before the public. Late, tall, vigorous and an enormous yielder. A superior strain. **Quart, 25c; ½ peck, 60c; peck, $1.15; bu., $4.50.**



Everbearing. Medium height. Very prolific. Pods 3 inches in length. **Quart, 25c; ½ peck, 65c; peck, $1.25; bu., $5.00.**

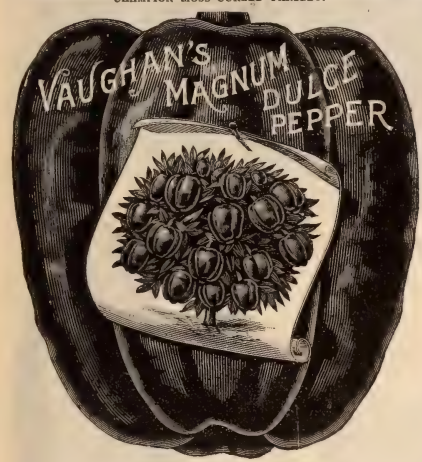
Vaughan's Sweet Market. An excellent second early, main crop pea, following right after the Extra Earlies. Pods 3½ inches, borne in large quantities on very vigorous vines. Height, 2½ ft. One of the heaviest yielding of all peas. **Quart, 25c; ½ peck, 80c; peck, $1.50; bu., $6.00.**



TWO DESIRABLE NEW VARIETIES.

The Pilot. A smooth seeded strain of Gradus. Compared to Gradus, this may be planted a week earlier; the seed being smooth does not rot in the cold ground. Otherwise similar to Gradus. **½ peck, $1.25.**

Witham Wonder. A second early, very heavy cropping dwarf sort. The peas are remarkably sweet. Pods of medium size. Where quantity and quality count, this variety will be well liked. **4 qts., $1.00; peck, $2.00.**



GRADUS.

MAGNUM BONUM PARSNIP.

CHAMPION MOSS CURLED PARSLEY.

Vaughan's Magnum Dulce Pepper

Decidedly superior to Chinese Giant or any other variety known to market in size and sweet quality. The result of many years' careful selection by a successful grower. It is fully as prolific as Ruby King, much stronger in growth and foliage as well as larger in fruit. The flesh runs from ½ to ¾ inch in thickness, and is exceptionally mild and pleasant in flavor. Fifteen fruits fill a bushel basket. **Pkt., 15c.; 2 Pkt., 10c.; 2 for 15c.; oz., 50c.**

NEW NEAPOLITAN PEPPER. A heavy yielding, early, large, sweet pepper. One of the best for market gardeners. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

PARSLEY

The Champion is a prize-winning English variety, in appearance like a tuft of finely curled moss, and of a rich deep green color. It is slow to run to seed and very hardy; of easiest growth, a few seeds sown in onion rows use no space. Grows in window boxes. **Lb., 50c.; ¼ lb., 20c.; oz., 10c.**

Double Curled Lb., 40c.; ¼ lb., 15c.; oz., 5c.

Fern-Leaved Lb., 65c.; ¼ lb., 20c.; oz., 10c.

Plain Lb., 40c.; ¼ lb., 15c.; oz., 5c.

MARKET GARDENERS' STRAINS

Hamburg Rooted or German Parsley. The root resembles a small parsnip and is the edible part of this sort; extensively used for flavoring soups. **Lb., 50c.; ¼ lb., 15c.; oz., 5c.**

PARSNIP

Magnum Bonum A very fine and greatly improved strain of Hollow Crown Parsnip, which we can recommend to all marketmen as a **money-maker.** The roots are smooth, not so long as those of the standard sort, somewhat thicker in diameter and much more easily pulled. A very heavy cropper. **Lb., 40c.; ¼ lb., 15c.; oz., 10c.**

Improved Guernsey An improved strain, which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Of excellent quality. **Lb., 40c.; ¼ lb., 15c.; oz., 7c.**

Hollow Crown, or Long Smooth (Abbot's Improved). Smooth, large, tender and sugary; one of the best. Our stock is very fine. **Lb., 40c.; ¼ lb., 15c.; oz., 7c.**

PEPPER

CULTURE: See "Vaughan's Vegetable Garden." A Copy Free to Buyers of Vaughan's Seeds.

Our Magnum Dulce Pepper (See Description Below)
Should be Grown by Every Gardener.

Vaughan's Improved Sweet Mountain It is a strong grower, very productive. The peppers when young are of a bright deep green color, without any shade of purple; when ripe they are of a very beautiful red; the flesh is thick, sweet and mild. They often grow 6 inches long by 4 inches through. Our strain has been selected with great care for over twenty years. **Lb., $2.00; ¼ lb., 60c.; oz., 20c.; ½ oz., 12c.**

Ruby King Grows 4½ to 6 inches long, by 3½ to 4 inches thick. The peppers are bright ruby red; one of the best for stuffed pickles. The meat or walls are quite thick, crisp and tender. **Lb., $2.00; ¼ lb., 50c.; oz., 20c.; ½ oz., 12c.**

Chinese Giant **Double the size of "Ruby King."** Not only is it early in ripening and productive for so large a pepper, but its size will cause it to sell most readily. The fruits are of thick blocky form and of glossy scarlet. They grow four or five inches broad at the top, and are of equal length. All uniformly large. The flesh is mild and unusually thick; it makes an excellent salad sliced and served like tomatoes. **Pkt., 10c.; ½ oz., 25c.; oz., 40c.**

Cayenne Pickling Of dwarf habit, and does not branch very much, but unlike the ordinary Cayenne, the peppers grow erect on the plant and are about 2½ inches long; just the right size for pickling. **Pkt., 10c.; ½ oz., 15c.; oz. 25c.**

MAMMOTH SANDWICH ISLAND SALSIFY.

Scorzonera (BLACK SALSIFY). Oz., 15c.; ¼ lb., 40c.

SORREL.

Sorrel—Sauerampfer-Oseille

Of the easiest growth. Sorrel is cultivated for its leaves, which possess a very fine flavor; boiled and served like Spinach. It also makes a delicious soup. **Lb., $1.00; ¼ lb., 25c.; oz., 10c.**

SPINACH

Vaughan's Norfolk Savoy Spinach

This is the variety so highly prized by the large planters about Norfolk, Va. **The leaves, remarkably thick and blistered,** extremely hardy, do not settle in the barrel in shipping as do the other varieties. No seed has caused planters more dissatisfaction than spurious varieties of this, whole crops having been plowed under or abandoned because they were not of the proper kind. Our strain has secured the trade of the largest and best growers in the country.

Swiss Chard—A Money Crop

Cut and Come Again Spinach Far superior to the common Beet for **greens and equal to Spinach.** Sown early in the Spring, in rows 16 ins. apart, and the seedlings afterward thinned out to 6 ins. in the rows, it makes rapid growth of leaves, and **is fit for use for greens sooner than any other variety.** For Summer use it is superior to Spinach, because it can be cut throughout the entire Summer and Fall, when no Spinach is to be had. It is of almost the same flavor and it is much easier to wash and prepare for the table. **Lb., 40c.; ¼ lb., 15c.** No vegetable requires less care than this, and it is safe to say that none yields as constantly as this Spinach, producing uninterruptedly from July until Fall.

CUT AND COME AGAIN SPINACH.

SQUASH.

CHICAGO WARTED HUBBARD SQUASH.

Chicago Warted Hubbard Squash

Our strain of the above will produce mainly the type shown in our photo-engraving, which we consider the **ideal Hubbard** for home or for market. For thirty or forty years this Squash has ranked first for a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Because of this our selection of Chicago Warted Hubbard has been made. **Lb., 70c.; ½ lb., 25c.; 2 ozs., 15c.; oz., 10c.; 5 lbs., $3.25; 10 lbs., $5.50.**

Hubbard An extra choice selection. None better in the market. **Lb., 60c.; ½ lb., 20c.; oz., 10c.; 5 lbs., $2.75; 10 lbs., $5.10.**

Red or Golden Hubbard A perfect type of the Green Hubbard, except in color, which is a bright, deep orange-yellow, very showy and attractive. Flesh deep golden yellow, much richer in color than Hubbard, fine grained, cooks very dry and is of excellent flavor. Its keeping qualities are fully equal to, while in productiveness it far excels the Green variety. **Lb., 80c.; ¼ lb., 25c.; oz., 10c.**

"Straight-Neck" Summer Squash

Market gardeners who ship early Squash to distant markets know the difficulty of packing the crook-necked variety in boxes to good advantage. In our "Straight-Neck" the bad feature of the crook has been overcome, and by continued selection the size has been increased, more uniformly in shape, improved quality. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

PURPLE TOP WHITE GLOBE.

Earliana. The Earliest Large Smooth Red Tomato. Remarkable not only for its earliness, but also for its large size, handsome shape, bright red color and smoothness. Size of fruit 3 inches in diameter and 2½ in depth. Where a market likes a red tomato, this variety is without an equal as an early. ½ oz., 12c; oz., 20c; ¼ lb., 70c; lb., $2.50.

June Pink. Resembles the Earliana in foliage, plant growth, size and shape of fruit. The fruit, however, is a handsome deep pink color instead of red. This tomato commands the highest market price. Was a money getter for many of our Chicago Market Garden customers this last season. The earliest Pink Tomato. ½ oz., 15c; oz., 30c; ¼ lb., 90c; lb., $3.50.

Vaughan's Earliest of All. The earliest of all Tomatoes. Inclined to be somewhat rough in appearance. Of much value in the North for those who have poor hot-bed facilities for growing plants. It is the earliest variety we have yet found. ½ oz., 12c; oz., 20c; ¼ lb., 70c; lb., $2.50.

Acme. **Vaughan's Selected Stock.** A very fine strain of this popular early variety. Large, round, smooth, of pinkish-purple color. Always a favorite on the market. A very prolific bearer and a sort that has few cracked fruits, even during the most unfavorable weather. ½ oz., 12c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Beauty. The favorite purple, large-fruited variety. Very smooth large fruits in clusters of four to six, set freely on strong, vigorous vines. They ripen early and retain their size throughout the season. Picked quite green they ripen nicely. ½ oz., 12c; oz., 20c; ¼ lb., 65c; lb., $2.25.

New Stone. **Vaughan's Improved Strain.** The best main crop red tomato. Color, fine scarlet; stem set high; core small and shallow. Its shipping quality is unsurpassed. As a yielder it is the most productive of any variety now offered. The ideal and most popular canning sort. ½ oz., 15c; oz., 20c; ¼ lb., 65c; lb., $2.25.

New Globe. An entirely new shaped tomato, the majority of the fruits being elongated in shape. Exceedingly productive, ripening early and bearing large sized fruits throughout the season. Color, rose tinged with purple. The popularity of this variety has increased wonderfully since introduction. There is no Market Gardener but should give it a thorough trial. Excellent also for greenhouse use. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Ponderosa. The largest fruited of all Tomatoes. Purple color. Very solid and almost seedless. Fine for slicing and of excellent flavor. Should be picked when not quite ripe, as the inside ripens first. Our seed is a big improvement upon the original variety. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Dwarf Champion. The most popular of the dwarf varieties. By continual selection we have bred this variety so that the fruits run larger and the bearing season longer. To do well, must have very rich soil. Color a beautiful glossy purple, skin always smooth. ½ oz., 12c; oz., 20c; ¼ lb., 65c; lb., $2.25.

Vaughan's Tall Champion. Of the "Acme" color. A wonderfully prolific bearer of medium sized fruits, always smooth under the most adverse conditions. For a market gardener who has a wagon trade there is no better sort. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Magnus. For a market variety for staking in the field this sort has no equal. Large fruits, set as early as the Acme, and bears about 20 per cent more fruit under equal conditions. Fruit smooth and almost globe shaped. Leaves and vine distinct. ½ oz., 12c; oz., 20c; ¾ lb., 60c; lb., $2.00.

BONE MEAL. Vaughan's Rose Grower.

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent.; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

PRICE: F. O. B. Chicago. 5 lbs., 25c; 10 lbs., 50c; 25 lbs., 75c; 50 lbs., $1.25; 100 lbs., $2.25; 200 lbs., $3.90; 500 lbs., $9.00; 1,000 lbs., $16.75; 2,000 lbs., $33.00.

F. O. B. New York. 25 lbs., 75c; 50 lbs., $1.45; 100 lbs., $2.75; 200 lbs., $5.00; 500 lbs., $10.75; 1,000 lbs., $20.50; 2,000 lbs., $40.00.

BONE MEAL. Regular Grade. A good article.

PRICE: F. O. B. Chicago. 25 lbs., 60c; 50 lbs., $1.00; 100 lbs., $1.80; 200 lbs., $3.40; 500 lbs., $8.00; 1,000 lbs., $15.25; 2,000 lbs., $30.00.

F. O. B. New York. 25 lbs., 75c; 50 lbs., $1.25; 100 lbs., $2.35; 200 lbs., $4.25; 500 lbs., $9.50; 1,000 lbs., $18.50; 2,000 lbs., $37.00.

BONE FLOUR.

This is the same grade of Bone as our "Rose Grower" only ground to a fine white flour. Dissolves readily and is therefore very quick acting. 25 lbs., 75c; 50 lbs., $1.35; 100 lbs., $2.50; 500 lbs., $11.50; 1000 lbs., $22.50. Add 50c. per 100 lbs. if shipped from New York.

BONE SHAVINGS.

This is a very choice article, the refuse of the best hard white bone from a knife handle factory. It is lasting and especially recommended for use in palm soil and on other plants which are not shifted very often, and where a continuous and lasting supply of plant food is required. Price: 5 lbs., 25c; 10 lbs., 45c; 25 lbs., 90c; 100 lbs., $3.00.

BONE, BLOOD AND POTASH.

This is our best brand of concentrated manure; excellent for mixing into potting soil or as a top dressing. It is a **money-maker.** For potting soil use about 20 lbs to the cubic yard of soil, and for the dressing scatter it about as thick as lawn grass is sown, after loosening the surface of the soil. It is excellent for carnations if applied by the end of October or in November. It can also be applied as a liquid manure by using an 8-inch potful to a barrel of water. Price: 25 lbs., 70c; 50 lbs., $1.25; 100 lbs., $2.40; 200 lbs., $4.60. Add 50c. per 100 lbs. if shipped from New York.

CLAY'S FERTILIZER.

This valuable imported manure is especially recommended: 7 lbs., 75c; 14 lbs., $1.25; 28 lbs., $2.25; 56 lbs., $3.50; 112 lbs., $6.00. If shipped from New York, $5.50.

CATTLE MANURE, SHREDDED.

An efficient, high grade natural fertilizer for all general purposes, manufactured by special process from selected fresh cleanings from cattle pens.

For making mulch or bed and potting soil shredded cattle manure is the best and safest material obtainable.

Florists and Greenhouse men use large quantities for this purpose because there is no danger of making the soil too hot or burning young plants and seedlings.

In making Manure water it is fully three to four times as strong as rough Manure. The advantages of its even quality and the easy and unobjectional way of handling the Manure, not a pound being wasted, makes it cheaper than the rough Manure which often can be had for simply the cost of freight and loading.

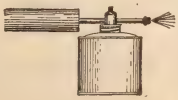
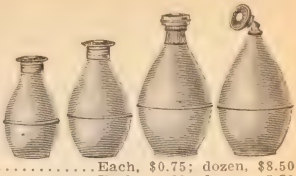
SPRAYERS.

The Fountain. One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, $5.50; Brass Tank, $7.00.



The Brandt. A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling. Price: Galvanized Steel Tank, $5.00.



Auto Spray. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, $4.50; with Auto Pop, $5.50; solid copper reservoir, $6.00; with Auto Pop, $7.00. Brass Extension Rod, in 2-foot lengths, each, 35c; Galvanized Extension Rod, in 2-foot lengths, 25c.

The No. 6 "Iron Age" Combined Double Wheel Hoe, Hill and Drill Seeder.

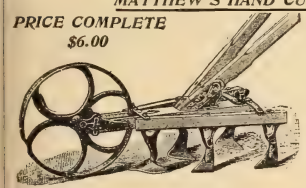
This tool is without question the most practical and complete combined garden tool ever offered the public—the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. The wheel is made of steel, 16 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. It places the seed in drills or in hills as at 4, 6, 8, 12 or 24 in. apart. Complete as in cut. **Price, $12.00.**

PRICE COMPLETE $12.00

No. 15 "Iron Age" Combined Single Wheel Hoe, Hill and Drill Seeder.

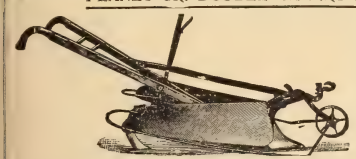
Combined in this tool is the best Hill and Drill Seeder and Single Wheel Hoe ever offered the public. In combining these tools not a single advantage is lost of a separate Single Wheel Hoe or Seed Drill. As each they are in themselves complete. Changed from one form to another almost instantly, completely filling every desire both as to method of handling seed and soil. It places the seed in hills or drills. **Price, $11.00.** As a Hill and Drill Seeder only (No. 16), **$8.50.**

Price Complete $11.00



No. 17 "Iron Age" combined Single Wheel Hoe and Drill Seeder. Same as tool shown in cut except being furnished without hill dropping device. **Price, $10.00.**

No. 18 "Iron Age" Drill as a seeder only **$7.50.**



MATTHEW'S HAND CULTIVATOR.

PRICE COMPLETE $6.00

This is one of the best implements in use for weeding between row crops, and for flat cultivation generally, and is an indispensable companion implement to the seed drill. It is thoroughly constructed, very durable, and easy to operate. It spreads from six to fourteen inches, and will cut all the ground covered, even when spread to its greatest extent. The depth of cultivating may be accurately gauged by raising or lowering the wheel, which is quickly done. Price, complete, as in cut, with five teeth, **$6.00.**

PLANET JR. DOUBLE CELERY HILLER.

These are now considered indispensable in celery growing. The leaf lifters are adjustable in height, and are especially valuable for first workings. Fitted with lever wheel, hilling blades, 43 inches long, adjustable in height or width as wanted. **Price, $15.00.**

"Planet Jr." Single Celery Hiller.

This runs lighter than the double, and throws rather higher; it works any width rows. Where market gardeners plant close and first bleach every other row, it is "just the thing." It is also excellent help for burying the crop. **Price, $12.00.**

HAND CORN PLANTER.

"The Eagle." This is a rotary planter, having three different sized plates, which can be put in or taken out as needed in the easiest possible manner. One of the most popular. **Each, $1.25.**

New Model Drill No. 2 with new opening plow for use in trashy ground. **Price, $8.00.**

No. 1 "Iron Age" Double and Single Wheel Hoe.

Wheel Hoe form of the No. 6 opposite. One great advantage which this double Wheel Hoe possesses is, that it can be made into a practical Single Wheel Hoe in a moment's time. As a double wheel it may be used astride the row and thus cultivate both sides of the row at the same time. The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe, coupled to malleable castings, gives great strength together with lightness. Price, complete, **$7.00.** A Seed Drill attachment may be applied for sowing in rows only, or sowing both in rows and hills, **$4.00** and **$5.00** respectively. This tool with side hoes only (Iron Age No. 3). **Price, $4.25.**

PRICE COMPLETE $7.00

THE GEM CULTIVATOR.

Is without doubt one of the most popular and best of all the hand cultivators made. Over twenty thousand have been sold, over half of them through Vaughan's Seed Store, since they were introduced, and all have given satisfaction. It is a most practical tool and made of the best material only.

Single Wheel Gem No. 1 includes 5 stirring teeth, 1 narrow shovel, 1 wide shovel, 1 pair plows. **Price,** not prepaid, **$5.00.**

Vaughan's Combined Cultivator and Harrow.

Complete with wheel and lever expander, price, **$5.80;** without wheel, **$5.20.** Its teeth are diamond shape with a small cultivator tooth forged on one end. For very close work every other tooth can be quickly removed. This tool is designed especially for the cultivation of berries and small crops, as it thoroughly pulverizes the soil but at the same time throws very little earth.

"Iron Age" No. 6 Horse Hoe and Cultivator.

We can recommend to all of our customers as being one of the best tools made. **Price,** as in cut, **$8.00;** without Furrow Closing Attachments, **$6.75;** with Plain Wheel and without Furrow Closing Attachments, **$6.25.**

Surface cultivation of ground during dry spells saves the crop.

Made of metal, wood and canvas, and put together in the most durable and thorough manner this combination makes it lighter and less noisy than all metal. The rakes are flexible; this does not mean that the teeth will bend (and stay bent) if an obstruction is met; but the rake heads are divided in the middle and each part is hung on easy-swinging hinges and are kept in position by retaining springs.

Price, each, $15.00.

L. LONGIFLORUM GIGANTEUM.

LILIUM LONGIFLORUM. *JAPAN GROWN.*

MULTIFLORUM TYPE.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise 50 per cent. Multiflorum, but remember that disease changes the nature of the plant, etc.

PRICES:	6 to 8 inch, (400 to case)	Per 100, $3 00	Per 1000, $26 00
	7 to 9 inch, (300 to case)	Per 100, 5 00	Per 1000, 45 00
	9 to 10 inch, (200 to case)	Per 100, 8 50	Per 1000, 80 00

GIGANTEUM (Dark Stem.)

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

NARCISSUS PAPER WHITE GRANDIFLORA.

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star Brand" is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading "Fancy" is a selected grade from the general stock.

Owing to the shortage in large size bulbs this year, early ordering is advisable.

KING HUMBERT---Best of all Cannas.

There is no other Red Canna that can compare with it. This takes the lead for size, color and habit. Its giant flowers, orange scarlet in color, and the very broad rubber-like bronze leaves altogether make up a plant so distinctly in advance of any other Cannas that the demand for and use of it must be universal. **Price, each, 15c; per doz., $1.50; per 100, $10.00.**

Nephrolepis Todeaoides.

NEPHROLEPIS TODEAOIDES.

This is an English introduction that has received a first-class certificate both from the Royal Horticultural Society and from the Royal Botanical Society of London, and is likely to become a most important commercial variety. While in a general way it reminds one of an exceptionally well-grown plant of N. Elegantissima, it is entirely distinct from it, in its strong yet compact growth and its bold heavy foliage, which is distinctly tripinnate or three times divided. Specimen plants which we now have growing are greatly admired by every one and we have great faith in its future.

NEW NEPHROLEPIS SUPERBISSIMA.

The fronds are very heavily imbricated, the pinnae overlapping making the fronds very dense and compact. In color also it is different, being of a richer, darker green. The plant is very sturdy in its habit, the fronds never breaking down. It makes a much more dwarf and compact growth, the fronds being very dense, firm and rigid, it will stand more knocking around than any other fern of its type.

2½-inch pot plants, **each, 50c; doz., $5.00; per 100, $35.00.**
4-inch pots, **$7.50 per dozen; $50.00 per 100.**

8-inch pots, **$3.00 each;** 10-inch pots, **$5.00 each.**

NEPHROLEPIS AMERPOHLI.

The pinnae on this fern is finely divided. The fronds are broad and of a depth which gives them a cushion-like appearance.

NEW HARDY

HYDRANGEA "SNOWBALL."

This is one of the most beautiful hardy flowering shrubs introduced during the past twenty years, its greatest value being that it comes into bloom just after the flowering time of the Lilacs and spring flowering shrubs, and further, it continues on into August. The panicle is more like a Snowball in form and size than Paniculata Grandiflora and is a pure white. It thrives well in any situation, in full sun as well as partial shade.

NOVELTY ROSE
"WHITE BABY RAMBLER."

In this bush rose we have a true white Baby Rambler. Imported by us from Germany. After growing it for a year we are more than pleased with it, as the plants have never been out of bloom. The flowers are borne in clusters of 50 to 75 individual flowers, 1 inch in diameter, and pure snow white. A bed of this Rose is like a bank of snow.

The foliage is dark, glossy and finely cut. Does not grow over 12 inches in height, forming very bushy plants.

For cemetery use will be of great value, being perfectly hardy.

NEW ROSE "RED KAISERIN."

(Mme. Jules Grolez.)

The more we see of this grand Rose the better we like it. Having planted a bench of it this Spring the plants have given us grand flowers to cut all Summer on long strong stems. Kaiserin Augusta Victoria is well known and admittedly the best white Summer-blooming Rose.

A First-Class Novelty—"Tausendschon."

A New Climbing Rose.

Raised by several crossings between the well-known Crimson Rambler, Tea and Polyantha Roses. This beautiful novelty surpasses all other climbing roses of this section, both in growth, foliage and beauty of blooms. The flowers appear in large clusters from the beginning of June till the end of July. Each individual flower measures about 2 inches across, and is of a beautiful soft pink, same color as Clothilde Soupert, later on changing into rosy carmine. The plant is of strong, vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. Very agreeable, as it is nearly thornless.

Florists will do well to force this grand rose in for Easter.

Strong plants, 4-inch pots, **each, 30c; doz., $3.00; per 100, $20.00.**
2-year-dormant grafted plants, **each, 25c; doz., $2.50; per 100, $15.00.**

The New Pink Baby Rambler.

BABY RAMBLER ROSE.

The Everblooming Dwarf Crimson Rambler.

This new Rose, which was sent out by the name of Mme. Norbert Levavisseur, is a cross between Crimson Rambler and Glory of Polyanthus, retaining the color of the former with the exceedingly free flowering habit of the latter, as well as its dwarf growth.

The plants are very vigorous and grow to a height of about 24 inches. The foliage is dark, glossy, profuse and remarkably free from insects and fungus.

The flowers are borne in clusters, 30, 40 and 50 to a cluster. They are in every way just like those of the Climbing Crimson Rambler and are produced perpetually.

PEONIES.

The kinds offered below are absolutely true to name, all having been grown by us in our Nurseries at Western Springs and tested for the past three and four years.

Peony plants are much surer to bloom and will be much stronger if planted in September and October, so that new rootlets may be formed before cold weather. This gives a great advantage to home grown stock over imported plants, which invariably come too late and often not true to name.

We offer the roots in strong 3 to 5 eyes each at Prices quoted. We can also, if required, furnish large size up to 4 and 5-year-old with 10 to 20 eyes at reasonable rates.

NEW GIANT PANSIES.

TYPE OF MASTERPIECE PANSY.

Andromeda. **New Giant Curled.** Color a very delicate apple-blossom generally showing a soft lavender hue, rendered more effective by a somewhat darker veining. **Trade pkt., 25c.**

Aureola. A most unique sort. The three lower petals are carmine, each with a large round blotch, the upper petals are white, with a broad carmine stripe near the edge. **Trade pkt., 25c.**

Boulogne Giant. This is a special selection of a French Pansy grower; the flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. They are mostly 3 and 5 blotched, delicately veined, while the colors are rich and varied. Like all high-bred Pansies they are shy seed bearers. **Trade pkt., 50c.; ⅛ oz., $2.00.**

Bridesmaid. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty the finest Apple-blossom, and most strikingly sets off the dark blotches of the center. **Trade pkt., 25c.; ¼ oz., 80c.; oz., $3.00.**

Emperor Francis Joseph. The plants are of compact habit while the flowers are of very large size, pure white with a large blotch of brilliant violet blue on each petals. It is the best White Pansy in existence. **Trade pkt., 25c.; ⅛ oz., $2.00.**

Marechal Niel. The flowers are very large, without any blotches or veins and are of the same pleasing, delicate cream color as the rose whose name it bears. **Trade pkt., 25c.**

Mauve Queen. Of largest size, the flowers are of almost pleasing mauve color. The three lower petals have large blotches of blush carmine; **Trade pkt., 25c.; ⅛ oz., $1.00.**

Orchid-Flowered. A most interesting type of the Pansies of the Giant-Flowered Class, containing a mixture of most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is light, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins towards the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt., 25c.; ¼ oz., $1.00; oz., $4.00**

Rosy Morn. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wide. **Trade pkt., 25c.; ⅛ oz., $1 00.**

Siegfried. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flower. **Trade pkt., 25c.; ⅛ oz., 75c.**

Giant Volcano. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt., 25c.; ⅛ oz., $1.00.**

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; ⅛ oz , 60c.; ¼ oz., $1.00; oz., $4.00.**

VAUGHAN'S "GIANT PANSY MIXTURE."

Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts. **Trade pkt., 25c.; ⅛ oz., 60c.; oz., 4.00; ¼ lb., $14.00.**

VAUGHAN'S "ELITE PANSIES."

This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors. It is comprised of the cream of four Pansy specialist's choicest and most expensive mixtures. **Trade pkt., 50c.; ⅛ oz., $1.00.**

VAUGHAN'S PREMIUM PANSIES MIXED.

Embraces all the varieties of the Fancy German Sorts. We have sold this mixture for the past seventeen years, and it has given general satisfaction. **Per pkt., 25c; ⅛ oz., 50c; oz., ½ oz., $3.00; oz , $5.50.**

IMPROVED GERMAN MIXTURE.

This is a mixture of three strains from different German growers, and is made up mostly of separate colors, with a sufficiently large percentage of white and yellow. **Per large pkt., 10c.; ⅛ oz., 20c ; ¼ oz., 30c.; oz., $1.00.**

VAUGHAN'S CUT FLOWER MIXTURE.

This mixture is put up by ourselves and contains mostly light colored sorts. We have sold this mixure for several seasons to some of our Chicago cut flower growers who have realized big returns from the sale of the flowers. Pansies are as easily grown as violets, require less care and bring better returns. **Trade Pkt., 50c.; ⅛ oz., $1.00; ¼ oz., $2.00; oz., $8.00.**

NOTHING BETTER.

VAUGHAN'S INTERNATIONAL PANSIES.

THE WORLD'S BEST.

Vaughan's International Pansy Mixture was first prepared and offered by us in 1889. We import from all the best European sources and personally inspected the fields of French and German specialists of their finest strains. These with best American types made up the collection. Each year has added to the quality of its flowers, the variety of its colors. We buy every year novelties of known merit to improve the mixture. This is the reason it is always complete, always the latest and always the best mixture AS WE BELIEVE. We add to all the Pansy Mixures which we now buy more than fifty per cent of choicest named kinds obtainable, each in rightful proportion. We thus know what it will produce. This is one of the SPECIALTIES which has established and held the reputation of Vaughan's Flower Seeds and this is one which we maintain most carefully, not alone as to quality but in vitality and germination. You are beginning right in Pansy growing when you start with Vaughan's International Mixture. **Trade pkt., 50c.; ⅛ oz., $1.50; ½ oz., $5.00; oz., $10.00**

BONE MEAL. ***Vaughan's Rose Grower.***

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent.; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

CATTLE MANURE, SHREDDED.

An efficient, high grade natural fertilizer for all general purposes, manufactured by special process from selected fresh cleanings from cattle pens.

For making mulch or bed and potting soil shredded cattle manure is the best and safest material obtainable.

Florists and Greenhouse men use large quantities for this purpose because there is no danger of making the soil too hot or burning young plants and seedlings.

In making Manure water it is fully three to four times as strong as rough Manure. The advantages of its even quality and the easy and unobjectional way of handling the Manure, not a pound being wasted, makes it cheaper than the rough Manure which often can be had for simply the cost of freight and loading.

PRICE: F. O. B. Chicago. 100 lbs., $1.20; 500 lbs., $5.00; 1,000 lbs., $8.00; ton, $14.00.

SPRAYERS.

The Fountain. One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Price: Galvanized Tank, $5.50; Brass Tank, $7.00.

The Brandt. A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling. Price: Galvanized Steel Tank, $5.00.

Auto Spray. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, $4 50; with Auto Pop, $5.50; solid copper reservoir, $6.00; with Auto Pop, $7.00. Brass Extension Rod, in 2-foot lengths, each, 35c; Galvanized Extension Rod, in 2-foot lengths, 25c.

VAUGHAN'S BOUQUET GREEN

Lycopodium), also called Ground Pine, Club Moss, etc.

The past two seasons have strongly entrenched our position as a **first jobbing source** for this article. Our bulk carload lots in recent seasons have been secured from new localities on well wooded, level, moist grounds, and this product has proven the most uniform in deep green color and full sprays of any we have ever handled. Since it is grown farther north it is not subject to the warm and discoloring weather of other districts.

WRITE OR WIRE US for prices whenever you are ready to buy. Prices are quoted by mail for prompt acceptance, and customers are especially desired to ask us for net prices just when ready to buy, as values on this *fluctuate* greatly and almost daily. We keep in close touch with the market and supply at right prices.

Prices ready in October, write us. (25 lbs., $2.00.) On ton lots write or wire for prices.

VAUGHAN'S XXX XMAS HOLLY.

We maintain the highest grade Holly Branches in the market. Every case personally inspected by our own agent who has been 17 years in our service; men who gather and pick our Holly are equally well experienced. Our values are more than **DOUBLE.**

Per case, **$5.00.** For larger lots write. Burlap-lined for Pacific Coast Shipment, **50** cents extra.

Plants at the prices here quoted are sold on the basis of delivery to C., B. & Q. Railroad or Adams Express Co. at Western Springs, Ill., risk of transportation to be accepted by buyer. If other railroad or express company is desired out of Chicago we can, if so instructed, make Chicago delivery, after which the plants travel at buyer's risk.

On plants in bloom for Holidays or Easter, or on Cold Storage Stock, we cannot entertain claims for allowance in case of damage in transit, the stock being sold on a basis of actual value.

On some plant novelties we prepay express to eastern cities. Ask us.

Should customers reject any plant stock, telegraph us at once.

25 plants go at 100 rate, no less than three of any one kind at the dozen rate. Less than three plants of any one kind will be billed at single plant prices. On trade orders under $2.00 we add 25 cents for packing.

Plants are out of 2¼-inch pots, unless stated otherwise.

Vaughan's Cannas.

Our Canna fields at Western Springs when in bloom in August and September make a grand showing. They attract thousands of visitors, both professional and amateurs. We grow all of the standard kinds, all of the novelties, and discard the inferior ones every year as the improved merits of the newer ones are proven. We have won highest awards at four great expositions, Chicago, Omaha, Buffalo and St. Louis. The Grand Prize, one of the seven only awarded to American exhibitors in horticulture, was awarded to us at St. Louis. If you wish for the best and most complete assortment of Cannas write us. You will find them catalogued here.

KING HUMBERT.

King Humbert.

The Best of all Cannas.

There is no other **Best Canna** today. None can compare with it. This remarkable "Gold Medal" Canna has been the sensation of the past four years. Of all the wonderful flowering and foliage plants introduced, this one takes the lead for size, color and habit. It is a cross between the Orchid flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free-blooming character of the other; the handsome leathery foliage with a strong noble habit. 4½ feet in height.

Its giant flowers, orange scarlet in color, the very broad, rubber-like, bronze leaves, altogether make up a plant so distinctly in advance of any other Canna that the demand for and use of it must be universal.

Price, 3-inch pot plants, each, 15c; per doz., $1.50; per 100, $10.00. Price, 4-inch pot plants, each, 25c; per doz., $2.50; per 100, $15.00. Dormant, 1 to 2-eyed roots, as long as stock lasts, per doz., $1.00; per 100, $8.00. Pot plants ready about April 1st.

VAUGHAN'S BEST BEDDING CANNAS.

Our Experience with Cannas. For over 19 years we have made the culture of Cannas one of our main specialties. We grew last year in our place at Western Springs **over 10 acres** of standard sorts and novelties, besides 1,000 seedlings. We ought to know something about Cannas. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a **new name**. We also know, and had to pay dearly for this knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas, as long as the color is somewhere near correct. To them **any** red is a Chicago, **any** yellow a Florence Vaughan, etc. **Our Cannas are true to name,** and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, evenness of height and size of flowers.

Five Grand White Carnations.

SARAH HILL. Probably the largest, free-flowering white variety extant. The form is beautiful and displays the size to the very best advantage; color very pure, texture excellent. A startlingly beautiful novelty, producing its flowers with great freedom. **Per 100, $6.00; per 1000, $50.00.**

WHITE ENCHANTRESS. A sport of the popular variety Enchantress. Habit of growth, freedom of blooming and all other qualities identical to Enchantress. Perfect in form and calyx does not burst. Very free flowering, coming into flower early and continuing throughout the Summer. **Per 100, $4.00; per 1000, $35.00.**

PINK IMPERIAL. Strong, heavy grower, will give stem 3 feet long. Flowers of fine form, 3 to 3½ inches diameter. Color deep cerise pink. **Per 100, $4.00; per 1000, $35.00.**

MRS. T. W. LAWSON. This is still the leading dark pink. **Per 100, $2.00; per 1000, $15.00.**

WHITE KILLARNEY.

Mad. Constant Soupert. (Tea.)

The most beautiful Tea Rose introduced during the last ten years. The long buds are borne on long, stiff stems, color, yellow, retouched with peach pink; perfect shape and double. Buds open slowly and when fully expanded the color is a delightful golden rose. Flowers are very sweet and last in water for a week. Very free flowering. Without a rival for forcing. This rose was awarded the prize of honor at Dusseldorf, the gold medal at Liege and at Paris.

Mad. Segond Weber. (Hybrid Tea.)

This novelty, a cross between Antoine Rivoire and Souv. de Victor Hugo, is one of the most desirable of recent introductions. The color, a pure fresh salmon rose, is entirely new among Hybrid Teas.

The flowers are very large, composed of large firm petals, cup-shaped, of regular form and last a long time. Buds are pointed, oblong and are borne upright on long, rigid stems. The habit of the plant is irreproachable, the foliage vigorous and abundant. It is an ever-bloomer, flowering from early Spring until late Fall, rendering it most desirable for forcing and bedding.

Yvonne Vacherot. (Hybrid Tea.)

A new rose of great promise, both for cutting and as a pot rose. Plants are of vigorous growth, with clean and abundant foliage. Stalks are long, stiff and strong; buds long, solid and pleasing shape; color of bud is a fresh clear pink, a shade which will prove a good seller. Three varieties.

Price of the above 3 varieties, 2½-inch or 3-inch pots, 25c each; $2.50 per doz.; $18.00 per hundred.

Baby Dorothy.

The New Pink Baby Rambler.
(Maman Levavasseur.)

Compared to the well-known Crimson Baby Rambler Rose, which we were the first to introduce to the American trade, this lovely new rose is just as vigorous and free-blooming, with the difference that the flowers are a very bright and pleasing rose-pink.

2½-inch, **each, 15c; doz., $1.50; per 100, $10.00.**
3-inch, **each, 20c; doz., $2.00; per 100, $15.00.**
4-inch, **each, 35c; doz., $3.00; per 100, $20.00.**

Annie Mueller.

Florists will find this valuable for Easter blooming; also for outdoor bedding. Hardy.

Catharine Zeimet.

Strong, heavy grower, blooming in clusters. Pure white.

Price of the above two varieties:
2-inch, **per doz., $1.00; per 100, $6.00.**

"White Baby Rambler."

In this bush rose we have a true white Baby Rambler. The plants have never been out of bloom. The flowers are borne on clusters of 50 or 60 individual flowers, 1 inch in diameter, and pure snow white. A bed of this Rose is like a bank of snow.

The foliage is dark, glossy and finely cut. Does not grow over 12 inches in height, forming very bushy plants.

For cemetery use will be of great value, being perfectly hardy.

Secure stock early.

New Roses.

White Killarney.

Identical with the well-known Killarney, which is today the most profitable and popular pink rose grown; and we believe that White Killarney will be equally popular, and will supplant all other white roses now grown, because it is an all-season rose. Plants will be ready for delivery after March 1st, 1909.

Strong pants, own roots, 2¼-inch pots, **per doz., $5.00; per 100, $30.00; per 1000, $250.00.** Grafted stock, **per doz., $6.00; per 100, $35.00.**

Mrs. Jardine.

Cardinal. (Hybrid Tea.)

We consider this one of the best roses for Summer blooming and as a pot rose. The flowers are large and full with thick heavy petals, color, a deep crimson, very fragrant. If planted out in the open will produce fine flowers to cut all Summer.

MAD. CONSTANT SOUPERT.

The popularity of the White Baby Rambler is strong evidence of its merit.

Baby Rambler Roses.

We were the first to offer the Crimson Baby Rambler Rose in America. This Rose has come to stay and is a favorite everywhere on account of its hardiness, free blooming habits and adaptability as a pot Rose and for bedding purposes.

The two new Baby Ramblers which we offer this year possess the same qualities as the Crimson Baby and form a collection of three bedding Roses which should be in every garden.

Vaughan's White Baby Rambler is offered by us for the first time. We have splendid stock propagated from healthy plants which will start to bloom as soon as planted out.

The Pink Baby has been imported by us direct from France this year, from the originator of the Crimson Baby. Note opposite page for White and Pink Baby Rambler.

A First-Class Novelty—"Tausendschon."

A New Climbing Rose.

Raised by several crossings between the well known Crimson Rambler, Tea and Polyantha Roses. This beautiful novelty surpasses all other climbing roses of this section, both in growth, foliage and beauty of blooms. The flowers appear in large clusters from the beginning of June till end of July. Each individual flower measures about 2 inches across, and is of a beautiful soft pink, same color as Clothilde Soupert, later on changing into rosy carmine. The plant is of strong, vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. Very agreeable, as it is nearly thornless.

Picea Pungens Glauca Kosteriana

(Koester's Blue Spruce)

The most valuable conifer for ornamental planting. A rapid, vigorous grower, with stiff, close branches and brilliant, rich silvery blue foliage. Perfectly hardy under all conditions. More in demand at the present time than any other conifer. The stock we offer is grafted and is of the deepest steel-blue. Beware of seedlings offered at low prices; these are not as blue in color nor as symmetrical and regular in shape.

2½ to 3 ft.	4.50
3 to 4 ft.	6.00
4 to 5 ft.	6.50

Besides the above, we have some larger specimens at **$10.00, $12.00** and **$15.00 each.** The best time to transplant these is in May and August.

When trees or shrubs are selected at our nursery, prices will be according to the quality; selected specimens are worth more than regular stock.

LILIUM SPECIOSUM RUBRUM.

Vaughan's Gladiolus Princeps.

See illustration, scale one-half natural size.

This "King of all Gladiolus" has become popular beyond every other variety, both in this country and throughout Europe. It has made a class for itself, and you do not have the best of all until you buy it.

The individual flowers are 5½ inches in diameter and sometimes one inch larger. The petals are very wide and rounded, well reflexed, forming an almost circular flower. The color is brilliant scarlet crimson with three broad white blotches on the lower petals. Spikes produce 12 to 15 flowers and grow 4 feet in height. It is exceptionally healthy and its flowering is continuous.

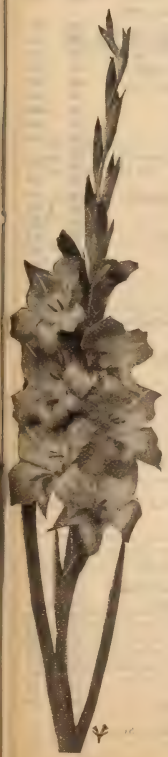
Mrs. Francis King.

New Giant Flowered Gladiolus.

We introduced this new variety in 1906 and everybody who has seen it growing or exhibited, tells us that we have not sounded its praises loudly enough, and that it will surely take a place in the first class for vigor of growth and brilliancy in bloom. Its color is light scarlet of a very pleasing shade which attracts attention at once. The flowers, measuring 4 to 5 inches, are borne on long stems and 4 to 6 are open on the spike at one time.

Each, 10c; per doz., 65c; per 100, $2.75; per 1000, $25.00.
Second size, per 100, $2.25; per 1000, $18.00.

America.



See illustration, scale one-fifth natural Size.

In color it is a soft lavender pink, very light, almost a tinted white, spikes two and three feet long, very large spreading blooms, and luxuriant dark green foliage. When cut it lasts in water a week or more, the blossoms retaining their vigor and delicate coloring to the last.

Andromeda. New Giant Curled. Color a very delicate apple-blossom generally showing a soft lavender hue, rendered more effective by a somewhat darker veining. **Trade pkt., 25c.**

Aureola. A most unique sort. The three lower petals are carmine, each with a large round blotch, the upper petals are white, with a broad carmine stripe near the edge. **Trade pkt., 25c.**

Boulogne Giant. This is a special selection of a French Pansy grower; the flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. They are mostly 3 and 5 blotched, delicately veined, while the colors are rich and varied. Like all high-bred Pansies they are shy seed bearers. **Trade pkt., 50c.; ⅛ oz., $2.00.**

Bridesmaid. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty the finest Apple-blossom, and most strikingly sets off the dark blotches of the center. **Trade pkt., 25c.; ¼ oz., 80c.; oz., $3.00.**

Emperor Francis Joseph. The plants are of compact habit while the flowers are of very large size, pure white with a large blotch of brilliant violet blue on each petals. It is the best White Pansy in existence. **Trade pkt., 25c.; ⅛ oz., $2.00.**

Marechal Niel. The flowers are very large, without any blotches or veins and are of the same pleasing, delicate cream color as the rose whose name it bears. **Trade pkt., 25c.**

Mauve Queen. Of largest size, the flowers are of almost pleasing mauve color. The three lower petals have large blotches of blush carmine; **Trade pkt., 25c.; ⅛ oz., 50c.**

Orchid-Flowered. A most interesting type of the Pansies of the Giant-Flowered Class, containing a mixture of must surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is light, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins towards the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt., 25c.; ¼ oz., 75c.; oz., $3.00.**

Rosy Morn. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wide. **Trade pkt., 25c.; ⅛ oz., $1 00.**

Siegfried. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flower. **Trade pkt., 25c.; ⅛ oz., 75c.**

Giant Volcano. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt., 25c.; ⅛ oz., 75c.**

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; ⅛ oz., 60c.; ¼ oz., $1.00; oz., $4.00.**

VAUGHAN'S "GIANT PANSY MIXTURE."

Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts. **Trade pkt., 25c.; ⅛ oz., 60c.; oz., 4.00; ¼ lb., $14.00.**

	Trade pkt.	⅛ oz.	oz.

Knowledge of the Needs of Market Gardeners.

We Make a Specialty of Seeds for Market Gardeners and Florists.

BONVALLET'S GIANT ASPARAGUS, (Cut Green.)

The wants and needs of Market Gardeners and Florists have been the study of our firm since 1877, when the President of this company personally solicited the market garden trade of Chicago. Knowledge of where to buy, the ability of growers, localities which produce the best seeds, market demands, etc., cannot be acquired by any seed firm in a few seasons, nor is it possible to obtain such information without enormous expense. It necessitates inspections of growing crops all over the world, not one season, but every season, to keep in touch with the latest varieties and methods of growing, field trials by the thousands, to compare our seeds with those of other seedsmen, so we may know what other firms are selling, and so that if there are any better strains, we may have them for our customers.

As to germination, each season we test every lot of seed in our house, and know it grows before we sell it.

Prices. Quality considered, we cannot and will not be undersold by any house in the United States.

ASPARAGUS, Bonvallet's Giant.

This Asparagus, a reproduction of which is on our front cover this year, is now well known as the best "grass" on the Chicago market, where we first introduced it some years ago. Elsewhere it is doing equally well; a Texas customer, after a few years' trial, putting in sixty acres of this variety this season.

Bonvallet's Giant can be cut a year earlier than any other sort and longer during the season. Grows equally well either white or green, depending on how planted. The shoots are purplish in color, much preferred over lighter or whitish grass. It is the most rust-resistant of any variety now on the market.

Seed, oz., 15c; ¼ lb., 40c; lb., $1.50; 2-year-old plants, per 100, $1.75; per 1,000, $12.00.

CABBAGE

VAUGHAN'S SURE HEADING SEED

VAUGHAN'S SELECT EARLY JERSEY WAKEFIELD.

Vaughan's Selected Early Jersey Wakefield. By far the best early Cabbage in cultivation. It forms fine, solid heads of good size, pointed shape, with few outer leaves. We offer an extra fine strain of this variety. Seed is grown from selected hard heads. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 70c.; lb., $2.50.**

Large Jersey or Charleston Wakefield. This is a larger heading sort than the Early Jersey Wakefield and matures a few days later. It is a great favorite with Southern planters as the larger heads demand better prices on the early market. Re-selected seed. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 70c.; lb., $2.50.**

EARLY ALLHEAD OR FAULTLESS.

Early Allhead or Faultless. This is the most popular Early Flat Head Cabbage. A sure-to-head sort with heads uniform in shape, large in size and of remarkable quality. Add to these points its earliness, and all things considered, it is the best One variety of Cabbage. The outer leaves are few, permitting close planting, thus growing more cabbages to the acre than loose outer-leaved sorts.

Oz., 20c.; 2 oz., 35c.; ¼ lb., 50c.; lb., $2.00.

Danish Ballhead. Our strain of this Cabbage is grown in Denmark by the most reliable grower there. It is the best late Cabbage for late Spring sales and for shipping. Long stem, medium sized head, extremely solid and long keeping. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 65c.; lb., $2.50.**

Dutch Winter or Hollander. This is the Cabbage most universally grown through the Wisconsin, Michigan, Illinois and Indiana cabbage districts. The heads are not large, are very solid, being just the right shape and size which the consuming trade demands. Our seed has had great success in all these districts and cannot be surpassed. Short stem. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 65c.; lb., $2.50.**

Dwarf Amager or Short Stemmed Danish Ballhead. A variety very similar to the Dutch Winter or Hollander. The seed, however, we imported direct from Amager Island, Denmark. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 65c.; lb., $2.50.**

TWO VALUABLE NEW VARIETIES.

Glory of Enkhousen. A round-headed, very solid, fine ribbed, best quality early cabbage. We think this about the hardest heading, long keeping, early sort. Live gardeners should give it a trial. **Oz., 30c.; 2 oz., 55c.; ¼ lb., 75c.; lb., $3.00.**

Danish Summer Ballhead. This is the Danish Ballhead of early cabbages. It closely resembles the Winter Ballhead, except that it is smaller and may be brought in with the very early flat head sorts. There is a trace of curliness on its outer leaves and a delicate flavor that suggests Savoy blood. Our market gardeners who have tried this are very enthusiastic. **½ oz., 15c.; oz., 30c.; 2 oz., 55c.; ¼ lb., 75c.; lb., $3.00.**

EARLY CHANTENAY.

VAUGHAN'S SELECT DANVERS.

CARROTS

FOUR POUNDS TO THE ACRE

Our Carrot Seed is raised by experienced and careful growers who know the importance of selection and isolation and practice it. Our seed is clean, pure and true to name and should satisfy any market gardener, no matter how critical.

Early Chantenay

The Best Bunching Carrot.

This is the best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about six inches long, are stump rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seed is most carefully selected. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $2.75.**

GUERANDE, OR OXHEART

A thick Carrot, 5 inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of good flavor and of a deep red color, and is a variety we can recommend to all market gardeners. **Oz., 10c.; ¼ lb., 20c.; lb., 60c.; 5 lbs., $2.75.**

Vaughan's Selected Danvers

The Best Carrot for every purpose

For over 20 years have we sold this selected stock, and we never have enough seed to supply the demand. All the gardeners in Chicago know it, and plant no other if they can get ours. It is the most uniform in existence, always of good color, a splendid yielder and of excellent flavor. It is one of the easiest Carrots to harvest, will yield more tons to the acre than any other. We are proud of being the owners and distributors of this Carrot. It is one of the specialties which has made Vaughan's Seeds synonymous with "Best Seeds." **Oz., 10c.; ¼ lb., 25c.; lb., 85c.; 5 lbs., $4.00.**

CAULIFLOWER, VAUGHAN'S EARLIEST DWARF ERFURT.

CAULIFLOWER

No seed is more important than this, as every gardener knows. It is one of the seeds in buying which price should never be questioned.

VAUGHAN'S EARLIEST DWARF ERFURT

Vaughan's Earliest Dwarf Erfurt combines all pedigree points—earliness, purity of color, dwarf habit, fine grain. This seed will produce cauliflowers worth the highest market price. It cannot be sold cheap for above reasons; but the shrewdest gardeners find it the most profitable. **Lb., $30.00; ¼ lb., $8.00; oz., $2.00; ½ oz., 65c; Pkt., 25c.**

Danish Snowball This is a grand second early. It is the result of long, careful selection, and uniformly produces even, regular heads. Through many seasons it has proved itself reliable, and gardeners can trust it every time. **Lb., $20.00; ¼ lb., $5.00; ½ oz., $2.75; oz., $1.50; ¼ oz., 40c; Pkt., 10c.**

Dry Weather For dry climates and dry seasons. Gardeners who planted this last year had much better crops than those planting other sorts. Danish grown seed from the introducer. **Pkt., 20c; ¼ oz., 60c; oz., $2, $5.00; oz., $1.50; ¼ oz., 50c; pkt., 10c.**

Extra Early or Second Erfurt An Erfurt grown variety much like the Danish Snowball. **Lb., $20.00; ¼ lb., $5.00; oz., 75c; ¼ lb., $2.50.**

Large Early Erfurt A second crop sort. Larger than Extra Early Erfurt, a good sure header. **½ oz., 40c; oz., 75c; ¼ lb., $2.50.**

THE seed of this strain was saved with the greatest care only from perfectly developed heads, which yield but little seed. Good Cauliflower seed is always high in price; cheap Cauliflower is a poor investment, because it cannot be good.

The best seed of this type of Cauliflower comes from Amager Island, near Copenhagen, Denmark. There the winters are mild, causing little loss from rot in the seed heads, and the cool, moist summers give ideal growing conditions for this vegetable.

Available ground is scarce and value high, so intensive culture is necessary.

Vaughan's Snowball is the result of years of careful selection by an experienced and most painstaking gardener, under these conditions.

Vaughan's New Snowball Cauliflower.

The best general purpose variety either for Spring or Fall planting.

Vaughan's New Snowball Cauliflower is a specialty of our house. It is on such particular seed as Cauliflower, in which the least variance from the true strain results in great injury to the grower, that a seed house builds up its reputation. We know our Cauliflower is the equal of anything that can be produced. In our trial ground tests we have tried nearly every strain of cauliflower offered on the market and, while we have found a few equals, we have never found a superior to Vaughan's Snowball. We pay more for our seed than probably does any large seed house in the United States just so that we can have it as near perfection as it is possible for man to grow it. High bred Cabbage and Cauliflower does not germinate as well as less carefully bred strains. Nevertheless we have taken such pains to reclean and re-sift our seeds after receiving them from the grower that our seed is always up to standard of growth. Head usually 9 to 10 inches across, perfectly white and very solid, deep and compact.

Vaughan's New Snowball Cauliflower is put up in packages as follows: Pkts., ¼ oz., ½ oz., 1 oz. and ¼ lb., sealed with our trade mark and with distinctive paper and printing.

Pkt., 25c; ¼ oz., 65c; ½ oz., $1.25; oz., $2.00; ¼ lb., $8.00; lb., $32.00.

WHITE PLUME, Vaughan's Selected Stock.

VAUGHAN'S CELERY MANUAL—
Written by a practical grower of 20 years' experience. Revised and published by J. C. Vaughan. **Price, postpaid, 50c.** Will be sent free if requested with a Celery seed order of $3.00 or with any general order for other seeds amounting to $5.00.

White Plume, Self-Blanching—Vaughan's Selected Stock

We have not yet found a Celery that is as early and of as good a flavor, as **crisp** and tender, as our selection of this sort. We sell large quantities of this seed to market gardeners, who find it **uniformly white and free from green or hollow stalks.** It is not a good keeper, but it is excellent for Fall and early Winter use. **½ oz., 12c; oz., 20c; 2 oz., 30c; ¼ lb., 50c; lb., $2.00.**

WHITE PLUME—Regular Stock. ½ oz., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.50.

Golden Self-Blanching—Vaughan's Selected Stock

This is the best Celery for early use. The stalks are much broader and heavier than those of the **White Plume,** and greatly superior in quality. It is ready for use nearly as early, producing dwarfer and much larger bunches of broad, heavy stalks, blanching to a **deep golden yellow.** The handsome color, crispness, tenderness, freedom from stringiness and nutty flavor of this variety make it only necessary to be tried in order to establish it as the **standard of excellence as an early sort. ½ oz., 20c; oz., 35c; 2 oz., 60c; ¼ lb., $1.00; lb., $3.50.**

GOLDEN SELF-BLANCHING—Regular Stock. ½ oz., 15c; oz., 25c; 2 oz., 35c; ¼ lb., 60c; lb., $2.50.

"Winter Queen"

This is without doubt the most valuable variety of Celery for Winter and Spring use. It is also much stouter, thicker and heavier, with **double the amount of heart of any known Celery.** The plant is of close habit and blanches to a beautiful cream white. Ribs perfectly solid, crisp and of a delicious nutty flavor. Grow Winter Queen once and you will always grow it. **½ oz., 12c; oz., 20c; ¼ lb., 50c; lb., $2.00.**

Vaughan's Giant Golden Heart

The best Celery for Winter storage. Ever since we introduced this Celery it has gained in public favor and rightly so, for it is not only the best keeper, but **it is large, solid,** as **sweet as a walnut and of a beautiful golden color.** It is a selection from the Dwarf Golden Heart; grows much larger than its parent. **½ oz., 12c; oz., 20c; 2 oz., 30c; ¼ lb., 50c; lb., $2.00.**

SWEET CORN

Vaughan's Extra Selected.

THE FOUR BEST GARDEN VARIETIES.

Mammoth White Cory. One of the largest and best extra early varieties. Each stalk furnishes two or more large, fine shaped ears, ready days before other large sorts. The ears are twelve-rowed, very symmetrical and handsome, with no opening between the rows at the base. The grain is large, broad, very white, and of remarkably good quality for such an early sort. The size and beauty of this variety gives it ready sale even when the market is over-stocked. Our strain is early and large. **Qt., 25c; ½ peck, 60c; peck, $1.15; bu., $4.50.**

Improved Early Champion. The Earliest Large Sweet Corn. Produces ears 12 in. long in 60 days. This new variety is without question the earliest large Sweet Corn yet introduced, being only a few days later than the first early small sorts. Ears nearly as large as the Mammoth; 12 rowed; pure white kernels, with medium sized white cob; very sweet, tender and full of milk; yielding two and three ears to the stalk. The best kind for early and late planting. **Qt., 25c; ½ peck, 60c; peck, $1.15; bu., $4.50.**

Stowell's Evergreen. The most popular main crop Sweet Corn. Ears numerous, kernels large, deep, white and of fine flavor. A late sort. To supply the right seed of this favorite has been our effort for many years. Seed grown near the Eastern Atlantic Coast has always shown by its flavor and shriveled ripened kernels the highest percentage of sugar known. We offer both selected seed from Eastern grown stock and Western grown seed from original Eastern stock.

Country Gentleman. One of the sweetest of all Sweet Corns, and also one of the most productive sorts, the stalks averaging three ears; sometimes as many as five; kernels and cobs are pure white, cob small, kernels deep, ears average nine inches in length. **Qt., 25c; ½ peck, 65c; peck, $1.25; bu., $5.00.**

This is by far the most popular sort among the Chicago gardeners. It forms large, loose leaves of ideal color; the leaves are large, thin, very tender, and of very good quality. It is one of the best sorts for use under glass as well as for early outdoor planting. As this kind varies when growing we have our stock seed all hand picked. **Lb., $1.00; ¼ lb., 30c; oz., 10c.**

MUSK MELON

Netted Gem—Rocky Ford.—Selected Stock. This seed is carefully grown, selected and saved at Rocky Ford under the care and supervision of one of the most careful shippers. It is well known that much seed offered as Rocky Ford stock has been saved by local growers from surplus or cull Melons by men who know nothing of the responsibility of the seed business. Careful planters should avoid this kind of stock.

VAUGHAN'S SELECTED STOCK—From best melons in field. **Oz., 15c; ¼ lb., 40c; lb., $1.50.**

ORDINARY STOCK—Seed from entire field planted only for seed. **Oz., 10c; ¼ lb., 20c; lb., 60c.**

Oval Gem. Our regular stock of this at the following prices is first-class, carefully selected seed, such as no gardener need hesitate to plant. **Oz., 10c; ¼ lb., 30c; lb., 80c.**

Round Gem. This is the true original type of Netted Gem originated in Philadelphia, but our grower has improved it by weeding out so far as possible the oval type. **Oz., 10c; ¼ lb., 25c; lb., 75c.**

The Osage Gem. Early as Netted Gem; same size and shape. Flesh, orange, solid and of best flavor. **Oz., 15c; ¼ lb., 40c; lb., $1.50; 5 lbs., $6.50.**

Rocky Ford Musk Melon.

VAUGHAN'S PAUL ROSE or PETOSKEY.

The best and most uniformly high quality table Melon introduced in ten years. This is a cross of the osage with the Netted Gem, and combines the sweetness of the former with the fine netting of the Gem. It has also the firmness of meat, salmon color, and cheesy structure peculiar to the osage. In this respect it is superior to any Melon in existence, because of this thick, solid flesh, free from shrinkage, added days and hasaltee wastes or "break down" in keeping, enables one long ripe as long as any other shipping Melon. **PRICE: Vaughan's Selected Seed, oz., 20c; 2 oz., 35c; ¼ lb., 60c; lb., $2.00.**

Vaughan's Regular Stock, oz., 10c; ¼ lb., 35c; lb., $1.25; 5 lbs., by express, $5.50.

VAUGHAN'S ORIGINAL OSAGE.

This famous Melon is our own introduction, and we take special pride in maintaining the quality and superiority of our stock. We pay many times the prices given ordinary seed growers to get our seed raised in the best locality and then selected from merchantable early Melons. Seed obtained from culls left in the field after marketing is over can be bought cheaply, but is high at any price. However, seed taken from early choice market melons must bring a high price, though really a hundred times cheaper than the other. Salmon flesh, high table quality; during the last season was the best Melon on the Chicago Market. Our strain is dark skinned, but moderately netted.

Vaughan's Selected Stock—Oz., 25c; 2 oz., 45c; ¼ lb., 75c; lb., $2.50.

Ordinary Seed—Entire field grown for seed, but seed not chosen from special melons. **oz., 10c; ¼ lb., 35c; lb., $1.25; 10 lbs., $11.00.**

Special Shipping Osage Slightly more netted than original type; especially selected for shipping. **Oz., 15c; ¼ lb., 50c; lb., $1.60.**

Raised From Vaughan's Special English Spawn.

FRENCH MUSHROOM SPAWN.

French Spawn is planted for the growing of button mushrooms. Ours is the very best to be had, being sown from selected mushrooms. Put up in boxes of 2 pounds each. **Price, per box, 75c; if by mail, $1.20. The same loose, per lb., 35c; if by mail, 45c; 10 lbs., $3.20.**

The essentials in Mushroom growing are: an even temperature, 55° to 60°, maintained day and night; well prepared beds with good manure; a moist atmosphere, where the air is dry beds lose their moisture quickly and must be watered. Water applied directly to a Mushroom bed always injures the crop.

MUSHROOMS

The last few years have shown a large increase in the amount of Mushrooms grown and still the prices are not only maintained, but increased. Vaughan's Seed Store has been most successful in supplying with satisfaction both the Imported English Spawn (Vaughan's Special)and Pure Culture Spawn to market growers. We make at least five importations yearly, so as to always have a fresh supply.

English Mushroom Spawn. Our Spawn is manufactured by the largest and most successful maker of Spawn in the world. He has made Spawn for some thirty years and has kept up on all the new methods of manufacture. Our Spawn is made by the famous tissue method from selected specimens. It has been found that English Spawn, as a rule, does not bear so quickly as the American pure culture, but it, however, lasts much longer in bearing.

English Mushroom Spawn. (VAUGHAN'S SPECIAL).

Price, per brick, 25c; 5 lbs., $1.00, postpaid. By express or freight, per brick, 15c; 2 for 25c; 8 bricks, $1.00; 25 lbs., $2.00; 100 lbs., $6.50; if shipped from New York, $6.00. Special prices on ½ ton lots and upward.

Pure Culture "Garden City" Spawn. The best Spawn for beginners. The highest development in the art of Spawn making. This Spawn is made from tissue cultures from select specimens produced by Spore (seed) culture. The bricks are inoculated with tiny threads from a young specimen fruit, so that the special sorts or strains are produced, true to type. By this selection of varieties the inferior yielding kinds are avoided. We carry the Cream Brown or Bohemia variety, which has proven the best yielder. We can, however, supply the Pure White, Brown, Alaska or Columbia pure culture Spawn. **Price, per brick, 35c; 2 bricks for 60c, postpaid; by express or freight, 5 bricks for $1.00; 10 bricks, $1.75; 25 bricks, $3.50; 100 bricks, $12.00.**

COLE'S EARLY.

WATER MELON

Cole's Early. This is the Best Early Water Melon for the home market today. For sweetness and delicate texture of flesh it has no equal. The rind is thin but brittle, and therefore not suitable for shipping; for the home market we know of none better. Extreme earliness is its great merit. **Oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., $2.65.**

Early Fordhook. The first early shipping melon. Large for an early; skin, dark green; flesh, crisp and sweet. Rind thin, but with tough skin. **Oz., 10c; ¼ lb., 20c; lb., 65c.**

Vaughans's Black Diamond. A cross between Kolb's Gem and Hoosier King. Its prominent points of merit are its extreme size and productiveness. Melons weighing 75 to 90 pounds are frequent. It is the most prolific Water Melon. Its color is a rich, dark green, almost black. Of symmetrical shape, roundish to bluntly oval, a similarity of shape running through the whole field. **Oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., $2.50; 10 lbs., $4.50.**

Sweetheart. A standard shipping melon. Vine vigorous and productive. First fruits ripen early. The melons are large, uniform and heavy, mottled light and dark green. Rind is thin, but firm, and the flesh is firm and solid, yet tender and melting. **Oz., 10c; ¼ lb., 15c; lb., 50c.**

Improved Kolb's Gem. The best known shipping melon. The seed of this is saved from large, smooth melons of a darker mottled green than Kolb's Gem. The melons show a yellow blotch on the bottom. **Oz., 10c; ¼ lb., 15c; lb., 50c; 5 lbs., $2.00; 10 lbs., $3.50.**

Triumph. One of the largest and handsomest of the shipping melons. A great seller. **Oz., 10c; ¼ lb., 20c; lb., 50c.**

Alabama Sweets. A popular Southern shipping melon, especially in Texas. Dark green color, good size and fine flavor. Select seed. **Oz., 10c; ¼ lb., 25c; lb., $1.00.**

Kleckley's Sweet. A large oblong melon. A poor shipper, but without doubt the highest quality of all Water Melons. Skin dark green, flesh bright scarlet, ripening close to the skin. The large heart does not crack open when ripe. **Oz., 10c; ¼ lb., 20c; lb., 70c; 5 lbs., $3.25.**

True Ice Cream. The great Home Market Melon. It has too thin a rind for shipping unless packed in straw. Few, if any, surpass a True Ice Cream for quality and productiveness. **Oz., 10c; ¼ lb., 15c; lb., 50c.**

Winter Water Melon (Novelty). This Melon is early, earlier than Sweetheart and a very prolific bearer. The flesh is red, of extreme firmness; in fact, almost as hard as citron; very brittle and deliciously sweet. In color it is very light green, almost white. The firmness of the flesh causes it to be the longest keeper of the Water Melon family. **Price, ½ oz., 15c; oz., 25c; 2 oz., 40c; ¼ lb., 60c; lb., $1.80.**

VAUGHAN'S IDEAL WHITE GLOBE.

ONION SEED

VAUGHAN'S PEDIGREE.

Our strains of Globe Onions are right! We see to it that Seed Onions are selected with the greatest care, and none are planted except they are of the true type. Thin necks, globe shape and clear colors are what we aim for.

VAUGHAN'S IDEAL WHITE GLOBE.

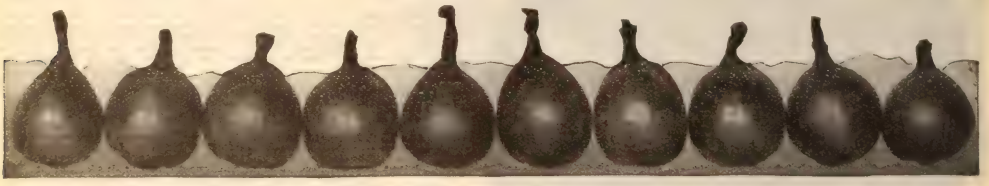
This is the handsomest of all Onions. It is of the true globe form, pure white, hard, small necked, ripens very early and evenly and is a good keeper. We supply the largest market gardeners in Chicago and the west. No market gardener or Onion grower can afford to plant inferior stock, with only cheapness of price to recommend it, when seed like ours is to be had, the results of a few ounces often paying twice the first cost of the best seed.

PRICE: Eastern Grown, oz., 25c; ¼ lb., 85c; lb., $3.00; 5 lbs., $14.50; 10 lbs., $28.00.

PRICE: Western Seed, oz., 20c; ¼ lb., 70c; lb., $2.50; 5 lbs., $12.00; 10 lbs., $23.00.

SOUTHPORT YELLOW GLOBE.

Southport Yellow Globe. A main crop, late, large round Onion. It is sure to satisfy the one who buys a packet, or the one who sows 50 pounds for carload shipments. A truly grand Onion whose large, golden yellow spheres make a beautiful appearance, sacked or barreled for the market. Finest of all yellow Onions for keeping. Our Eastern strain of seed is from a grower of twenty-five years' experience, who makes a specialty of this variety. There is no better.



PRICE: Eastern Grown, oz., 20c; ¼ lb., 50c; lb., $1.60; 5 lbs., $7.75; 10 lbs., $15.00.

Southport Blood-Red Globe. Our Blood-red Globe has a beautiful red skin, and a better lot of seed cannot be found. The Onions are of immense size, very solid and firm—qualities which make them fine sellers and excellent keepers. Our market gardener customers regularly grow crops yielding 800 to 1,000 bushels from this seed. Our grower is an expert, who carefully selects this seed from large, fine colored, solid bulbs, well ripened and cured, and who rejects all thick necked ones.

PRICE: Eastern Grown, oz., 20c; ¼ lb., 50c; lb., $1.60; 5 lbs., $7.75; 10 lbs., $15.00.

PRICE: Western Seed, oz., 15c; ¼ lb., 40c; lb., $1.40; 5 lbs., $6.75; 10 lbs., $13.00.

OHIO YELLOW GLOBE—SHOWING EVENNESS OF TYPE.

Ohio Yellow Globe. (See illustration.) The best of all yellow Onions. Entirely distinct from the old type of Yellow Globe Danvers, being earlier, smaller necked, of perfect globe shape, uniform as to size and color and a greater cropper. Vaughan's Special Ohio Grown Seed of this type is an extra fine selection as to color, shape and yield of this already fine sort. Regarded by seed growers the superfine strain of Yellow Onion Seed. **Oz., 15c; 2 oz., 25c; ¼ lb., 45c; lb., $1.60. By express, 5 lbs., $7.75; 10 lbs., $15.00.**

Red Bermuda Teneriffe Seed. Similar to the above except in color. **Oz., 15c; ¼ lb., 70c; lb., $2.50.**

Prizetaker Onion. Vaughan's Selected Stock. The handsomest, largest yellow Globe Onion. A fair keeper, of finest flavor, handsome shape and enormous size, many single Onions weighing five pounds or more having been raised from seed the first year. It is of the same type as those immense imported Onions which can be seen in fruit stores, and always commands a very high price. The Prizetaker always grows to a perfect globe shape, with a bright straw colored skin; the necks are very small, and the Onions always ripen up hard. American grown. **Oz., 15c; ¼ lb., 45c; lb., $1.60; 5 lbs., $7.75; 10 lbs., $15.00.**

Vaughan's Apple-Shaped Red Globe. This is the most perfect market type of Red Globe Onion. Ideal for enclosing the most bulk in the most compact shape. Its color is absolutely the darkest blood-red. Its size is equal to any of the largest types of Red Globe. Fifteen years ago this Onion was first planted in the West, under the name of Extra Early Red Globe. Since that time, grown on rich land, carefully selected for size, shape and color, it has been improved a little each year, until we believe it now the very best of its class. **Oz., 20c; ¼ lb., 50c; lb., $1.75.**

Mammoth Silver King. This mammoth variety is one of the largest in existence, averaging from 15 to 22 inches in circumference, often weighing from 2¼ to 4 pounds each. It matures early, and is uniformly of large size and fine shape, being flattened but thick. The skin is a beautiful silver-white, flesh snowy, tender and of mild sweet flavor. Its striking size, handsome appearance and mild flavor recommend it to the fancy market. **Oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25.**

Different market and localities prefer different Onions. Globe Onions are generally the most popular and yield better than the other sorts. In certain portions of the country certain colors are in the highest favor. Vaughan's Ideal White Globe, Southport Blood Red, our special Ohio Globes and Apple Shaped Red Globe are ideals of their kind. Every bag of seed is tested as to vitality.

THE VALUE OF NITRATE OF SODA.

Nitrate of Soda furnishes to young plants the most essential of all plant foods, nitrogen, in its most available (soluble) form. Applied when the plants are young, the effect is immediate and lasting, the result is an earlier and heavier crop. Its advantage over farm yard manure is that it acts much more quickly, for this reason for high priced early crops the use of Nitrate of Soda is essential for the best results. Try a crop, one portion with Nitrate of Soda and another portion without. Figure the difference in net results. Our customers who have once used it always come back the next season with an increased order. **Price, 5 lbs., 35c; 10 lbs., 60c; 25 lbs., $1.25; 100 lbs., $4.00; 500 lbs., $18.50, at Chicago or New York.** The market varies and prices are subject to change. VAUGHAN'S IMPROVED TELEPHONE.

PEAS | Vaughan's Northern Grown

EXTRA EARLY VARIETIES.

Alaska. The first extra early pea. Very even in ripening and prolific. Pods 2½ to 3 inches long, well filled. Dry seed round and blue. Quality only fair. **Quart, 25c; ½ peck, 80c; peck, $1.50; bushel, $6.00.**

Maud S. This is the earliest selection of the extra early type of pea. Our stock is very uniform in ripening so the pods may be harvested at one picking. Dry seed round and yellow. Quality a little better than Alaska. **Quart, 25c; ½ peck, 75c; peck, $1.40; bushel, $5.50.**

First and Best. Another strain of the extra early type, not so early as Maude S., but a slightly better yielder. Sold as Philadelphia Extra Early, Best Extra Early, Rural New Yorker, etc. **Quart, 25c; ½ peck, 70c; peck, $1.35; bu., $5.25.**

GRADUS. The best extra Early Wrinkled Pea. Within three to five days in season of the Extra Early Poor Quality peas. This variety has pods as large as Telephone and peas unsurpassed by any variety in quality. Our seed has been very carefully selected and any vines showing small pods have been rogued from the fields. We know this will give you satisfaction. **Quart, 30c; ½ peck, 90c; peck, $1.75; bushel, $7.00.**

Surprise. The earliest of the winkled peas. Several days ahead of Gradus or any other wrinkled variety. Quality and productiveness good. An excellent variety for early trade which demands quality. Pods the size of Alaska or Maud S. **Quart, 25c; ½ peck, 80c; peck, $1.50; bu., $6.00.**

PROFITABLE DWARF SORTS For Market Gardeners.

Nott's Excelsior. Very dwarf, 15 inches. Early, three days after Alaska. Sweet and a heavy bearer. Pods 3 inches long. The heaviest yielding, early dwarf pea. **Quart, 25c; ½ peck, 80c; peck, $1.50; bu., $6.00.**

McLean's Advancer. A very heavy yielding medium season variety. The pods are of good size and are always well filled. A very desirable variety where brushing of the tall varieties is impracticable. **Quart, 25c; ½ peck, 85c; peck, $1.65; bu., $6.50.**

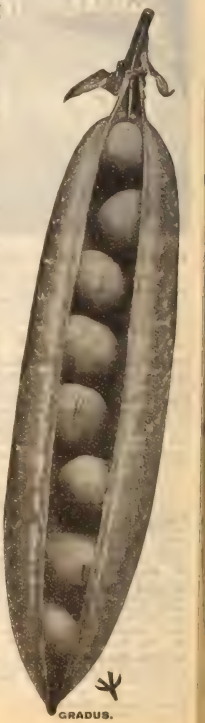
Dwarf Telephone. Vaughan's Re-selected stock. See Novelties, page 4. The best large podded dwarf peas for the Market Garden. **Quart, 30c; ½ peck, 90c; peck, $1.75; bu., $7.00.**

Heroine. A very popular, large podded, late dwarf pea. Height, 2 feet. The vines are very prolific. Pods are well filled with peas of good flavor. **Quart, 25c; ½ peck, 85c; peck, $1.65; bu., $6.50.**

Improved Stratagem. A late extremely large podded high quality pea. The pea has high merit as a market garden variety. Its chief drawback has been the difficulty to get true stock. Our strain is the best we have seen and will give satisfaction to the most critical. **Quart, 30c; ½ peck, 90c; peck, $1.75; bu., $7.00.**

LATE OR MAIN CROP VARIETIES.

Champion of England. One of the oldest and still one of the best varieties before the public. Late, tall, vigorous and an enormous yielder. A superior strain. **Quart, 25c; ½ peck, 65c; peck, $1.25; bu., $5.00.**



Everbearing. Medium height. Very prolific. Pods 3 inches in length. **Quart, 25c; ½ peck, 70c; peck, $1.35; bu., $5.25.**

Vaughan's Sweet Market. An excellent second early, main crop pea, following right after the Extra Earlies. Pods 3½ inches, borne in large quantities on very vigorous vines. Height, 2½ ft. One of the heaviest yielding of all peas. **Quart, 25c; ½ peck, 80c; peck, $1.50; bu., $6.00.**

TWO DESIRABLE NEW VARIETIES.

The Pilot. A smooth seeded strain of Gradus. Compared to Gradus, this may be planted a week earlier; the seed being smooth does not rot in the cold ground. Otherwise similar to Gradus. **½ peck, $1.25.**

Witham Wonder. A second early, very heavy cropping dwarf sort. The peas are remarkably sweet. Pods of medium size. Where quantity and quality count, this variety will be well liked. **4 qts., 85c; peck, $1.65; bu., $6.50.**

GRADUS.

CHAMPION MOSS CURLED PARSLEY.

PARSLEY

The Champion: is a prize-winning English variety, in appearance like a tuft of finely curled moss, and of a rich deep green color. It is slow to run to seed and very hardy; of easiest growth, a few seeds sown in onion rows use no space. Grows in window boxes. **Lb., 50c; ¼ lb., 20c; oz., 10c.**

Double Curled. **Lb., 40c; ½ lb., 15c; oz., 5c.**

Fern-Leaved. **Lb., 65c; ¼ lb., 20c; oz., 10c.**

Plain. **Lb., 40c; ½ lb., 15c; oz., 5c.**

MARKET GARDENERS' STRAINS

Hamburg Rooted or German Parsley. The root resembles a small parsnip and is the edible part of this sort; extensively used for flavoring soups. **Lb., 50c; ¼ lb., 15c; oz., 5c.**

PARSNIP

Magnum Bonum. A very fine and greatly improved strain of Hollow Crown Parsnip, which we can recommend to all marketmen as a **money-maker.** The roots are smooth, not so long as those of the standard sort, somewhat thicker in diameter and much more easily pulled. **Lb., 40c; ½ lb., 15c; oz., 10c.**

Improved Guernsey. An improved strain, which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Of excellent quality. **Lb., 40c; ¼ lb., 15c; oz., 7c.**

Hollow Crown, or Long Smooth. (Abbot's Improved.) Smooth, large, tender and sugary; one of the best. Our stock is very fine. **Lb., 40c; ¼ lb., 15c; oz., 7c.**

PEPPER

CULTURE: See "Vaughan's Vegetable Garden." A Copy Free to Buyers of Vaughan's Seeds.

Our Magnum Dulce Pepper (See Description Below) Should be Grown by Every Gardener.

Vaughan's Improved Sweet Mountain. It is a strong grower, very productive. The peppers when young are of a bright green color, without any shade of purple; when ripe they are of a very beautiful red; the flesh is thick, sweet and mild. They often grow 6 inches long by 4 inches through. Our strain has been selected with great care for over twenty years. **Lb., $2.00; ¼ lb., 60c; oz., 20c; ½ oz., 12c.**

Ruby King. Grows 4½ to 6 inches long, by 3½ to 4 inches thick. The peppers are bright ruby red; one of the best for stuffed pickles. The meat, or walls, is quite crisp and tender. **Lb., $2.00; ¼ lb., 60c; oz., 20c; ½ oz., 12c.**

Chinese Giant. **Double the size of "Ruby King."** Not only is it early in ripening and productive for so large a pepper, but its size will cause it to sell most readily. The fruits are of thick blocky form and of glossy scarlet. They grow four or five inches broad at the top, and are of equal length. All uniformly large. The flesh is mild and unusually thick; it makes an excellent salad sliced and served like tomatoes. **Pkt., 10c; ½ oz., 25c; oz., 40c.**

Cayenne Pickling. Of dwarf habit, and does not branch very much, but unlike the ordinary Cayenne, the peppers grow erect on the plant and are about 2½ inches long; just the right size for pickling. **Pkt., 10c; ½ oz., 15c; oz., 25c.**

MAGNUM DULCE PEPPER.

PEPPER, NEW NEAPOLITAN. A great market gardeners' variety, two weeks earlier than Bull Nose or Ruby King. It is of good size, mild flavor, and the plants are of good stocky growth. Its great value lies in its prolificacy. The flesh of the fruits is quite thick, and turns an even bright red color when ripe. **Price, ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.**

PEPPER, NEW UPRIGHT SWEET SALAD. This pepper grows upright, and not hanging as do other sorts. It is a cross between Chinese Giant and a very mild, sweet variety. Its value to the market gardener is in earliness and its mild flavor, so mild, in fact, that even the seeds may be eaten raw without inconvenience. Fruits are of medium size, and are produced in good numbers. The color is a very handsome green, and turns a waxen red when ripe. A fine variety for fancy trade. **Pkt., 10c; ½ oz., 25c; oz., 40c.**

Vaughan's Magnum Dulce Pepper.

Decidedly superior to Chinese Giant or any other variety known to market in size and sweet quality. The result of many years' careful selection by a successful grower. The yield of this variety may be greatly increased by pinching out the first or king blossoms which appear. These king blossoms produce the largest peppers. However, in doing so, they reduce the yield. The flesh runs from ½ to ¾ in. in thickness, and is exceptionally mild and pleasant in flavor. Fifteen fruits fill a bushel basket. **Pkt., 10c; 2 for 15c; oz., 50c.**

MAGNUM BONUM PARSNIP.

Of the easiest growth. Sorrel is cultivated for its leaves, which possess a very fine flavor; boiled and served like Spinach. It also makes a delicious soup. **Lb., $1.00; ¼ lb., 25c.; oz., 10c.**

SPINACH

Vaughan's Norfolk Savoy Spinach

This is the variety so highly prized by the large planters about Norfolk, Va. **The leaves, remarkably thick and blistered,** extremely hardy, do not settle in the barrel in shipping as do the other varieties. No seed has caused planters more dissatisfaction than spurious varieties of this, whole crops having been plowed under or abandoned because they were not of the proper kind. Our strain has secured the trade of the largest and best growers in the country.

Swiss Chard—A Money Crop

Cut and Come Again Spinach Far superior to the common Beet for **greens and equal to Spinach.** Sown early in the Spring, in rows 16 ins. apart, and the seedlings afterward thinned out to 6 ins. in the rows, it makes rapid growth of leaves, **and is fit for use for greens sooner than any other variety.** For Summer use it is superior to Spinach, because it can be cut throughout the entire Summer and Fall, when no Spinach is to be had. It is of almost the same flavor and it is much easier to wash and prepare for the table. **Lb., 40c.; ¼ lb., 15c.** No vegetable requires less care than this, and it is safe to say that none yields as constantly as this Spinach, producing uninterrupted from July until Fall.

CUT AND COME AGAIN SPINACH.

SQUASH.

CHICAGO WARTED HUBBARD SQUASH.

Chicago Warted Hubbard Squash

Our strain of the above will produce mainly the type shown in our photo-engraving, which we consider the **ideal Hubbard** for home or for market. For thirty or forty years this Squash has ranked first for a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Because of this our selection of Chicago Warted Hubbard has been made. **Lb., 70c.; ¼ lb., 25c.; 2 ozs., 15c.; oz., 10c.; 5 lbs., $3.25; 10 lbs., $5.50.**

Hubbard An extra choice selection. None better in the market. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $2.75; 10 lbs., $5.10.**

Red or Golden Hubbard A perfect type of the Green Hubbard, except in color, which is a bright, deep orange-yellow, very showy and attractive. Flesh deep golden yellow, much richer in color than Hubbard, fine grained, cooks very dry and is of excellent flavor. Its keeping qualities are fully equal to, while in productiveness it far excels the Green variety. **Lb., 80c.; ¼ lb., 25c.; oz., 10c.**

"Straight-Neck" Summer Squash

Market gardeners who ship early Squash to distant markets know the difficulty of packing the crook-necked variety in boxes to good advantage. In our "Straight-Neck" the bad feature of the crook has been overcome, and by continued selection the size has been increased, more uniformly in shape, improved quality. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

PURPLE TOP WHITE GLOBE.

Earliana. The Earliest Large Smooth Red Tomato. Remarkable not only for its earliness, but also for its large size, handsome shape, bright red color and smoothness. June Pink. Resembles the Earliana in foliage, plant growth, size and shape of fruit. The fruit, however, is a handsome deep pink color instead of red. This tomato commands the highest market price. Was a money getter for many of our Chicago Market Garden customers this last season. The earliest Pink Tomato. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Vaughan's Earliest of All. The earliest of all Tomatoes. Inclined to be somewhat rough in appearance. Of much value in the North for those who have poor hot-bed facilities for growing plants. It is the earliest variety we have yet found. ½ oz., 12c; oz., 20c; ¼ lb., 70c; lb., $2.50.

Acme. **Vaughan's Selected Stock.** A very fine strain of this popular early variety. Large, round, smooth, of pinkish-purple color. Always a favorite on the market. A very prolific bearer and a sort that has few cracked fruits, even during the most unfavorable weather. ½ oz., 12c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Beauty. The favorite purple, large-fruited variety. Very smooth large fruits in clusters of four to six, set freely on strong, vigorous vines. They ripen early and retain their size throughout the season. Picked quite green they ripen nicely. ½ oz., 12c; oz., 20c; ¼ lb., 65c; lb., $2.25.

New Stone. **Vaughan's Improved Strain.** The best main crop red tomato. Color, fine scarlet; stem set high; core small and shallow. Its shipping quality is unsurpassed. As a yielder it is the most productive of any variety now offered. The ideal and most popular canning sort. ½ oz., 12c; oz., 20c; ¼ lb., 65c; lb., $2.25.

New Globe. An entirely new shaped tomato, the majority of the fruits being elongated in shape. Exceedingly productive, ripening early and bearing large sized fruits throughout the season. Color, rose tinged with purple. The popularity of this variety has increased wonderfully since introduction. There is no Market Gardener but should give it a thorough trial. Excellent also for greenhouse use. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Ponderosa. The largest fruited of all Tomatoes. Purple color. Very solid and almost seedless. Fine for slicing and of excellent flavor. Should be picked when not quite ripe, as the inside ripens first. Our seed is a big improvement upon the original variety. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Dwarf Champion. The most popular of the dwarf varieties. By continual selection we have bred this variety so that the fruits run larger and the bearing season longer. To do well, must have very rich soil. Color a beautiful glossy purple, skin always smooth. ½ oz., 12c; oz., 20c; ¼ lb., 65c; lb., $2.25.

Vaughan's Tall Champion. Of the "Acme" color. A wonderfully prolific bearer of medium sized fruits, always smooth under the most adverse conditions. For a market gardener who has a wagon trade there is no better sort. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Magnus. For a market variety for staking in the field this sort has no equal. Large fruits, set as early as the Acme, and bears about 20 per cent more fruit under equal conditions. Fruit smooth and almost globe shaped. Leaves and vine distinct. ½ oz., 12c; oz., 20c; ¼ lb., 60c; lb., $2.00.

BONE MEAL. ***Vaughan's Rose Grower.***

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent.; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

PRICE: F. O. B. Chicago. 5 lbs., 25c; 10 lbs., 50c; 25 lbs., 75c; 50 lbs., $1.25; 100 lbs , $2.25; 200 lbs., $3.90; 500 lbs., $9.00; 1,000 lbs., $16.75; 2,000 lbs., $33 00.

BONE SHAVINGS.

This is a very choice article, the refuse of the best hard white bone from a knife handle factory. It is lasting and especially recommended for use in palm soil and on other plants which are not shifted very often, and where a continuous and lasting supply of plant food is required. Price: 5 lbs., 25c; 10 lbs., 45c; 25 lbs., 90c; 100 lbs., $3.00.

BONE, BLOOD AND POTASH.

This is our best brand of concentrated manure; excellent for mixing into potting soil or as a top dressing. It is a **money-maker.** For potting soil use about 20 lbs to the cubic yard of soil, and for the dressing scatter it about as thick as lawn grass is sown, after loosening the surface of the soil. It is excellent for carnations if applied by the end of October or in November. It can also be applied as a liquid manure by using an 8-inch potful to a barrel of water. F. O. B. Chicago. Price: 25 lbs., 70c; 50 lbs., $1.25; 100 lbs., $2.40; 200 lbs., $4.60. Add 50c. per 100 lbs. if shipped from New York.

CLAY'S FERTILIZER.

This valuable imported manure is especially recommended: 7 lbs., 75c; 14 lbs., $1.25; 28 lbs., $2.00; 56 lbs., $3.50; 112 lbs., $6.00. If shipped from New York, $5.50.

CATTLE MANURE, SHREDDED.

An efficient, high grade natural fertilizer for all general purposes, manufactured by special process from selected fresh cleanings from cattle pens.

For making mulch or bed and potting soil shredded cattle manure is the best and safest material obtainable.

Florists and Greenhouse men use large quantities for this purpose because there is no danger of making the soil too hot or burning young plants and seedlings.

In making Manure water it is fully three to four times as strong as rough Manure. The advantages of its even quality and the easy and unobjectional way of handling the Manure, not a pound being wasted, makes it cheaper than the rough Manure which often can be had for simply the cost of freight and loading.

PRICE: F. O. B. Chicago. 100 lbs., $1.20; 500 lbs., $5.00; 1,000 lbs., $8.00; ton, $14.00.

FERTILIZERS.—Continued.

SPRAYERS.

The Fountain. One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Price: Galvanized Tank, $5.50; Brass Tank, $7.00.

The Brandt. A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling. Price: Galvanized Steel Tank, $5.00.

Auto Spray. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, $4.50; with Auto Pop, $5.50; solid copper reservoir, $6.00; with Auto Pop, $7.00. Brass Extension Rod, in 2-foot lengths, each, 35c; Galvanized Extension Rod, in 2-foot lengths, 25c.

The No. 6 "Iron Age" Combined Double Wheel Hoe, Hill and Drill Seeder.

This tool is without question the most practical and complete combined garden tool ever offered the public—the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. The wheel is made of steel, 18 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. It places the seed in drills or in hills as at 4, 6, 8, 12 or 24 in. apart. Complete as in cut. **Price, $12.00.**

PRICE COMPLETE $12.00

No. 15 "Iron Age" Combined Single Wheel Hoe, Hill and Drill Seeder.

Combined in this tool is the best Hill and Drill Seeder and Single Wheel Hoe ever offered the public. Changed from one form to another almost instantly, completely filling every desire both as to method of handling seed and soil. It places the seed in hills or drills. **Price, $11.00.** As a Hill and Drill Seeder only (No. 16), **$8.50.**

No. 1 "Iron Age" Double and Single Wheel Hoe.

Wheel Hoe form of the No. 6 opposite. One great advantage which this double Wheel Hoe possesses is, that it can be made into a practical Single Wheel Hoe in a moment's time. As a double wheel it may be used astride the row and thus cultivate both sides of the row at the same time. The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe, coupled to malleable castings, gives great strength together with lightness. Price, complete, **$7.00.** A Seed Drill attachment may be applied for sowing in rows only, or sowing both in rows and hills, **$4.00** and **$5.00** respectively. LILIUM LONGIFLORUM, Japan Grown

Our Japan growers are instructed to avoid early digging and give us only ripened bulbs, such as should, with reasonable care, give good results when forced under glass. While we cannot make any guarantee as to the result of forcing Lily Bulbs, our Japan growers understand this stock as well as any exporters from that country.

GIGANTEUM, Dark Stem

This variety has proven for the past three seasons to be the best of all-round Lily of the Japanese sorts for Easter forcing. A strong, robust grower, it seems to resist the Lily disease, growers seldom losing over 10 per cent. The large, long trumpet flowers are equally good for pot plant or for cut; has been successfully forced for earliest Easter, and if grown properly we see no reason why it cannot be forced for early Easter of 1910.

PRICES:	6 to 8 inch (400 to case)	Per 100, $ 4 00	Per 1000, $35 00
	7 to 9 inch (300 to case)	Per 100, 6 50	Per 1000, 60 00
	9 to 10 inch (200 to case)	Per 100, 10 00	Per 1000, 90 00

MULTIFLORUM TYPE

While this variety has not given perfect satisfaction the past two seasons, through mixture of type and disease, many florists prefer it for Easter forcing. We believe the decreased demand will allow our growers to be more careful in rogueing their fields, and bulbs delivered this fall will be truer to type than those delivered in previous years.

LILIUM HARRISII, Indispensable for Early Forcing

While we do not claim that our "Harrisii" are absolutely free from disease, or that every bulb will produce a perfect plant, we do claim that our growers' efforts, in the way of spraying and rogueing, are producing results, our stock being now freer from disease than ever before, and of genuine "Harrisii" type. In fact, the best general crop grown on the Island of Bermuda.

NARCISSUS PAPER WHITE GRANDIFLORA.

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star Brand" is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading "Fancy" is a selected grade from the general stock.

GLADIOLUS, *FOR WINTER FORCING.*

The varieties mentioned below are invaluable for forcing. They are of a dwarf habit and can be cultivated the same as Hyacinths.

NEW PINK SPIRAEA—QUEEN ALEXANDRA.

We are very careful to import Spiraea clumps which have large, plump eyes, as these are the only kind that will give satisfaction when forced.

NEW PINK SPIRAEA, QUEEN ALEXANDRA.

GLADSTONE.—Without question one of the choicest Spiraeas in the market and "up-to-date" Florists cannot afford to be without it. **Per doz., $1.40; 100, $9.50. In New York, doz., $1.25; 100, $9.00.**

VAUGHAN'S FERNS

Boston Ferns

Nephrolepis xaltata Bostoniensis

We have five houses full of this most popular Fern in all sizes from 2½-inch to 12-inch pots. All our plants are pot-grown, bushy stock; well furnished with fronds from the pot up, and cannot be compared with the cheap long-drawn-up lifted stock from the bench.

These popular **Nephrolepis Ferns** (Bostoniensis and Whitmani) have proved the best decorative plant of recent introduction. They are all rapid growers, work up fast and are good sellers. Every florist should grow these ferns. We have the finest stock in the West.

Nephrolepis Whitmani

The Ostrich Plume Fern

In this we have unquestionably the most valuable Nephrolepis of the Ostrich Plume type yet introduced. Not only is it of dwarfer and more compact habit than the N. Elegantissima, but the pinnae being more deeply divided give the plant a much more graceful appearance, while another important point in its favor is the fact very few fronds have ever reverted to the common Boston Fern.

TESTIMONIAL.

"You sent me the finest Ostrich Plume Ferns last year that were ever seen in this section. Would be glad to get them again."
ABNER MILLER, Fennville, Mich.

Nephrolepis Elegantissima Compacta

A dwarf form of N. Elegantissima, making dense, bushy compact growth of ideal habit and shape. The fronds are considerably shorter than N. Elegantissima, while many more crowns are thrown, forming a round, symmetrical, compact mass of foliage that places it in as distinct a class as N. Scottii is with N. Bostoniensis.

We are sure that N. Elegantissima Compacta will find great favor as a commercial fern, for we consider it one of the most valuable ferns, all things considered, that we have ever sent out.

Strong plants from 2¼ in. pots. **Each, 50c; $5.00 per doz.; $35.00 per 100.**

NEW NEPHROLEPIS SUPERBISSIMA

The fronds are very heavily imbricated, the pinnae overlapping, making the fronds very dense and compact. In color also it is different, being of a richer, darker green. The plant is very sturdy in its habit, the fronds never breaking down. It makes a much more dwarf and compact growth, the fronds being very dense, firm and rigid, it will stand more knocking around than any other fern of its type.

NEPHROLEPIS SCHOLZELI—The Crested Scotti

This ideal crested Fern holds the same position to all other crested varieties that Scotti holds to Boston. A sport from Scotti possessing all its merits. The pinnae are sub-divided, giving it a neat crested appearance. The fronds, like on Scotti, stand erect with a graceful arch, forming a plant of ideal shape. Easy to grow, will prove profitable to the grower and give satisfaction to your customer.

Plants from 2½-in. pots. **Each, 35c; per doz., $3.50; per 100, $25.00.** Orders filled in succession.

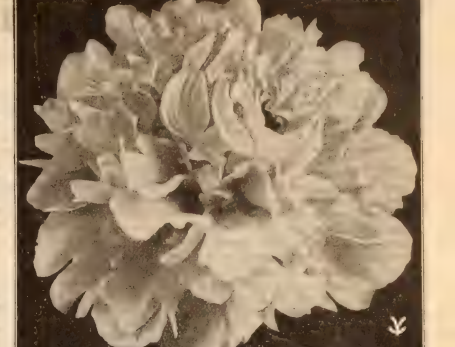
PEONIES



We have over 30,000 peonies growing in our nursery which have been trued-up with the greatest care and our list comprises most of the best sorts either for cut flowers or landscape work.

Divided Roots are of our division from trued-up plants and have from 3 to 5 eyes.

One Year from Division roots were divided last year (in a number of cases we furnish roots that are two years from division) and were planted out and have therefore a much better root system than Divided Roots and will bring better blooms earlier.

September is by all means the best time to plant peonies, they will be much surer to bloom and will produce better flowers than if planted later.

Boulogne Giant. This is a special selection of a French Pansy grower; the flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. Emperor Francis Joseph. The plants are of compact habit while the flowers are of very large size, pure white with a large blotch of brilliant violet blue on each petals. It is the best White Pansy in existence. **Trade pkt., 25c.; ⅛ oz., $2.00.**

Orchid-Flowered. The ground color of nearly all the flowers is light, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins towards the edge. VAUGHAN'S "ELITE PANSIES."

This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors. It is comprised of the cream of four Pansy specialist's choicest and most expensive mixtures. **Trade pkt., 50c.; ⅛ oz., $1.00.**

VAUGHAN'S PREMIUM PANSIES MIXED.

Embraces all the varieties of the Fancy German Sorts. We have sold this mixture for the past seventeen years, and it has given general satisfaction. **Per pkt., 25c; ⅛ oz., 75c.; ¼ oz., $2.50; oz., $8.00.**

IMPROVED GERMAN MIXTURE.

This is a mixture of three strains from different German growers, and is made up mostly of separate colors, with a sufficiently large percentage of white and yellow. **Per large pkt., 10c.; ⅛ oz., 20c ; ¼ oz., 30c.; oz., $1.00.**

VAUGHAN'S CUT FLOWER MIXTURE.

This mixture is put up by ourselves and contains mostly light colored sorts. We have sold this mixture for several seasons to some of our Chicago cut flower growers who have realized big returns from the sale of the flowers. Pansies are as easily grown as violets, require less care and bring better returns. **Trade Pkt., 50c.; ⅛ oz., $1.00; ¼ oz., $2.00; oz., $8.00.**

NOTHING BETTER.

VAUGHAN'S INTERNATIONAL PANSIES.

THE WORLD'S BEST.

Vaughan's International Pansy Mixture was first prepared and offered by us in 1889. We import from all the best European sources, and personally inspected the fields of French and German specialists of their finest strains. These with the best American types made up the collection. Each year has added to the quality of its flowers the variety of its colors. We buy every year novelties of known merit to improve the mixture. This is the reason it is always complete, always the latest and always the best mixture ***as we believe.*** We add to all the Pansy Mixtures which we now buy more than fifty per cent of the choicest named kinds obtainable, each in rightful proportion. We thus know what it will produce. This is one of the ***specialties*** which has established and held the reputation of Vaughan's Flower Seeds, and this is one which we maintain most carefully, not alone as to quality, but in vitality and germination. You are beginning right in Pansy growing when you start with Vaughan's International Mixture. **Trade pkt., 50c; ⅛ oz., $1.50; ½ oz., $5.00; oz., $10.00.**

BONE MEAL. ***Vaughan's Rose Grower.***

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent.; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

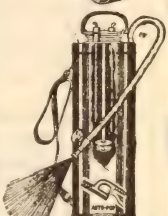
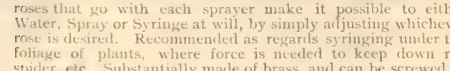
SPRAYERS.

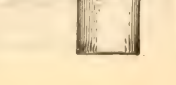


Success Spray Pump. Excellent for use in gardens, greenhouses and orchards; also for whitewashing and spraying poultry houses; fitted with a Bordeaux nozzle, and can be changed from a solid stream to a spray. It is double action and has a large air chamber, which throws an absolutely continuous stream, solid or in fine spray. We consider it one of the best pumps made for the money.



Price, complete **$4.50**

The Brandt. A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling. Price: Galvanized Steel Tank, $5.00.



Auto Spray. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, $4 50; with Auto Pop, $5.50; solid copper reservoir, $6.00; with Auto Pop, $7.00. Brass Extension Rod, in 2-foot lengths, each, 35c; Galvanized Extension Rod, in 2-foot lengths, 25c.

Ferguson's Combination Sprayer and Syringe. 3 Roses. Made of Brass. The only practical GREENHOUSE COMBINATION SPRAYER AND SYRINGE on the market. The three different roses that go with each sprayer make it possible to either Water, Spray or Syringe at will, by simply adjusting whichever rose is desired. Recommended as regards syringing under the foliage of plants, where force is needed to keep down red spider, etc. Substantially made of brass, and can be screwed on the end of any hose, same as an ordinary nozzle. **Each, $3.50.**

PNEUMATIC SPRAYER. A compressed air hand sprayer, the only one on the market we know of. This enables the operator to spray with one-half the labor the ordinary sprayer requires. Will throw a fine mist, and can be used with advantage in applying insecticides, etc. One-quart size, Galvanized Tank, **Each, $1.00.** Brass Tank, **Each, $1.75.**

VAUGHAN'S CANNAS

Our Canna fields at Western Springs when in bloom in August and September make a grand showing. They attract thousands of visitors, both professional and amateurs. We grow all of the standard kinds, many of the novelties, and discard the inferior ones every year as the improved merits of the newer ones are proven. We have won highest awards at four great expositions, Chicago, Omaha, Buffalo and St. Louis. The Grand Prize, one of the seven, only awarded to American exhibitors in horticulture, was awarded to us at St. Louis.

KING HUMBERT

King Humbert

The Best of all Cannas

Theres is no other **Best Canna** today. None can compare with it. This remarkable "Gold Medal" Canna has been the sensation of the past five years. Of all the wonderful flowering and foliage plants introduced, this one takes the lead for size, color and habit. It is a cross between the Orchid flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free-blooming character of the other; the handsome leathery foliage with a strong noble habit. 4½ feet in height.

Its giant flowers, orange scarlet in color, the very broad, rubber-like, bronze leaves, altogether make up a plant so distinctly in advance of any other Canna that the demand for and use of it must be universal.

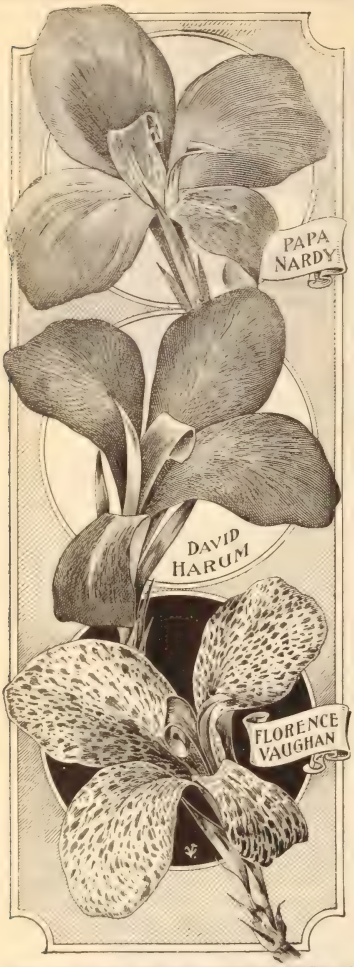
One Each of the 16 Novelty Cannas and King Humbert for $8.00.

The immense growth of our Canna Business during the last few years has been so great that we have put up a winter storage house with a capacity of 150,000 Clumps, thus enabling us to keep the roots in best condition, and we hope during 1910 to send out better plants than ever before. Cannas should be planted in good, rich garden soil, mixed with half of old, rotten stable manure. Water sparingly for first two weeks after planting. When growing freely, water liberally. Set the plants 18 inches apart each way, and if more than one kind is to be used, be careful to plant the taller growing kinds in the center and the dwarf ones along the edge. This applies to planting in beds.



We Recommend the following as most desirable for beds of solid colors:

DAVID HARUM. Bronze leaved, 4 ft.
EGANDALE. Bronze leaved, 3½ to 4 ft.
FLORENCE VAUGHAN. Green leaved, 4½ ft.
PAPA NARDY. Green leaved, 5 ft.

VAUGHAN S GIANT FLOWERED CYCLAMEN

VAUGHAN'S BEST BEDDING CANNAS

Our Experience with Cannas For over 20 years we have made the culture of Cannas one of our main specialties. We grew last year in our place at Western Springs **over 10 acres** of standard sorts and novelties, besides 1,000 seedlings. We ought to know something about Cannas. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a **new name only.** We also know, and had to pay dearly for the knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas, as long as the color is somewhere near correct. To them **any** red is a Chicago, **any** yellow a Florence Vaughan, etc. **Our Cannas are true to name,** and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, evenness of height and size of flowers

We guarantee all cuttings to be well rooted and satisfactory, as carefully selected as when sent from the introducers themselves. They guarantee ours to be their A1 stock. If any are not so, advise us **at once, and** we will make them right; but **late claims** cannot be allowed.

ADMIRATION. Flowers are a beautiful shade of pure light pink, much darker than Enchantress, which have a wonderful satin finish that shows up well. Flower 3 to 3½ inches, excellent form, habit is good every shoot going into flower. Its freedom and earliness make it one of the best Carnations yet introduced on account of its easy cultivation.

CONQUEST. Color light pink, overlaid almost to the edge with deep rose pink, size of flower 3 to 4 inches, stem stiff and long. Blooms early and free and does not split. Habit is strong and clean, growth quick and resembling Mrs. Lawson.

MARY TOLMAN. Color deep flesh pink, deeper than Enchantress, does not fade in bright weather. Flowers 3 to 3½ inches, stem 24 to 30 inches, inclined to be very rigid. Keeping qualities are the best, a very good shipper, a strong grower, free from disease, calyx good, one of the best introductions.

SANGAMO. Color brilliant glittering pink, flower is very symmetrical, Calyx is very strong and never bursts. Stem extra long, strong and stiff, holding the flower erect. Exceedingly prolific producing a fine bloom in remarkably short time. Habit is healthy, robust and not subject to stem-rot or other disease.

SCARLET GLOW. A color that never becomes dull, an exceptional bright scarlet. A perfect, well rounded bloom. Growth much on the order of Beacon, makes large, well shaped plants with a long narrow leaf, stems long, straight and stiff.

SHASTA. Glistening white in color, never showing any trace of pink or other color. Bloom well formed. Calyx good and never splits, growth strong and upright, makes no surplus foliage, although it breaks freely when topped.

These six new Carnations, doz $2.00, per 100 $12.00, per 1000 $100.00.

CHRYSANTHEMUMS

NEW VARIETIES FOR 1910 *Delivery April 15th, Orders Booked Now*

Prices, except noted: Each 50c, 3 for $1.35, per doz $5.00.

Mrs. H. Stevens. Golden salmon bronze. This is a magnificent variety and will be very popular as a show flower. Size is enormous, stem and foliage perfect. Any bud after August 15th will produce a perfect flower.

Mrs. Wm. Wincott. A fine early pink. Every bud comes perfect and as a commercial pink ranks high. By its behavior with us it certainly will make a place for itself.

Naomah. Large Japanese incurved, a seedling from Merza, more conical in form than its parent. This variety was not judged by C. S. A. Committee, but we have decided to send it out on its merits as a worthy addition to the exhibition section. If the stem were a little more rigid this would be an ideal commercial sort as it possesses every other qualification and may prove very acceptable to those who plant early and give generous treatment. **Each 75c, 3 for $2.00, doz $7.25.**

Oroba. A large early white in the way of Beatrice May being of the easiest culture with fine stem and foliage. It may not excel Beatrice May in size but its other splendid characteristics are so much superior that it will soon gain ascendency with the commercial grower.

Randee. A large ball shaped Japanese belonging to the exhibition section. The early buds come pure white and the later ones are shaded pink. Petals toothed at the extremities and rather irregular in their arrangement. 3½ ft. heavy stem and foliage. **Each 75c, 3 for $2.00, doz $7.25.**

R. F. Felton. The deepest possible shade of yellow. The flower is medium in size, stem and foliage perfect, the latter being carried right up to the flower and the flower itself never damps a petal under any conditions, whatsoever. It is even deeper in color than the popular Mary Donnellan. It will unquestionably make its mark as a commercial yellow as well as an exhibition flower. Every grower should try this sterling variety.

Well's Late Pink. One of the finest things sent out in many years; flower is extra large, stem and foliage absolutely perfect. Exhibition and commercial growers alike will find this a splendid flower.

W. Mease. Bright rosy red, one of the very largest in size and a very valuable exhibition variety. This is a much better colored variety than Mary Mason, and should supersede that sort as a show flower. It is a dwarf, handsome grower and carries the foliage well up to the flower.

NOVELTY, SET, one each of above 8 sorts for $4.00 ready April 15.

VAUGHAN'S GLADIOLUS

Our stores at Chicago and New York have taken a front rank in the last few years in growing and wholesaling the Gladioli.

We have introduced two remarkable kinds in recent years—Princeps, the $1.000 wonder, and Mrs. Francis King, the remarkable cut flower sort.

We have become headquarters for all the best selections in quantities, and florists are planting our named early flowering types in five to ten thousand lots.

You will make no mistake in buying all Gladiolus bulbs at our stores.

AMERICA

The finest pink Gladiolus yet introduced, being especially valuable to florists, both for sale as a cut flower or use in design work; of strong healthy growth, spikes average from 2 to 3 feet long, individual flowers are large open and spreading, all facing one way, color being a delicate lavender pink, might be called a tinted white. An easy forcer and a money maker for the florist. **Per dozen $0.50, 100 $3.50, per 1000 $30.00.**

AUGUSTA

The best "Florist's" White Gladiolus should be planted liberally by all. Strong healthy long spikes of flower, color being pure white with blue anthers. We are headquarters on this variety, having a splendid stock of large healthy bulbs. **Per dozen, $0.35; per 100, $1.75; per 1000, $15.00.**

BARON J. HULOT. Dark velvety purple flower of the Lemoine type, tall and slender, flowers thickly set on spike. Best blue we have seen. **Per doz $1.30, per 100 $10.00.**

MRS. FRANCIS KING, introduced in 1906, and everybody who has seen it growing or exhibited, tells us that we have not sounded its praise loudly enough, and that it will surely take a place in the first class for vigor of growth and brilliancy in bloom. Its color is light scarlet of a very pleasing shade, which attracts attention at once. The flowers, measuring 4 to 5 inches, are borne on long stems and 4 to 6 are open on the spike at one time. Scarce. **Per dozen $0.50, per 100 $3.00.**

PRINCEPS. The "King of all Gladiolus," popular beyond every other variety, both in this country and throughout Europe. It has made a class for itself, and you do not have the best of all until you buy it.

Individual flowers are 5½ inches in diameter and sometimes one inch larger, color being a brilliant scarlet crimson with three broad white blotches on the lower petals. Very scarce. **Each, $0.18; per dozen, $1.75; per 100, $12.00.**

SILVRETTA. Creamy white with carmine blotches on lower petals, spike strong and tall. Blooms later than most sorts. **Each 8c, per doz 75c, per 100 $5.00.**

NEW GIANT PANSIES

ANDROMEDA. New Giant Curled. Color a very delicate apple-blossom generally showing a soft lavender hue, rendered more effective by a somewhat darker veining. **Trade pkt 25c.**

AUREOLA. A most unique sort. The three lower petals are carmine, each with a large round blotch, the upper petals are white, with a broad carmine stripe near the edge. **Trade pkt 25c.**

BOULOGNE GIANT. This is a special selection of a French Pansy grower; the flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. They are mostly 3 and 5 blotched, delicately veined, while the colors are rich and varied. Like all high-class Pansies they are shy seed bearers. **Trade pkt 50c.**

BRIDESMAID. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty the finest Apple-blossom, and most strikingly sets off the dark blotches of the center. **Trade pkt 25c, ¼ oz 80c, oz $3.00.**

EMPEROR FRANCIS JOSEPH. The plants are of compact habit while the flowers are of very large size, pure white with a large blotch of brilliant violet blue on each petal. It is the best White Pansy in existence. **Trade pkt 25c, ⅛ oz $2.00.**

MARECHAL NIEL. The flowers are very large, without any blotches or veins and are of the same pleasing, delicate cream color as the rose whose name it bears. **Trade pkt 25c.**

MAUVE QUEEN. Of largest size, the flowers are of almost pleasing mauve color. The three lower petals have large blotches of blush carmine. **Trade pkt 25c, ¼ oz 50c.**

ORCHID-FLOWERED. A most interesting type of the Pansies of the Giant-Flowered Class, containing a mixture of most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is light, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins towards the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt 25c, ¼ oz 75c, oz $3.00.**

ROSY MORN. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wide. **Trade pkt 25c, ⅛ oz $1.00.**

SIEGFRIED. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flower. **Trade pkt 25c, ⅛ oz 75c.**

GIANT VOLCANO. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt 25c, ⅛ oz 50c.**

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt 35c, ⅛ oz 60c, ¼ oz $1.00, oz $4.00.**

BONVALLET'S GIANT ASPARAGUS
(For Results)

33 Years

Experience in Supplying the Needs of Market Gardeners and Florists.

Thirty-five years ago our Mr. J. C. Vaughan commenced the sale of seeds for Market Gardeners and Florists in and about Chicago; first located on the 5th floor of the Ashland Block, 123 Randolph Street, then at 45 La Salle Street, later occupying the entire building at 42 La Salle Street in 1881. About this time owing to the growth of the market garden trade he opened a branch store for their convenience on the well-known West Randolph Street market at No. 159. With the growth of this business it soon became necessary to remove the entire wholesale business to the large double building at 146-148 W. Washington Street.

In 1895 our warehouse and market garden business was located at the southwest corner of Randolph and Halsted Streets, and our new store at the above location is shown on these pages. Our main seed store for retail wants was located at 84-86 Randolph Street about the same time.

During the past few years we have increased our facilities in our different departments in many ways. Our nursery and greenhouse department and trial grounds at Western Springs have been greatly enlarged by more buildings and added purchases of land. Our New York Store, on account of growing trade and limited room, moved into new and more commodious quarters with an added storage building.

The rule of our house in our dealings with our market gardener friends has been to tell exact facts as they are known to us concerning the seeds which we are selling to them, and we believe no gardener has yet found a label of a western grower in seeds which we have sold him as eastern grown. It is this dependable record of dealings with market gardeners and florists that has gained and held for Vaughan's Seed Store that class of trade.

For small beets for early market it has no equal. It reaches marketable shape earlier than any other sorts, and has good-sized tops, so that bunching is easy.

CABBAGE

VAUGHAN'S SURE HEADING SEED

VAUGHAN'S SELECT EARLY JERSEY WAKEFIELD.

Vaughan's Selected Early Jersey Wakefield. By far the best early Cabbage in cultivation. It forms fine, solid heads of good size, pointed shape, with few outer leaves. We offer an extra fine strain of this variety. Seed is grown from selected hard heads. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 70c.; lb., $2.50.**

Large Jersey or Charleston Wakefield. This is a larger heading sort than the Early Jersey Wakefield and matures a few days later. It is a great favorite with Southern planters as the larger heads demand better prices on the early market. Re-selected seed. **Oz., 25c.; 2 oz., 45c.; ¼ lb., 70c.; lb., $2.50.**

EARLY ALLHEAD OR FAULTLESS.

Early Allhead or Faultless. This is the most popular Early Flat Head Cabbage. A sure-to-head sort with heads uniform in shape, large in size and of remarkable quality. Add to these points its earliness, and all things considered, it is the best One variety of Cabbage. The outer leaves are few, permitting close planting, thus growing more cabbages to the acre than loose outer-leaved sorts.

Oz., 20c.; 2 oz., 35c.; ¼ lb., 50c.; lb., $2.00.

Danish Ballhead. Our strain of this Cabbage is grown in Denmark by the most reliable grower there. It is the best late Cabbage for late Spring sales and for shipping. Long stem, medium sized head, extremely solid and long keeping. **Oz., 30c; 2 oz., 50c; ¼ lb., 90c; lb., $3.50.**

Dutch Winter or Hollander. This is the Cabbage most universally grown through the Wisconsin, Michigan, Illinois and Indiana cabbage districts. The heads are not large, are very solid, being just the right shape and size which the consuming trade demands. Our seed has had great success in all these districts and cannot be surpassed. Short stem. **Oz., 30c; 2 oz., 50c; ¼ lb., 90c; lb., $3.50.**

Dwarf Amager or Short Stemmed Danish Ballhead. A variety very similar to the Dutch Winter or Hollander. The seed, however, we imported direct from Amager Island, Denmark. **Oz., 30c; 2 oz., 55c; ¼ lb., 90c; lb., $3.50.**

Danish and Holland grown seed is extremely scarce this year. Gardeners should order their supply early.

DUTCH WINTER or HOLLANDER CABBAGE.

TWO VALUABLE NEW VARIETIES.

Glory of Enkhousen. A round-headed, very solid, fine ribbed, best quality early cabbage. We think this about the hardest heading, long keeping, early sort. Live gardeners should give it a trial. **Oz., 30c.; 2 oz., 55c.; ¼ lb., 90c; lb., $3.50.**

Danish Summer Ballhead. This is the Danish Ballhead of early cabbages. It closely resembles the Winter Ballhead, except that it is smaller and may be brought in with the very early flat head sorts. There is a trace of curliness on its outer leaves and a delicate flavor that suggests Savoy blood. Our market gardeners who have tried this are very enthusiastic. **½ oz., 15c.; oz., 30c.; 2 oz., 55c.; ¼ lb., 90c; lb., $3.50.**

EARLY CHANTENAY.

VAUGHAN'S SELECT DANVERS.

CARROTS

FOUR POUNDS TO THE ACRE

Our Carrot Seed is raised by experienced and careful growers who know the importance of selection and isolation and practice it. Our seed is clean, pure and true to name and should satisfy any market gardener, no matter how critical.

Early Chantenay — The Best Bunching Carrot.

This is the best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about six inches long, are stump rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seed is most carefully selected. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $2.75.**

GUERANDE, OR OXHEART

A thick Carrot, 5 inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of good flavor and of a deep red color, and is a variety we can recommend to all market gardeners. **Oz., 10c.; ¼ lb., 20c.; lb., 60c.; 5 lbs., $2.75.**

Vaughan's Selected Danvers

The Best Carrot for every purpose — For over 20 years have we sold this selected stock, and we never have enough seed to supply the demand. All the gardeners in Chicago know it, and plant no other if they can get ours. It is the most uniform in existence, always of good color, a splendid yielder and of excellent flavor. It is one of the easiest Carrots to harvest, will yield more tons to the acre than any other. We are proud of being the owners and distributors of this Carrot. It is one of the specialties which has made Vaughan's Seeds synonymous with "Best Seeds." **The best strain of this famous sort**

CAULIFLOWER—VAUGHAN'S EARLIEST DWARF ERFURT

CAULIFLOWER

No seed is more important than this, as every gardener knows. It is one of the seeds in buying which price should never be questioned.

VAUGHAN'S EARLIEST DWARF ERFURT

Vaughan's Earliest Dwarf Erfurt combines all pedigree points—earliness, purity of color, dwarf habit, fine grain. This seed will produce cauliflowers worth the highest market price. It cannot be sold cheap for above reasons; but the shrewdest gardeners find it the most profitable. **Lb., $30.00; ¼ lb., $8.00; oz., $2.00; ¼ oz., 65c; Pkt., 25c.**

Danish Snowball — This is a grand second early. It is the result of long, careful selection, and uniformly produces even, regular heads. Through many seasons it has proved itself reliable, and gardeners can trust it every time. **Lb., $20.00; ¼ lb., $5.00; 2 oz., $2.75; oz., $1.50; ½ oz., 40c; Pkt., 10c.**

Dry Weather — For dry climates and dry seasons. Gardeners who planted this last year had much better crops than those planting other sorts. Danish grown seed from the introducer. **Pkt., 20c; ¼ oz., 60c; oz., $2.**

Extra Early or Second Erfurt — An Erfurt grown variety much like the Danish Snowball. **Lb., $20.00; ¼ lb., $5.00; oz., $1.50; ½ oz., 50c; pkt., 10c.**

Large Early Erfurt — A second crop sort. Larger than Extra Early Erfurt, a good sure header. **¼ oz., 40c; oz., 75c; ¼ lb., $2.50.**

THE seed of this strain was saved with the greatest care only from perfectly developed heads, which yield but little seed. Good Cauliflower seed is always high in price; cheap Cauliflower is a poor investment, because it cannot be good.

The best seed of this type of Cauliflower comes from Amager Island, near Copenhagen, Denmark. There the winters are mild, causing little loss from rot in the seed heads, and the cool, moist summers give ideal growing conditions for this vegetable.

Available ground is scarce and value high, so intensive culture is necessary.

Vaughan's Snowball is the result of years of careful selection by an experienced and most painstaking gardener, under these conditions.

Vaughan's New Snowball Cauliflower.

The best general purpose variety either for Spring or Fall planting.

Vaughan's New Snowball Cauliflower is a specialty of our house. It is on such particular seed as Cauliflower, in which the least variance from the true strain results in great injury to the grower, that a seed house builds up its reputation. We know our Cauliflower is the equal of anything that can be produced. In our trial ground tests we have tried nearly every strain of cauliflower offered on the market and, while we have found a few equals, we have never found a superior to Vaughan's Snowball. We pay more for our seed than probably does any large seed house in the United States just so that we can have it as near perfection as it is possible for man to grow it. High bred Cabbage and Cauliflower does not germinate as well as less carefully bred strains. Nevertheless we have taken such pains to reclean and re-sift our seeds after receiving them from the grower that our seed is always up to standard of growth. Head usually 9 to 10 inches across, perfectly white and very solid, deep and compact.

Vaughan's New Snowball Cauliflower is put up in packages as follows: Pkts., ¼ oz., ½ oz., 1 oz. and ¼ lb., sealed with our trade mark and with distinctive paper and printing.

Pkt., 25c; ¼ oz., 65c; ½ oz., $1.25; oz., $2.00; ¼ lb., $8.00; lb., $32.00.

WHITE PLUME, Vaughan's Selected Stock.

VAUGHAN'S CELERY MANUAL—Written by a practical grower of 20 years' experience. Revised and published by J. C. Vaughan. **Price, postpaid, 50c.** Will be sent free if requested with a Celery seed order of $3.00 or with any general order for other seeds amounting to $5.00.

White Plume, Self-Blanching—Vaughan's Selected Stock We have not yet found a Celery that is as early and of as good a flavor, as crisp and tender, as our selection of this sort. We sell large quantities of this seed to market gardeners, who find it **uniformly white and free from green or hollow stalks.** It is not a good keeper, but it is excellent for Fall and early Winter use. **½ oz., 12c; oz., 20c; 2 oz., 30c; ¼ lb., 50c; lb., $2.00.**

WHITE PLUME—Regular Stock. ½ oz., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.50.

Golden Self-Blanching—Vaughan's Selected Stock **This is the best Celery for early use.** The stalks are much broader and heavier than those of the **White Plume,** and greatly superior in quality. It is ready for use nearly as early, producing dwarfer and much larger bunches of broad, heavy stalks, blanching to a **deep golden yellow.** The handsome color, crispness, tenderness, freedom from stringiness and nutty flavor of this variety make it only necessary to be tried in order to establish it as the **standard of excellence as an early sort. ½ oz., 30c; oz., 50c; 2 oz., 85c; ¼ lb., $1.50; lb., $6.00.**

GOLDEN SELF-BLANCHING—Regular Stock. ½ oz., 15c; oz., 25c; 2 oz., 40c; ¼ lb., 70c; lb., $2.75.

"Winter Queen" This is without doubt the most valuable variety of Celery for Winter and Spring use. It is also much stouter, thicker and heavier, with **double the amount of heart of any known Celery.** The plant is of close habit and blanches to a beautiful cream white. Ribs perfectly solid, crisp and of a delicious nutty flavor. Grow Winter Queen once and you will always grow it. **½ oz., 12c; oz., 20c; ¼ lb., 50c; lb., $2.00.**

Vaughan's Giant Golden Heart **The best Celery for Winter storage.** Ever since we introduced this Celery it has gained in public favor and rightly so, for it is not only the best keeper, but **it is large, solid, as sweet as a walnut and of a beautiful golden color.** It is a selection from the Dwarf Golden Heart; grows much larger than its parent. **½ oz., 12c; oz., 20c; 2 oz., 30c; ¼ lb., 50c; lb., $2.00.**

SWEET CORN

Vaughan's Extra Selected.

THE FOUR BEST GARDEN VARIETIES.

Mammoth White Cory. One of the largest and best extra early varieties. Each stalk furnishes two or more large, fine shaped ears, ready days before other large sorts. The ears are twelve-rowed, very symmetrical and handsome, with no opening between the rows at the base. The grain is large, broad, very white, and of remarkably good quality for such an early sort. The size and beauty of this variety gives it ready sale even when the market is over-stocked. Our strain is early and large. **Qt., 25c; ½ peck, 60c; peck, $1.15; bu., $4.50.**

Improved Early Champion. The Earliest Large Sweet Corn. Produces ears 12 in. long in 60 days. This new variety is without question the earliest large Sweet Corn yet introduced, being only a few days later than the first early small sorts. Ears nearly as large as the Mammoth; 12 rowed; pure white kernels, with medium sized white cob; very sweet, tender and full of milk; yielding two and three ears to the stalk. The best kind for early and late planting. **Qt., 25c; ½ peck, 60c; peck, $1.15; bu., $4.50.**

Stowell's Evergreen. The most popular main crop Sweet Corn. Ears numerous, kernels large, deep, white and of fine flavor. A late sort. To supply the right seed of this favorite has been our effort for many years. Seed grown near the Eastern Atlantic Coast has always shown by its flavor and shriveled ripened kernels the highest percentage of sugar known. We offer both selected seed from Eastern grown stock and Western grown seed from original Eastern stock.

MUSK MELON

Netted Gem—Rocky Ford.—Selected Stock.

This seed is carefully grown, selected and saved at Rocky Ford under the care and supervision of one of the most careful shippers. It is well known that much seed offered as Rocky Ford stock has been saved by local growers from surplus or cull Melons by men who know nothing of the responsibility of the seed business. Careful planters should avoid this kind of stock.

VAUGHAN'S SELECTED STOCK—From best melons in field. **Oz., 15c; ¼ lb., 40c; lb., $1.50.**

ORDINARY STOCK—Seed from entire field planted only for seed. **Oz., 10c; ¼ lb., 20c; lb., 60c.**

Oval Gem. Our regular stock of this at the following prices is first-class, carefully selected seed, such as no gardener need hesitate to plant. **Oz., 10c; ¼ lb., 30c; lb., 80c.**

Round Gem. This is the true original type of Netted Gem originated in Philadelphia, but our grower has improved it by weeding out so far as possible the oval type. **Oz., 10c; ¼ lb., 25c; lb., 75c.**

The Osage Gem. Early as Netted Gem; same size and shape. Flesh, orange, solid and of best flavor. **Oz., 15c; ¼ lb., 40c; lb., $1.50; 5 lbs., $6.50.**

Rocky Ford Musk Melon.

VAUGHAN'S PAUL ROSE or PETOSKEY.

The best and most uniformly high quality table Melon introduced in ten years. "This is a cross of the Osage with the Netted Gem, and combines the sweetness of the former with the fine netting of the Gem. It has also the firmness of meat, salmon color, and cheesy structure peculiar to the Osage. In this respect it is superior to any Melon in existence, because of this thick, solid flesh, free from stringiness, which does not become watery or 'break down' in keeping, retaining its form twice as long as any other shipping Melon. **PRICE: Vaughan's Selected Seed, oz., 25c; 2 oz., 40c; ¼ lb., 75c; lb., $2.50.**

Vaughan's Regular Stock, oz., 10c; ¼ lb., 35c; lb., $1.25; 5 lbs., by express, $5.50.

VAUGHAN'S ORIGINAL OSAGE.

This famous Melon is our own introduction, and we take special pride in maintaining the quality and superiority of our stock. We pay many times the prices given ordinary seed growers to get our seed raised in the best locality and then selected from merchantable early Melons. Seed obtained from culls left in the field after marketing is over can be bought cheaply, but is high at any price. However, seed taken from early choice market melons must bring a high price, though really a hundred times cheaper than the other. Salmon flesh, high table quality; during the last season was the best Melon on the Chicago Market. Our strain is dark skinned, but moderately netted.

Vaughan's Selected Stock—Oz., 25c; 2 oz., 45c; ¼ lb., 75c; lb., $2.50.

Ordinary Seed—Entire field grown for seed, but seed not chosen from special melons. **oz., 15c; ¼ lb., 40c; lb., $1.35; 10 lbs., $12.50.**

Special Shipping Osage Slightly more netted than original type; especially selected for shipping. **Oz., 15c; ¼ lb., 50c; lb., $1.60.**

Raised From Vaughan's Special English Spawn.

FRENCH MUSHROOM SPAWN.

French Spawn is planted for the growing of button mushrooms. Ours is the very best to be had, being sown from selected mushrooms. Put up in boxes of 2 pounds each. **Price, per box, 75c; if by mail, $1.20. The same loose, per lb., 35c; if by mail, 45c; 10 lbs., $3.20.**

The essentials in Mushroom growing are: an even temperature, 55° to 60°, maintained day and night; well prepared beds with good manure; a moist atmosphere, where the air is dry beds lose their moisture quickly and must be watered. Water applied directly to a Mushroom bed always injures the crop.

MUSHROOMS

The last few years have shown a large increase in the amount of Mushrooms grown and still the prices are not only maintained, but increased. Vaughan's Seed Store has been most successful in supplying with satisfaction both the Imported English Spawn (Vaughan's Special)and Pure Culture Spawn to market growers. We make at least five importations yearly, so as to always have a fresh supply.

English Mushroom Spawn. Our Spawn is manufactured by the largest and most successful maker of Spawn in the world. He has made Spawn for some thirty years and has kept up on all the new methods of manufacture. Our Spawn is made by the famous tissue method from selected specimens. It has been found that English Spawn, as a rule, does not bear so quickly as the American pure culture, but it, however, lasts much longer in bearing.

English Mushroom Spawn. (VAUGHAN'S SPECIAL). **Price, per brick, 25c; 5 lbs., $1.00, postpaid. By express or freight, per brick, 15c; 2 for 25c; 8 bricks, $1.00; 25 lbs., $2.00; 100 lbs., $6.50; if shipped from New York, $6.00.** Special prices on ½ ton lots and upward.

Pure Culture "Garden City" Spawn. The best Spawn for beginners. The highest development in the art of Spawn making. This Spawn is made from tissue cultures from select specimens produced by Spore (seed) culture. The bricks are inoculated with tiny threads from a young specimen fruit, so that the special sorts or strains are produced, true to type. By this selection of varieties the inferior yielding kinds are avoided. We carry the Cream Brown or Bohemia variety, which has proven the best yielder. We can, however, supply the Pure White, Brown, Alaska or Columbia pure culture Spawn. **Price, per brick, 35c; 2 bricks for 60c, postpaid; by express or freight, 5 bricks for $1.00; 10 bricks, $1.75; 25 bricks, $3.50; 100 bricks, $12.00.**

COLE'S EARLY.

WATER MELON

Cole's Early. This is the Best Early Water Melon for the home market today. For sweetness and delicate texture of flesh it has no equal. The rind is thin but brittle, and therefore not suitable for shipping; for the home market we know of none better. Extreme earliness is its great merit. **Oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., $2.65.**

Early Fordhook. The first early shipping melon. Large for an early; skin, dark green; flesh, crisp and sweet. Rind thin, but with tough skin. **Oz., 10c; ¼ lb., 20c; lb., 65c.**

Vaughans's Black Diamond. A cross between Kolb's Gem and Hoosier King. Its prominent points of merit are its extreme size and productiveness. Melons weighing 75 to 90 pounds are frequent. It is the most prolific Water Melon. Its color is a rich, dark green, almost black. Of symmetrical shape, roundish to bluntly oval, a similarity of shape running through the whole field. **Oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., $2.50; 10 lbs., $4.50.**

Sweetheart. A standard shipping melon. Vine vigorous and productive. First fruits ripen early. The melons are large, uniform and heavy, mottled light and dark green. Rind is thin, but firm, and the flesh is firm and solid, yet tender and melting. **Oz., 10c; ¼ lb., 15c; lb., 50c.**

Improved Kolb's Gem. The best known shipping melon. The seed of this is saved from large, smooth melons of a darker mottled green than Kolb's Gem. The melons show a yellow blotch on the bottom. **Oz., 10c; ¼ lb., 15c; lb., 50c; 5 lbs., $2.00; 10 lbs., $3.50.**

Triumph. One of the largest and handsomest of the shipping melons. A great seller. **Oz., 10c; ¼ lb., 20c; lb., 50c.**

Alabama Sweets. A popular Southern shipping melon, especially in Texas. Dark green color, good size and fine flavor. Select seed. **Oz., 10c; ¼ lb., 25c; lb., $1.00.**

Kleckley's Sweet. A large oblong melon. A poor shipper, but without doubt the highest quality of all Water Melons. Skin dark green, flesh bright scarlet, ripening close to the skin. The large heart does not crack open when ripe. **Oz., 10c; ¼ lb., 25c; lb., 75c; 5 lbs., $3.25.**

True Ice Cream. The great Home Market Melon. It has too thin a rind for shipping unless packed in straw. Few, if any, surpass a True Ice Cream for quality and productiveness. **Oz., 10c; ¼ lb., 15c; lb., 50c.**

Winter Water Melon (Novelty). This Melon is early, earlier than Sweetheart and a very prolific bearer. The flesh is red, of extreme firmness; in fact, almost as hard as citron; very brittle and deliciously sweet. In color it is very light green, almost white. The firmness of the flesh causes it to be the longest keeper of the Water Melon family. **Price, ½ oz., 12c; oz., 20c; 2 oz., 35c; ¼ lb., 50c; lb., $1.50.**

Any of the following standard kinds at the uniform price of oz., 10c; ¼ lb., 15c; lb., 50c; 5 lbs., $2.25, except where noted.

VAUGHAN'S IDEAL WHITE GLOBE.

ONION SEED

VAUGHAN'S PEDIGREE.

Our strains of Globe Onions are right! We see to it that Seed Onions are selected with the greatest care, and none are planted except they are of the true type. Thin necks, globe shape and clear colors are what we aim for.

VAUGHAN'S IDEAL WHITE GLOBE.

This is the handsomest of all Onions. It is of the true globe form, pure white, hard, small necked, ripens very early and evenly and is a good keeper. We supply the largest market gardeners in Chicago and the west. No market gardener or Onion grower can afford to plant inferior stock, with only cheapness of price to recommend it, when seed like ours is to be had, the results of a few ounces often paying twice the first cost of the best seed.

PRICE: Eastern Grown, oz., 25c; ¼ lb., 85c; lb., $3.00; 5 lbs., $14.50; 10 lbs., $28.00.

PRICE: Western Seed, oz., 20c; ¼ lb., 70c; lb., $2.50; 5 lbs., $12.00; 10 lbs., $23.00.

SOUTHPORT YELLOW GLOBE.

Southport Yellow Globe. A main crop, late, large round Onion. It is sure to satisfy the one who buys a packet, or the one who sows 50 pounds for carload shipments. A truly grand Onion whose large, golden yellow spheres make a beautiful appearance, sacked or barreled for the market. Finest of all yellow Onions for keeping. Our Eastern strain of seed is from a grower of twenty-five years' experience, who makes a specialty of this variety. There is no better.

PRICE: Eastern Grown, oz., 20c; ¼ lb., 50c; lb., $1.60; 5 lbs., $7.75; 10 lbs., $15.00.

PRICE: Western Seed, oz., 15c; ¼ lb., 40c; lb., $1.40; 5 lbs., $6.75; 10 lbs., $12.50.

Southport Blood-Red Globe. Our Blood-red Globe has a beautiful red skin, and a better lot of seed cannot be found. The Onions are of immense size, very solid and firm—qualities which make them fine sellers and excellent keepers. Our market gardener customers regularly grow crops yielding 800 to 1,000 bushels from this seed. Our grower is an expert, who carefully selects this seed from large, fine colored, solid bulbs, well ripened and cured, and who rejects all thick necked ones.

PRICE: Eastern Grown, oz., 20c; ¼ lb., 50c; lb., $1.60; 5 lbs., $7.75; 10 lbs., $15.00.

PRICE: Western Seed, oz., 15c; ¼ lb., 40c; lb., $1.40; 5 lbs., $6.75; 10 lbs., $13.00.

OHIO YELLOW GLOBE—SHOWING EVENNESS OF TYPE.

Ohio Yellow Globe. (See illustration.) The best of all yellow Onions. Entirely distinct from the old type of Yellow Globe Danvers, being earlier, smaller necked, of perfect globe shape, uniform as to size and color and a greater cropper. Vaughan's Special Ohio Grown Seed of this type is an extra fine selection as to color, shape and yield of this already fine sort. Regarded by seed growers the superfine strain of Yellow Onion Seed. **Oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.50. By express, 5 lbs., $7.25; 10 lbs., $14.00.**

Ohio Red Globe. A very uniform Red Globe Onion, similar in shape to the Ohio Yellow Globe. Lake County Seed grown by the originator. **Oz., 15c; ¼ lb., 45c; lb., $1.60; 5 lbs., $7.75; 10 lbs., $15.00.**

Australian Brown Globe. A very early maturing variety. The bulbs are of good size, very solid and heavy. The keeping quality is excellent, one of the very best. The Onions are thin necked, and ripen evenly in all soils. **Oz., 15c; ¼ lb., 35c; lb., $1.40.**

White Bermuda. True Teneriffe Grown. Much planted in the South, especially in Texas. In the North the bulbs do not grow very large, but are of very mild, sweet flavor, and are the earliest of all. Called White, but really of a light straw color. **Oz., 15c; ¼ lb., 60c; lb., $2.25.**

Red Bermuda Teneriffe Seed. Similar to the above except in color. **Oz., 15c; ¼ lb., 60c; lb., $2.25.**

Crystal White Wax Teneriffe Seed. A pure white, large, early maturing, flat variety. Popular in the South like the White Bermuda. In the North, it is excellent for the home garden on account of the mild, sweet flavor. **Oz., 30c; ¼ lb., 90c; lb., $3.25.**

Prizetaker Onion. Vaughan's Selected Stock. The handsomest, largest yellow Globe Onion. A fair keeper, of finest flavor, handsome shape and enormous size, many single Onions weighing five pounds or more having been raised from seed the first year. It is of the same type as those immense imported Onions which can be seen in fruit stores, and always commands a very high price. The Prizetaker always grows to a perfect globe shape, with a bright straw colored skin; the necks are very small, and the Onions always ripen up hard. American grown. **Oz., 15c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25. 10 lbs., $14.00.**

Vaughan's Apple-Shaped Red Globe. This is the most perfect market type of Red Globe Onion. Ideal for enclosing the most bulk in the most compact shape. Its color is absolutely the darkest blood-red. Its size is equal to any of the largest types of Red Globe. Fifteen years ago this Onion was first planted in the West, under the name of Extra Early Red Globe. Since that time, grown on rich land, carefully selected for size, shape and color, it has been improved a little each year, until we believe it now the very best of its class. **Oz., 20c; ¼ lb., 45c; lb., $1.60; 5 lbs., $8.00.**

Mammoth Silver King. This mammoth variety is one of the largest in existence, averaging from 15 to 22 inches in circumference, often weighing from 2½ to 4 pounds each. It matures early, and is uniformly of large size and fine shape, being flattened but thick. The skin is a beautiful silver-white, flesh snowy, tender and of mild sweet flavor. Its striking size, handsome appearance and mild flavor recommend it to the fancy market. **Oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25.**

Different market and localities prefer different Onions. Globe Onions are generally the most popular and yield better than the other sorts. In certain portions of the country certain colors are in the highest favor. Vaughan's Ideal White Globe, Southport Blood Red, our special Ohio Globes and Apple Shaped Red Globe are ideals of their kind. Every bag of seed is tested as to vitality.

Vaughan's Pedigree Onion Seed

"Fancy" Yellow Globe Danvers. The shape is uniformly round; color, a fine brown, orange yellow. The entire crop ripens down at one time and winters well. No gardener can afford to experiment with doubtful seed. **Oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.40; 5 lbs., $6.75; 10 lbs., $13.00.**

Yellow Globe Danvers. This strain of Globe Danvers is equal to any usually sold, and may be relied upon as a first-class cropper. **Oz., 15c; ¼ lb., 35c; lb., $1.30; 5 lbs., $6.25; 10 lbs., $12.00.**

FLAT ONIONS AND SET SEED.

Large Red Wethersfield. This is the standard Red Variety and a favorite Onion in the East, where immense crops are grown for shipment. Large; skin, deep purplish red; form, round, somewhat flattened; flesh, purplish-white; moderately fine grained, and stronger flavored than any of the other kinds. Very productive, the best keeper and one of the most popular for general cultivation. It is more inclined to form large necks, if planted on unsuitable soil, than the Danvers, but it is the best variety on poor or dry soil. **Oz., 15c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25; 10 lbs., $14.00.**

Vaughan's Ox Blood Red Wethersfield. An extremely dark colored strain of Red Wethersfield. The darkest red onion in existence. Inclined to be necky on too rich soils. **Oz., 20c ¼ lb., 50c; lb., $1.75; 5 lbs., $8.25; 10 lbs., $15.50.**

Yellow Danvers. A fine, productive variety of medium size; skin coppery-yellow; flesh white, comparatively mild and well flavored. Excellent for yellow sets. **Oz., 15c; ¼ lb., 35c; lb., $1.25; 5 lbs., $6.00; 10 lbs., $11.50.**

White Portugal or Silverskin. A large, flat Onion of mild flavor and great beauty, its clear white skin glistening like silver. A favorite with many for use when young as a salad or bunching onion, and for pickles; it is also a good keeper and fine for fall and early winter use. An excellent sort for gardeners who do not plant more than one variety. **Oz., 20c; ¼ lb., 50c; lb., $1.90; 5 lbs., $9.25.**

Philadelphia Silverskin. Special strain of White Portugal. **Oz., 20c; ¼ lb., 60c; lb., $2.00; 5 lbs., $9.50.**

Early White Welsh Onion. For Green Onions. This kind does not form a bulb, but is one of the best kinds for "Green Onions." The plants are perennial and can remain in the ground for years. This is the sweetest of all Onions. **Oz., 25c; 2 oz., 40c; ¼ lb., 75c; lb., $2.00.**

ITALIAN ONION SEED.

Vaughan's Pickling. This is a uniformly early, small, round, hard, crisp, tender and very handsome variety, with an opaque white skin, which does not turn green upon exposure to the sun. **Oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25.**

White Queen. Remarkable for its earliness and very mild flavor; it is small and white skinned. Every family should sow an ounce or two for pickling in jars; a fine table relish. **Price, ½ oz., 8c; oz., 15c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25; 10 lbs., $13.50.**

White Barletta. It is a beautiful waxy-white color, much admired by housewives. **Price, same as that of White Queen**

THE VALUE OF NITRATE OF SODA.

Nitrate of Soda furnishes to young plants the most essential of all plant foods, nitrogen, in its most available (soluble) form. Applied when the plants are young, the effect is immediate and lasting, the result is an earlier and heavier crop. Its advantage over farm yard manure is that it acts much more quickly, for this reason for high priced early crops the use of Nitrate of Soda is essential for the best results. Try a crop, one portion with Nitrate of Soda and another portion without. Figure the difference in net results. Our customers who have once used it always come back the next season with an increased order. **Price, 5 lbs., 35c; 10 lbs., 60c; 25 lbs., $1.25; 100 lbs., $3.50; 500 lbs., $15.75, at Chicago or New York.** The market varies and prices are subject to change. Write for prices on larger quantities.

First and Best. Another strain of the extra early type, not so early as Maude S., but a slightly better yielder. Sold as Philadelphia Extra Early, Best Extra Early, Rural New Yorker, etc. **Quart, 25c; ½ peck, 75c; peck, $1.45; bushel, $5.75.**

GRADUS. The best extra Early Wrinkled Pea. Within three to five days in season of the Extra Early Poor Quality peas. We know this will give you satisfaction. **Quart, 30c; ½ peck, $1.00; peck, $2.00; bushel, $8.00.**

Surprise. The earliest of the winkled peas. Several days ahead of Gradus or any other wrinkled variety. Quality and productiveness good. An excellent variety for early trade which demands quality. Pods the size of Alaska or Maud S. **Quart, 25c; ½ peck, 85c; peck, $1.65; bushel, $6.50.**

PROFITABLE DWARF SORTS For Market Gardeners.

Nott's Excelsior. Very dwarf, 15 inches. Early, three days after Alaska. Sweet and a heavy bearer. Pods 3 inches long. The heaviest yielding, early dwarf pea. **Quart, 30c; ½ peck, 90c; peck, $1.70; bu., $6.75.**

McLean's Advancer. A very heavy yielding medium season variety. The pods are of good size and are always well filled. A very desirable variety where brushing of the tall varieties is impracticable. **Quart, 25c; ½ peck, 85c; peck, $1.65; bu., $6.50.**

Dwarf Telephone. Vaughan's Re-selected stock. See Novelties, page 4. The best large podded dwarf peas for the Market Garden. **Quart, 30c; ½ peck, 90c; peck, $1.75; bu., $7.00.**

Heroine. A very popular, large podded, late dwarf pea. Height, 2 feet. The vines are very prolific. Pods are well filled with peas of good flavor. **Quart, 25c; ½ peck, 85c; peck, $1.65; bu., $6.50.**

Improved Stratagem. A late extremely large podded high quality pea. The pea has high merit as a market garden variety. Its chief drawback has been the difficulty to get true stock. Our strain is the best we have seen and will give satisfaction to the most critical. **Quart, 30c; ½ peck, 95c; peck, $1.90; bu., $7.50.**

LATE OR MAIN CROP VARIETIES.

TWO DESIRABLE NEW VARIETIES.

Little Marvel. A new early dwarf wrinkled pea of similar season and habit to Nott's Excelsior and American Wonder. It is more prolific than either of the older sorts, and its pods are dark instead of light green. **Quart, 35c; ½ peck, $1.25; peck, $2.50; bu., $10.00.**

Witham Wonder. A second early, very heavy cropping dwarf sort. The peas are remarkably sweet. Pods of medium size. Where quantity and quality count this variety will be well liked **½ peck, $1.00; peck, $2.00; bu., $8.00.**

GRADUS.

CHAMPION MOSS CURLED PARSLEY.

PARSLEY

The Champion: is a prize-winning English variety, in appearance like a tuft of finely curled moss, and of a rich deep green color. It is slow to run to seed and very hardy; of easiest growth, a few seeds sown in onion rows use no space. Grows in window boxes. **Lb., 50c; ¼ lb., 20c; oz., 10c.**

Double Curled. Lb., 40c; ¼ lb., 15c; oz., 5c.

Fern-Leaved. Lb., 65c; ¼ lb., 20c; oz., 10c.

Plain. Lb., 40c; ¼ lb., 15c; oz., 5c.

MARKET GARDENERS' STRAINS

Hamburg Rooted or German Parsley. The root resembles a small parsnip and is the edible part of this sort; extensively used for flavoring soups. **Lb., 50c; ¼ lb., 15c; oz., 5c.**

PARSNIP

Magnum Bonum. A very fine and greatly improved strain of Hollow Crown Parsnip, which we can recommend to all marketmen as a money-maker. The roots are smooth, not so long as those of the standard sort, somewhat thicker in diameter and much more easily pulled. A very heavy cropper. **Lb., 40c; ¼ lb., 15c; oz., 10c.**

Improved Guernsey. An improved strain, which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Of excellent quality. **Lb., 40c; ¼ lb., 15c; oz., 7c.**

Hollow Crown, or Long Smooth. (Abbot's Improved.) Smooth, large, tender and sugary; one of the best. Our stock is very fine. **Lb., 40c; ¼ lb., 15c; oz., 7c.**

PEPPER

CULTURE: See "Vaughan's Vegetable Garden." A Copy Free to Buyers of Vaughan's Seeds.

Our Magnum Dulce Pepper (See Description Below) Should be Grown by Every Gardener.

Vaughan's Improved Sweet Mountain. It is a strong grower, very productive. The peppers when young are of a bright green color, without any shade of purple; when ripe they are of a very beautiful red; the flesh is thick, sweet and mild. They often grow 6 inches long by 4 inches through. Our strain has been selected with great care for over twenty years. **Lb., $2.00; ¼ lb., 60c; oz., 20c; ½ oz., 12c.**

Ruby King. Grows 4½ to 6 inches long, by 3½ to 4 inches thick. The peppers are bright ruby red; one of the best for stuffed pickles. The meat, or walls, is quite crisp and tender. **Lb., $2.00; ¼ lb., 60c; oz., 20c; ½ oz., 12c.**

Chinese Giant. **Double the size of "Ruby King."** Not only is it early in ripening and productive for so large a pepper, but its size will cause it to sell most readily. The fruits are of thick blocky form and of glossy scarlet. They grow four or five inches broad at the top, and are of equal length. All uniformly large. The flesh is mild and unusually thick; it makes an excellent salad sliced and served like tomatoes. **Pkt., 10c; ½ oz., 25c; oz., 40c.**

Cayenne Pickling. Of dwarf habit, and does not branch very much, but unlike the ordinary Cayenne, the peppers grow erect on the plant and are about 2½ inches long; just the right size for pickling. **Pkt., 10c; ½ oz., 15c; oz., 25c.**

MAGNUM DULCE PEPPER.

PEPPER, NEW NEAPOLITAN. A great market gardeners' variety, two weeks earlier than Bull Nose or Ruby King. It is of good size, mild flavor, and the plants are of good stocky growth. Its great value lies in its prolificacy. The flesh of the fruits is quite thick, and turns an even bright red color when ripe. **Price, ½ oz., 12c; oz., 20c; ¼ lb., 60c; lb., $2.25.**

PEPPER, NEW UPRIGHT SWEET SALAD. This pepper grows upright, and not hanging as do other sorts. It is a cross between Chinese Giant and a very mild, sweet variety. Its value to the market gardener is in earliness and its mild flavor, so mild, in fact, that even the seeds may be eaten raw without inconvenience. Fruits are of medium size, and are produced in good numbers. The color is a very handsome green, and turns a waxen red when ripe. A fine variety for fancy trade. **Pkt., 10c; ½ oz., 25c; oz., 40c.**

Vaughan's Magnum Dulce Pepper.

Decidedly superior to Chinese Giant or any other variety known to market in size and sweet quality. The result of many years' careful selection by a successful grower. The yield of this variety may be greatly increased by pinching out the first or king blossoms which appear. These king blossoms produce the largest peppers. However, in doing so, they reduce the yield. The flesh runs from ½ to ¾ in. in thickness, and is exceptionally mild and pleasant in flavor. Fifteen fruits fill a bushel basket. **Pkt., 10c; 2 for 15c; oz., 50c.**

MAGNUM BONUM PARSNIP.

Vaughan's Sugar Pie Pumpkin.

Flesh very thick, sweet and fine flavored. Makes delicious pies. Price: Oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., $2.50.

MAMMOTH SANDWICH ISLAND SALSIFY.

Sandwich Island Mammoth Grows uniformly to an extra large size, averaging **fully double** the size and weight of the roots of the old variety. The roots, notwithstanding their size, are of superior quality and very delicate flavor. **Lb., $1.00; ¼ lb., 30c.; oz., 15c.**

LONG WHITE SALSIFY. Lb., $1.00; ¼ lb., 30c; oz., 15c.

Scorzonera (BLACK SALSIFY). Oz., 15c.; ¼ lb., 40c.

SORREL.

Sorrel—Sauerampfer-Oseille

Of the easiest growth. Sorrel is cultivated for its leaves, which possess a very fine flavor; boiled and served like Spinach. It also makes a delicious soup. **Lb., $1.00; ¼ lb., 25c.; oz., 10c.**

SPINACH

Vaughan's Norfolk Savoy Spinach

This is the variety so highly prized by the large planters about Norfolk, Va. **The leaves, remarkably thick and blistered,** extremely hardy, do not settle in the barrel in shipping as do the other varieties. No seed has caused planters more dissatisfaction than spurious varieties of this, whole crops having been plowed under or abandoned because they were not of the proper kind. Our strain has secured the trade of the largest and best growers in the country.

Swiss Chard—A Money Crop

Cut and Come Again Spinach Far superior to the common Beet for **greens and equal to Spinach.** Sown early in the Spring, in rows 16 ins. apart, and the seedlings afterward thinned out to 6 ins. in the rows, it makes rapid growth of leaves, and **is fit for use for greens sooner than any other variety.** For Summer use it is superior to Spinach, because it can be cut throughout the entire Summer and Fall, when no Spinach is to be had. It is of almost the same flavor and it is much easier to wash and prepare for the table. **Lb., 40c.; ¼ lb., 15c.** No vegetable requires less care than this, and it is safe to say that none yields as constantly as this Spinach, producing uninterrupted, from July until Fall.

CUT AND COME AGAIN SPINACH.

SQUASH.

CHICAGO WARTED HUBBARD SQUASH.

Chicago Warted Hubbard Squash

Our strain of the above will produce mainly the type shown in our photo-engraving, which we consider the **ideal Hubbard** for home or for market. For thirty or forty years this Squash has ranked first for a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Because of this our selection of Chicago Warted Hubbard has been made. **Lb., 70c.; ½ lb., 25c.; 2 ozs., 15c.; oz., 10c.; 5 lbs., $3.25; 10 lbs., $5.50.**

Hubbard An extra choice selection. None better in the market. **Lb., 60c.; ½ lb., 20c.; oz., 10c.; 5 lbs., $2.75; 10 lbs., $5.10.**

Red or Golden Hubbard A perfect type of the Green Hubbard, except in color, which is a bright, deep orange-yellow, very showy and attractive. Flesh deep golden yellow, much richer in color than Hubbard, fine grained, cooks very dry and is of excellent flavor. Its keeping qualities are fully equal to, while in productiveness it far excels the Green variety. **Lb., 80c.; ¼ lb., 25c.; oz., 10c.**

Delicious (fine quality). Oz., 15c.; ¼ lb., 40c.; lb., $1.00

"Straight-Neck" Summer Squash

Market gardeners who ship early Squash to distant markets know the difficulty of packing the crook-necked variety in boxes to good advantage. In our "Straight-Neck" the bad feature of the crook has been overcome, and by continued selection the size has been increased, more uniformly in shape, improved quality. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

PURPLE TOP WHITE GLOBE.

Earliana. The Earliest Large Smooth Red Tomato. Remarkable not only for its earliness, but also for its large size, handsome shape, bright red color and smoothness. Size of fruit 3 inches in diameter and 2½ in depth. Where a market likes a red tomato, this variety is without an equal as an early. ½ oz., 12c; oz., 20c; ¼ lb., 70c; lb., $2.50.

June Pink. Resembles the Earliana in foliage, plant growth, size and shape of fruit. The fruit, however, is a handsome deep pink color instead of red. This tomato commands the highest market price. Was a money getter for many of our Chicago Market Garden customers this last season. The earliest Pink Tomato. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Vaughan's Earliest of All. The earliest of all Tomatoes. Inclined to be somewhat rough in appearance. Of much value in the North for those who have poor hot-bed facilities for growing plants. It is the earliest variety we have yet found. ½ oz., 12c; oz., 20c; ¼ lb., 70c; lb., $2.50.

Acme. Vaughan's Selected Stock. A very fine strain of this popular early variety. Large, round, smooth, of pinkish-purple color. Always a favorite on the market. A very prolific bearer and a sort that has few cracked fruits, even during the most unfavorable weather. ½ oz., 12c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Beauty. The favorite purple, large-fruited variety. Very smooth large fruits in clusters of four to six, set freely on strong, vigorous vines. They ripen early and retain their size throughout the season. Picked quite green they ripen nicely. ½ oz., 12c; oz., 20c; ¼ lb., 65c; lb., $2.25.

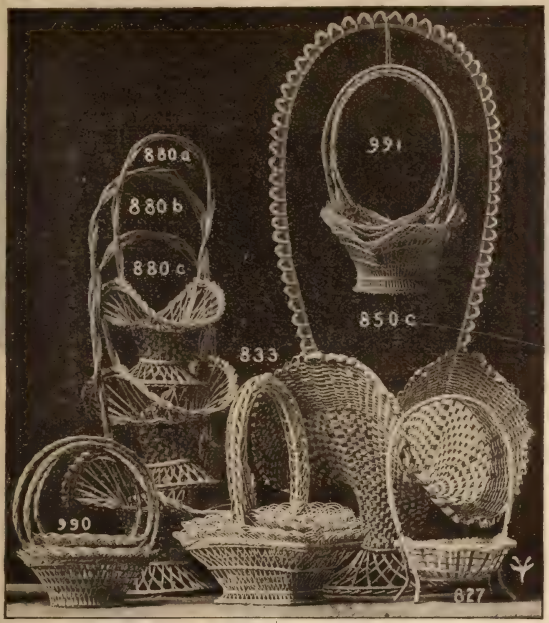
New Stone. Vaughan's Improved Strain. The best main crop red tomato. Color, fine scarlet; stem set high; core small and shallow. Its shipping quality is unsurpassed. As a yielder it is the most productive of any variety now offered. The ideal and most popular canning sort. ½ oz., 12c; oz., 20c; ¼ lb., 65c; lb., $2.25.

New Globe. An entirely new shaped tomato, the majority of the fruits being elongated in shape. Exceedingly productive, ripening early and bearing large sized fruits throughout the season. Color, rose tinged with purple. The popularity of this variety has increased wonderfully since introduction. There is no Market Gardener but should give it a thorough trial. Excellent also for greenhouse use. ½ oz., 10c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Ponderosa. The largest fruited of all Tomatoes. Purple color. Very solid and almost seedless. Fine for slicing and of excellent flavor. Should be picked when not quite ripe, as the inside ripens first. Our seed is a big improvement upon the original variety. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.

Dwarf Champion. The most popular of the dwarf varieties. By continual selection we have bred this variety so that the fruits run larger and the bearing season longer. To do well, must have very rich soil. Color a beautiful glossy purple, skin always smooth. ½ oz., 12c; oz., 20c; ¼ lb., 65c; lb., $2.25.

Vaughan's Tall Champion. Of the "Acme" color. A wonderfully prolific bearer of medium sized fruits, always smooth under the most adverse conditions. For a market gardener who has a wagon trade there is no better sort. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., $3.00.



Magnus. For a market variety for staking in the field this sort has no equal. Large fruits, set as early as the Acme, and bears about 20 per cent more fruit under equal conditions. Fruit smooth and almost globe shaped. Leaves and vine distinct. ½ oz., 12c; oz., 20c; ¼ lb., 60c; lb., $2.00.

BONE MEAL. Vaughan's Rose Grower.

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent.; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

The pump is provided with an automatic mixing device, which keeps the solution in the tank well stirred up, resulting in a spray carrying the same strength of solution from start to finish. The sealing or locking device securing the pump in the tank is simplicity itself, sealing the machine perfectly, with the minimum of time and labor. The Spray Nozzle will produce a spray that is truly **mist-like.**

Auto Spray. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved by the addition of the "Auto Pop" shown in illustration. Briefly described the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control.

No. 6 Combined Double and Single Wheel Hoe, Hill and Drill Seeder.

The most practical and complete garden tool on the market—four machines in one—a hill seeder, a drill seeder, a double wheel hoe to work astride the rows, a single wheel hoe to work between—each form complete and the equal of any tools on the market made as separate tools for separate purpose. The cut shows No. 6 set up as a seeder—sows accurately in hills at 4, 6, 8, 12 or 24 ins. apart or in drills with a quick change from one to the other—requires little power to operate it because it is light and easy running—is well constructed on sound principals and will wear well—is easily and simply adjusted.

LILIUM LONGIFLORUM, Japan Grown

Our Japan growers are instructed to avoid early digging and give us only ripened bulbs, such as should, with reasonable care, give good results when forced under glass. While we cannot make any guarantee as to the result of forcing Lily Bulbs, our Japan growers understand this stock as well as any exporters from that country.

GIGANTEUM, Dark Stem

This variety has proven for the past three seasons to be the best of all-round Lily of the Japanese sorts for Easter forcing. A strong, robust grower, it seems to resist the Lily disease, growers seldom losing over 10 per cent. The large, long trumpet flowers are equally good for pot plant or for cut; has been successfully forced for earliest Easter, and if grown properly we see no reason why it cannot be forced for early Easter of 1911.

PRICES:	6 to 8 inch (400 to case)	Per 100, $ 4 00	Per 1000, $36 00
	7 to 9 inch (300 to case)	Per 100, 7 00	Per 1000, 60 00
	9 to 11 inch (200 to case)	Per 100, 10 50	Per 1000, 95 00

MULTIFLORUM TYPE.

While this variety has not given perfect satisfaction the past two seasons, through mixture of type and disease, many florists prefer it for Easter forcing. We believe the decreased demand will allow our growers to be more careful in rogueing their fields, and bulbs delivered this fall will be truer to type than those delivered in previous years,

PRICES:	6 to 8 inch (400 to case)	Per 100, $3 00	Per 1000, $26 00
	7 to 9 inch (300 to case)	Per 100, 5 00	Per 1000, 45 00
	9 to 10 inch (200 to case)	Per 100, 8 50	Per 1000, 75 00

LONGIFLORUM, Regular Grade.

PRICES:	6 to 8 inch (400 to case)	Per 100, $3 00	Per 1000, $25 00
	7 to 9 inch (300 to case)	Per 100, 4 50	Per 1000, 40 00
	9 to 10 inch (200 to case)	Per 100, 7 50	Per 1000, 70 00

LILIUM FORMOSUM.

This variety comes from islands of the Japanese coast, and has been tested by a number of growers the past season, with varied results. It makes a strong, rapid growth, and plants are more uneven in size than usual in Japan stock. This, however, we do not consider a drawback, as nearly every grower has a demand for pot plants as well as cut lilies.

So far, it has proven to be practically free from disease. Our bulbs are secured from first hands and are the best we know of.

PRICES:	6 to 8 inch (400 to case)	Per 100, $ 4 50	Per 1000, $ 40 00
	7 to 9 inch (300 to case)	Per 100, 8 00	Per 1000, 70 00

LILIUM HARRISII, *Indispensable for Early Forcing.*

While we do not claim that our "Harrisii" are absolutely free from disease, or that every bulb will produce a perfect plant, we do claim that our growers' efforts, in the way of spraying and rogueing, are producing results, our stock being now freer from disease than ever before, and of genuine "Harrisii" type. In fact, the best general crop grown on the Island of Bermuda.

We will supervise the packing and shipping of the crop through our own representative, thus insuring careful grading, and preventing mixture of Longiflorum and other objectionable types.

LILIUM CANDIDUM.

"THICK PETALED."

It is known to most growers of this Lily that there are two strains. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true ***"Thick Petaled" Candidum*** variety, and they have given our customers excellent satisfaction.

NARCISSUS PAPER WHITE GRANDIFLORA

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable, and the grade of these which we offer under the name of "Star Brand" is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading "Fancy" is a selected grade from the general stock.

BLONDIN.—One of the best varieties for Easter. **Per doz., 90c; 100, $6.50; in New York, doz., 85c; 100, $6.00.**

COMPACTA MULTIFLORA.—Grows from 6 to 10 inches in height, and produces larger and finer plumes than Japonica. It is about two weeks earlier. **Per doz., 85c; 100, $6.00; in New York, doz., 75c; 100, $5.50.**

GLADSTONE.—Without question one of the best "Spiraea" on the market. Make a healthy, vigorous plant with spikes of flower borne well above the foliage. Order early, as supply for past 2 years has been very short. **Per doz., $1.30; 100, $9.00; in New York, doz., $1.25; 100, $8.50.**

JAPONICA.—Extra strong clumps. **Per doz., 75c; 100, $5.00; in New York, doz., 65c; 100, $4.50.**

Auburn, Wash.—The first lot of Valley, planted April 1st, is just coming into bloom, and would like to say that these are the finest we have ever grown.
The Auburn Greenhouse Company.

LILY OF THE VALLEY.

In packing and grading the Lily of the Valley Pips for our trade, pips of one type and style of growth, raised on the same soil, will be branded separately so that the customer receiving a certain number and brand from us and forcing it to his satisfaction can depend on the same grade right along until sold out and will be advised by us when the grade is changed. This we believe will be much more satisfactory to the forcer than the former indiscriminate method of delivering all kinds and shapes of Valley under one brand, the planter never knowing what kind of a pip would open up in the next case received.

VAUGHAN'S LONDON MARKET BRAND.

We introduced this select forcing pip to our Florist customers some years ago and it has given excellent satisfaction. The pips are large and plump with long fibrous roots. There is but one "London Market" quality and we control the selected pips of the entire crop, which is limited. **Per 100, $1.75; per 1,000, $14.00; per case of 2,500, $34.40; per 5,000, $67.50.**

PREMIUM BRAND.

This is a high grade pip for late forcing and should not be compared with regular Hamburg stock offered at much lower prices. **Per 100, $1.50; per 1,000, $12.00; per case of 2,500, $29.40; per 5,000, $57.50.**

INTERNATIONAL BRAND.

This is a good every day forcing Valley Pip, Hamburg grown, first size. **Per 100, $1.25; per 1,000, $10.00; per case of 2,500, $24.40; per 5,000, $47.00.**

COLD STORAGE VALLEY PIPS.

SHIPMENT FROM NEW YORK ONLY
Our stock in Chicago being exhausted.

Our Cold Storage Valley gives excellent satisfaction, giving strong spikes of bloom with from 12 to 14 bells and plenty of foliage.

When orders are placed with us for cold storage stock, we set same aside, but can not be responsible for not being able to produce the pips if same have been destroyed by fire or any other cause beyond our control. We accept no responsibility whatsoever for results in forcing.

PRICE.—Per 100 and less than 500, $2.00; 500, $8.00; 1,000, $15.00; 2,000, $28.00.

N. B.—After December 1st price will be, per 100, $2.00; 1,000, $20.00.

KING HUMBERT—Best of all Cannas

Its giant flowers, orange scarlet in color, and the very broad rubber-like bronze leaves altogether make up a plant so distinctly in advance of any other Cannas that the demand for it must be universal. VAUGHAN'S INTERNATIONAL PANSIES THE WORLD'S BEST.

VAUGHAN'S SPECIAL

Vaughan's International Pansy Mixture was first prepared and offered by us in 1889. We import from all the best European sources, and personally inspected the fields of French and German specialists of their finest strains. These with the best American types made up the collection. Each year has added to the quality of its flowers the variety of its colors. We buy every year novelties of known merit to improve the mixture. This is the reason it is always complete, always the latest and always the best mixture as we believe. We add to all the Pansy Mixtures which we now buy more than fifty per cent of the choicest named kinds obtainable, each in rightful proportion. We thus know what it will produce. This is one of the specialties which has established and held the reputation of Vaughan's Flower Seeds, and this is one which we maintain most carefully, not alone as to quality, but in vitality and germination. You are beginning right in Pansy growing when you start with Vaughan's International Mixture. **Trade pkt 50c, ⅛ oz $1.50, ½ oz $5.00, oz $10.00.**

BONE MEAL. ***Vaughan's Rose Grower.***

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent.; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

BONE FLOUR.

Same grade of Bone as our "Rose Grower," only ground to a fine white flour. Dissolves readily, and is, therefore, very quick acting. F. O. B. Chicago: 25 lbs., 75c; 50 lbs., $1.35; 100 lbs., $2.50; 500 lbs., $11.50; 1000 lbs., $22.50. Add 50c per 100 lbs. if shipped from New York.

BONE SHAVINGS.

Lasting, and especially recommended for use in palm soil and on other plants which are not shifted very often, and where a continuous supply of plant food is required. Price: 5 lbs., 25c; 10 lbs., 45c; 25 lbs., 90c; 100 lbs., $3.00.

BONE, BLOOD AND POTASH.

Excellent for mixing into potting soil or as a top dressing. For potting soil use about 20 lbs. to the cubic yard of soil, and for the dressing scatter it about as thick as lawn grass is sown, after loosening the surface of the soil. The pump is provided with an automatic mixing device, which keeps the solution in the tank well stirred up, resulting in a spray carrying the same strength of solution from start to finish. The sealing or locking device securing the pump in the tank is simplicity itself, sealing the machine perfectly, with the minimum of time and labor. The Spray Nozzle will produce a spray that is truly **mist-like.**

Auto Spray. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved by the addition of the "Auto Pop" shown in illustration. Briefly described the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control.

KING HUMBERT

Vaughan's Cannas

Our Canna fields at Western Springs when in bloom in August and September make a grand showing. They attract thousands of visitors, both professional and amateurs. We grow all of the standard kinds, many of the novelties, and discard the inferior ones every year as the improved merits of the newer ones are proven. We have won highest awards at four great expositions, Chicago, Omaha, Buffalo and St. Louis. The Grand Prize, one of the seven, only awarded to American exhibitors in horticulture, was awarded to us at St. Louis.

King Humbert

There is no other **Best Canna** today. None can compare with it. This remarkable "Gold Medal" Canna has been the sensation of the past five years. Of all the wonderful flowering and foliage plants introduced, this one takes the lead for size, color and habit. It is a cross between the Orchid flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free-blooming character of the other. 4½ feet in height.

Its giant flowers, orange scarlet in color, the very broad, rubber-like, bronze leaves, altogether make up a plant so distinctly in advance of any other Canna that the demand for and use of it must be universal.

One Each of the 15 Novelty Cannas for $11.00

The immense growth of our Canna Business during the last few years has been so great that we have put up a winter storage house with a capacity of 150,000 Clumps, thus enabling us to keep the roots in best condition. Cannas should be planted in good, rich garden soil, mixed with half of old, rotten stable manure. Water sparingly for first two weeks after planting. When growing freely, water liberally. Set the plants 18 inches apart each way, and if more than one kind is to be used, be careful to plant the taller growing kinds in the center and the dwarf ones along the edge. This applies to planting in beds.

VAUGHAN'S BEST BEDDING CANNAS

OUR EXPERIENCE WITH CANNAS

For over 20 years we have made the culture of Cannas one of our main specialties. We grew last year on our place at Western Springs **over 10 acres** of standard sorts and novelties, besides 1,000 seedlings. We ought to know something about Cannas. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a **new name only.** We also know, and had to pay dearly for the knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas, as long as the color is somewhere near correct. To them **any** red is a Chicago, **any** yellow a Florence Vaughan, etc. **Our Cannas are true to name,** and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, evenness of height and size of flowers.

CHOICE AND STANDARD SORTS FOR 1911

CHRYSANTHEMUMS

NEW VARIETIES FOR 1911

Delivery April 15th, Orders Booked Now.

Alice M. Flagler. Pure white Japanese incurved, perfect stem and foliage and one that in an average season should rank very high. It might be described as a very much improved Mrs. Robinson with a heavier stem. Crown bud August 20th. **Each 50c, doz. $5.00, per 100 $35.00.**

Chadwick Supreme. A sport of W. H. Chadwick. This has been grown for two years without a sign of reversion to the parent. In all except color it is a Chadwick. The color is very similar to Maud Dean. As a late pink Chrysanthemum it has no equal and we do not hesitate to recommend it as a late pink of unusual excellence. **Each $2.00, doz. $20.00.**

Chrysolora. This new variety can be briefly described as an early Col. D. Appleton, coming in 15 days earlier; is of larger size, stronger stem, not quite as tall and in color is intermediate between this variety and Major Bonnaffon. We consider this one of our greatest achievements, possessing sterling worth from a commercial standpoint, while its size and splendid keeping qualities permit its taking a prominent part at the exhibitions. Best buds are those selected August 1st to 15th. **Each 75c, doz. $7.50, per 100 $50.00.**

December Gem. A ball-shaped Japanese white, with pink stripe on edge of petals, giving a pink or pearly tint to the blooms. DAHLIAS

In the following list we offer what we consider the very best of the foreign and American Dahlias, which we observed in our extensive trials last season. The greater part we can supply both in dry roots and small plants, but some of the rarer sorts we furnish in green plants only.

While roots may generally be planted by April 25th, it is hardly wise to set out the growing plants until May 10th to 15th.

Dry divided roots may be had at any time, as long as the supply lasts; pot-plants, 2 to 2¼-in., can be supplied during May.

Contrary to popular opinion, we maintain that Dahlia plants are always superior to dry roots, and are willing to take the responsibility of recommending them.

Varieties marked (P) we can supply in pot plants only.

NOVELTIES

DARK PINK KILLARNEY

A sport of Killarney originating with the Montrose Greenhouses, Montrose, Mass. It is identical in habit with the parent, and the character of the bloom is the same with the exception of the color. It is much darker than Killarney at all seasons of the year, and is especially bright during the winter months, when Killarney is so liable to variation. No own root stock of this Rose will be disseminated in 1911. We are offering only selected grafted plants from ¼-in. pots.

Prices: **40c each, $3.00 per doz., $20.00 per 100, $180.00 per 1000.**

DOUBLE PINK KILLARNEY

This new sport appeals to us as one of the best Roses that has ever been offered to the trade. It is a sport from the White Killarney and it is showing many features that are improvements over Killarney itself. The bud is longer and, on the average, has from ten to twelve more petals. In growth the plant is more vigorous, resulting in longer stems. In color it is similar to Killarney as a bud, but when opened reveals a depth of color that is both distinct and very pleasing.

We are offering only selected grafted plants: **Each, 75c; per dozen, $6.00; per 25, $10.00; per 50, $17.50; per 100, $30.00.**

NATALIE BOETTNER

Soft creamy yellow flowers of exquisite shape produced throughout the whole summer. An exceptionally free bloomer and vigorous grower. Awarded two medals at the Spring Exhibition, Berlin, 1909.

Strong dormant stock, **each 50c.**

PRINCE DE BULGARIE

This Rose is of French origin, introduced into the United States a few years ago. The name being lost when the plants were imported, it was sold under the name "Mrs. Taft." In color it is a beautiful shell pink; in habit it is all that can be desired, except that it requires a warmer temperature in dark weather than the ordinary Rose of commerce. For ten months in the year it is one of the best Roses we have ever grown. The stem and foliage it is almost perfect. Our stock of this Rose is large and we intend to have plenty to offer.

Grafted Stock: 2¼-in. pots, **$3.00 per doz., $20.00 per 100, $180.00 per 1000.** Own Root Stock: 2½-in. pots, **$2.50 per doz., $15.00 per 100, $120.00 per 1000.**

RADIANCE

Radiance is a Rose of a cerise color sent out by John Cook last year. It is very thrifty in growth, with excellent stems. It gives promise of being a very valuable Rose for commercial purposes.

Grafted Stock: **$2.50 per doz., $18.00 per 100; $150.00 per 1000.** Own Root Stock: **$1.50 per doz., $10.00 per 100; $90.00 per 1000.**

ROSE QUEEN

Color, a beautiful warm rose cerise, which does not fade in hot weather; fine long stems, carrying long, nicely pointed buds that open readily even in gloomy weather. It has a strong, healthy constitution, free from mildew and black spot and the average grower will have no trouble in producing high grade blooms. Temperature of Killarney and Maids suits it. A quick and easy variety to propagate. 2½-in. pot plants ready March 1st, **each, 50c; doz., $5.00; 100, $35.00.**

NEWER VARIETIES

LEUCHTFEUER—(Dwarf Gruss an Teplitz)

This beautiful new bedding rose is a cross between Gruss an Teplitz and Cramoisi Superieur. This might be called a Dwarf Gruss an Teplitz, possessing all the brilliant qualities of its parent with the additional advantage of having flowers which are more double and of a sweeter fragrance. Brilliant dark red. 2½-in. pots, **each, 25c; doz., $2.50;** 3½-in. pots, **each, 35c; doz., $4.00.**

MAD. SEGOND WEBER

This novelty, a cross between Antoine Rivoire and Souv. de Victor Hugo, is one of the most desirable of recent introductions. The color, a pure fresh salmon rose, is entirely new among Hybrid Teas.

The flowers are very large, composed of large, firm petals, cup-shaped, of regular form and last a long time. Buds are pointed, long and are borne upright on long, rigid stems. The habit of the plant is irreproachable, the foliage vigorous and abundant. It is an ever-blooomer, flowering from early Spring until late Fall, rendering it most desirable for forcing and bedding.

2½-in. pots, **each, 15c; doz., $1.25; 100, $8.00.**

MRS. AARON WARD

Buds on first opening are coppery orange, passing to orange yellow when half open and finally turning to a beautiful shade of pinkish fawn. A wonderful combination of colors. Strong, healthy, vigorous grower and very free bloomer.

Being distinct, any grower wishing novelty in his cut roses beside pink, white and red, will be delighted with Mrs. Ward.

2¼-in. pots, own roots, **each, 20c; doz., $2.00; 100, $12.00;** 3½-in. pots, own roots, **each, 25c; doz., $2.50;** 2½-in. pots, grafted, **each, 10c; doz., $3.50; 100, $25.00.**

MY MARYLAND (H. T.)

Bright salmon pink with paler edges, very fragrant, robust and floriferous, a rose of great promise. This variety has proved to be a wonderful producer and the best pink Summer Rose.

2½-in. pots, own roots, **doz., $1.00; 100, $6.00;** 3½-in. pots, **doz., $2.00; 100, $15.00;** 2½-in. pots grafted, **doz., $2.00; 100, $15.00.**

DARK PINK KILLARNEY

OTHELLO (Syn Chateau de Clos Vougeot)

Velvety scarlet shaded with fiery red, changing to velvety crimson as the flowers expand. Splendid foliage, a superb rose. 2½-in. pots, **each, 25c; doz., $2.50; 100, $15.00;** 3½-in. pots, **each, 35c; doz., $3.60.**

THE LYON ROSE (H. T.)

A vigorous grower, very large flowers. Color shrimp pink at end of petal, coral red center, shaded with yellow, very fragrant. 2-year dormant, **each, 50c; doz., $5.50.**

WHITE KILLARNEY

Identical with the well-known Killarney, and equally popular, and will supplant all other white roses now grown, because it is an all-season rose.

Strong plants, own roots, 2½-in. pots, **doz., $1.00; 100, $6.00;** 3½-in. pots, **doz., $2.00; 100, $15.00.** Strong plants, grafted, 2½-in. pots, **doz., $2.00; 100, $15.00.**

Don't miss our forcing Gladiolus for growing in benches:

Augusta **Mrs. Francis King**
America **Mad. Monneret**

VAUGHAN'S GLADIOLI

Our stores at Chicago and New York have taken a front rank in the last few years in growing and wholesaling the Gladioli.

We have introduced two remarkable kinds in recent years—Princeps, the $1,000 wonder, and Mrs. Francis King, the remarkable cut flower sort.

We are headquarters for all the best selections in quantities, and florists are planting our named early flowering types in five to ten thousand lots.

Gladiolus Mrs. Francis King

PRINCEPS The King of all Gladioli

Popular beyond every other variety, both in this country and throughout Europe. It has made a class for itself, and you do not have the best of all until you buy it.

Individual flowers are 5½ inches in diameter and sometimes one inch larger, color being a brilliant scarlet crimson with three broad white blotches on the lower petals. Very scarce.

Price, each, 18c; per dozen, $1.60; per 100, $11.00.

Mrs. FRANCIS KING New Giant-Flowered Gladiolus

Introduced by **"Vaughan's Seed Store"** in 1906, it has proven of exceptional merit for florists' use as a cut flower. Color is a bright "Flamingo" pink, strikingly attractive; the separate flowers, which measure 4 to 5 inches, are borne on stalks 5 feet high, 5 to 6 flowers being open at one time. Strong, robust grower and one of the best florist sorts ever introduced. Price, first size, **per doz., 40c; per 100, $2.65; per 1,000, $2 .00.** Second size, **per doz., 35c; per 100, $2.25; per 1,000, $18.00.**

AMERICA

The finest pink Gladiolus yet introduced, being especially valuable to florists, both for sale as a cut flower or use in design work; of strong healthy growth, spikes average from 2 to 3 feet long, individual flowers are large, open and spreading, all facing one way, color being delicate lavender pink, might be called a tinted white. An **easy forcer** and a money maker for the florist.

Price, per doz., 60c; 100, $4.00; 500, $18.00.

AUGUSTA

The best "Florist's" White Gladiolus; should be planted liberally by all. Strong healthy long spikes of flower, color being pure white with blue anthers. We are headquarters on this variety, having a splendid stock of large healthy bulbs. **Per dozen, 35c; per 100, $1.85; per 1,000, $16.00.**

BARON J. HULOT. Dark velvety **purple** flower of the Lemoine type, tall and slender, flowers thickly set on spike. Best blue we have seen. **Per doz., $1.30; per 100, $10.00.**

SILVERETTA. Creamy white with carmine blotches on lower petals, spike strong and tall. Blooms later than most sorts. Don't miss this excellent **German novelty. Each, 8c; per doz., 75c; per 100, $5.00.**

REINE DE L'ANJOU "Radium," "White Excelsior." Best present commercial white. **Doz., $2.00; per 100, $15.00.**

VAUGHAN'S ASTERS

ASTER, Smith's Peerless

This Aster, a selection of the Giant Branching Aster, is without reservation the finest Aster for cut flower purposes we have ever seen. The style, substance of the flowers and formation of the plant outclasses all other Asters grown for comparative test in our Trial Grounds this season. The stems are long and wiry, the flowers of great depth and densely petaled, and even a full blown flower never exhibits the yellow disk.
